Human-Earth System Dynamics Rongxing Guo, 2018-05-16 This book explores the factors and mechanisms that may have influenced the dynamic behaviors of earliest civilizations focusing on both environmental geographic factors on which traditional historic analyses are based and human behavioral factors on which anthropological analyses are usually based It also resurrects a number of common ancestral terms to help readers understand the complicated process of human and cultural evolution around the globe Specifically in almost all indigenous languages the words wa and any variants of it were originally associated with the sound of crying of and certainly were selected as the common ancestral word with the meanings of house home homeland motherland and so on by early humans living in different parts of the world This book provides many neglected but still crucial environmental and biological clues about the rise and fall of civilizations ones that have largely resulted from mankind s long lasting Win Stay Lose Shift games throughout the world The narratives and findings presented at this book are unexpected but reasonable and are what every student of anthropology or history needs to know and doesn t get in the usual text Professor Guo explores the dynamics of civilizations from the beginnings to our perplexingly complex world There are lots of thought provoking ideas here on the rise and decline of civilizations and nations Anyone wishing to understand global developments should give this book serious consideration John Komlos University of Munich Germany and Duke University USA It is interesting to see a Chinese perspective on the questions of deep history that have engaged Jared Diamond Yuval Harari and David Christian Guo argues that understanding cyclical threats has been the key to human progress which is driven by the dialectic of material privation and human ingenuity Peter Rutland Wesleyan University USA

Fear in the Medical and Literary Imagination, Medieval to Modern Daniel McCann, Claire McKechnie-Mason, 2018-05-19 This book is about an emotion constantly present in human culture and history fear It is also a book about literature and medicine two areas of human endeavour that engage with fear most acutely The essays in this volume explore fear in various literary and medical manifestations in the Western World from medieval to modern times It is divided into two parts The first part Treating Fear examines fear in medical history and draws from theology medicine philosophy and psychology to offer an account of how fear shifts in Western understanding from the Middle Ages to Modern times The second part Writing Fear explores fear as a rhetorical and literary force offering an account of how it is used and evoked in distinct literary periods and texts This coherent and fascinating collection will appeal to medical historians literary critics cultural theorists medical humanities scholars and historians of the emotions

When Therapists Cry Amy Blume-Marcovici, 2017-03-16 When

Therapists Cry addresses one of the most authentic and singularly human experiences a therapist can have in therapy crying. While therapist crying in therapy is the explicit focus of this book it is used as a springboard for understanding the various ways in which therapists emotions come alive and become visible in the therapy room. In depth clinical examples and conceptualizations from expert contributors illustrate what the experience of therapist crying looks and feels like why therapists cry how crying impacts the therapist and the treatment what therapists feel about their tears and the many ways in which therapists may engage with their own tears in order to facilitate therapeutic progress ensure appropriate professional conduct and deepen their clinical work.

Thinking about Tears Marco Menin, 2022 A crucial period for the birth of modernity France's long eighteenth century c 1650 1820 was an era marked by the formulation of a new aesthetic and ethical code revolving around the intensification of emotions and the hyperbolic use of weeping. *Thinking About Tears* reveals another side to a period often called the age of reason.

The Function of Emotions Heather C. Lench, 2018-04-20 This eye opening text brings together research from behavioral science neuroscience and other fields to make a cogent case for emotions acting as a practical framework for living our lives. A dozen basic emotions are analyzed in terms of what causes them how they change thoughts and behaviors and the functional value of these responses. Contrary to the common idea of emotions as fleeting occurrences they are shown as having the potential for lasting impact on moods thoughts and behaviors. Intriguing findings assert that even negative emotions such as jealousy and anger can have positive results such as promoting positive goals and can lead to successful outcomes in overarching domains such as cognition and well being. Among the topics covered How fear and anxiety promote attention and protective behavior How sadness and depression promote analysis of complex problems in goal pursuits How happiness promotes processing and attention How love promotes relationship development and goal attainment How pride promotes sense of self and identity. *The Function of Emotions* is a valuable resource for students researchers and clinicians interested in the psychology and neuroscience of emotions and their function in everyday life. It will attract an interested readership among professionals working in such fields as education management and leadership social work and psychotherapy.

Music in the Human Experience Donald A. Hodges, Gary E. McPherson, 2025-06-16 *Music in the Human Experience: An Introduction to Music Psychology* Third Edition explores the ways in which we make sense of music and how we respond to it cognitively physically and emotionally. Written by musicians for musicians while incorporating findings from biology anthropology sociology physics philosophy and education the text presents musical experiences as widely varied and hugely complex affairs.
