of ephemerality volatility and contingency that finds people desperately looking for firmer markers of identity The book argues that a compelling case can be made for re orienting the study of contemporary European cinema around the figure of the migrant viewed both as a symbolic figure representing post national citizenship urbanization the gap between ethics and justice and as a figure occupying an increasingly central place in European cinema in general rather than only in what is usually called migrant and diasporic cinema By drawing attention to the structural and affective affinities between the experience of migrants and non migrants Europeans and non Europeans Trifonova shows that it is becoming increasingly difficult to separate stories about migration from stories about life under neoliberalism in general

The Politics of Proximity Giuseppina Pellegrino,2016-02-24 Increasingly everyday living and practices depend on how mobility and immobility is articulated through the ever present influence of a range of physical and virtual infrastructures This book focuses in particular on the political dimension of mobility and immobility which plays a key role in establishing patterns of proximity in real and virtual co presence Proximity is seen as the result of choices negotiations and practices carried out in different settings Drawing from different literature streams Sociology Organization Studies and Science and Technology Studies this book analyses patterns of mobility in relation to new possibilities of organizing space time and proximity to others Different phenomena from memorial sites to migration from urban mobility to mobile work are analysed illustrating different types of proximity through mobility and immobility In doing so this book offers a cross cultural and innovative theoretical framing of issues linked to mobility through the link with immobility and proximity

Momentous Mobilities Noel B. Salazar,2018-07-20 Grounded in scholarly analysis and personal reflection and drawing on a multi sited and multi method research design Momentous Mobilities disentangles the meanings attached to temporary travels and stays abroad and offers empirical evidence as well as novel theoretical arguments to develop an anthropology of mobility Both focusing specifically on how various societies and cultures imagine and value boundary crossing mobilities elsewhere and drawing heavily on his own European lifeworld the author examines momentous travels abroad in the context of education work and spiritual quests and the search for a better quality of life

What's Queer about Europe? Mireille Rosello,Sudeep Dasgupta,2014-02-03 What s Queer about Europe examines how queer theory helps us initiate disorienting conjunctions and counterintuitive encounters for imagining historical and contemporary Europe This book queers Europe and Europeanizes

queer forcing a reconsideration of both Its contributors study Europe relationally asking not so much what Europe is but what we do when we attempt to define it The topics discussed include gay marriage in Renaissance Rome Russian anarchism and gender politics in early twentieth century Switzerland colonialism and sexuality in Italy queer masculinities in European popular culture queer national identities in French cinema and gender theories and activism What these apparently disparate topics have in common is the urgency of the political legal and cultural issues they tackle Asking what is queer about Europe means probing the blind spots that continue to structure the long and discrepant process of Europeanization Innovative Perspectives on Tourism Discourse Bielenia-Grajewska, Magdalena, Cortes de los Rios, Enriqueta, 2017-08-10 The application of linguistic optimization methods in the tourism travel and hospitality industry has improved customer service and business strategies within the field It provides an opportunity for tourists to explore another culture building tolerance and overall exposure to different ways of life Innovative Perspectives on Tourism Discourse is a pivotal reference source for the latest research findings on the role of language and linguistics in the travel industry Featuring extensive coverage on relevant areas such as intercultural communication adventure travel and tourism marketing this publication is an ideal resource for linguists managers researchers economists and professionals interested in emerging developments in tourism and travel

European Multiplicity Didem Buhari-Gulmez, Chris Rumford, 2014-06-30 European Multiplicity does not conform to the expectations of a narrow EU studies agenda wherein European integration is seen as the destiny for the continent each country including non members being compelled to seek a place in an unfolding order united in diversity Rather the book demonstrates the benefits of an agenda shift away from an overriding concern with integration towards a consideration of the possibility that a singular Europe may not exist and that the multiplicity of Europe is all around us As the chapters in this volume highlight multiplicity reveals itself across the range of EU studies as a key dimension in Europe s transformation Multiplicity is evident both in cases where official EU policy exists labour migration citizenship regional policy and in areas which are central to European life more generally multiculturalism multilingualism the public sphere Euroscepticism The idea of European multiplicity also challenges the established notion that plurality can be accounted for in terms of identity politics Moreover it confronts the tendency to see Europe in terms of binaries such as East West old new North South core periphery Christian Muslim EU members non members and top down bottom up A core feature of this book is the establishment of the viability of an approach to studying Europe which does not rely on the binaries upon which thinking about identity is all too often based Many Europes is one of the growing issues in EU scholarship no longer confined to the margins of European Studies The book makes a compelling case for the idea that Europe is best understood in terms of its inherent multiplicity **L'Auberge espagnole** Ben McCann, 2018-05-11 Part romantic comedy part sitcom part social drama L Auberge espagnole The Spanish Apartment recounts a familiar youth ritual the move from university to the real world the often complicated personal romantic and cultural encounters that ensue and the moral uncertainties that

characterize that key biological and physiological developmental stage between adolescence and adulthood French director C dric Klapisch showcases the extraordinary colour and beauty of Barcelona s architecture and places his hero Xavier at the heart of this smartly written film which makes a series of wry observations on educational exchange programmes multi culturalism and the direction European youth might take in the twenty first century This book addresses the topic of Europe s youth generation paying particular attention to the ways in which the film depicts the transition from adolescence to adulthood as allegory for the experiences of European society as it moves through periods of readjustment towards uncertain futures It also looks into the ecosystem of contemporary French cinema the Erasmus programme and its influence on youth experience and identity politics in relation to nationhood and European ness The book also examines the two sequels to the film Russian Dolls 2005 and Chinese Puzzle 2013 and how the complications faced by the main characters across the trilogy suggest that the move to adulthood is a never ending process of growing up and reaching a level of self actualization

European Cinema after the Wall Leen Engelen,Kris Van Heuckelom,2013-11-21 Since the fall of the Berlin Wall in 1989 transnational European cinema has risen not only in terms of production but also in terms of a growing focus on multiethnic themes within the European context This shift from national to trans European filmmaking has been profoundly influenced by such historical developments as the collapse of the Iron Curtain and the subsequent ongoing enlargement of the European Union In European Cinema after the Wall Screening East West Mobility Leen Engelen and Kris Van Heuckelom have brought together essays that critically examine representations of post 1989 migration from the former Eastern Bloc to Western Europe uncovering an array of common tropes and narrative devices that characterize the influences and portrayals of immigration Featuring essays by contributors from backgrounds as divergent as film studies Slavic and Russian studies comparative literature sociology contemporary history and communication and media studies this volume will appeal to scholars of film European history and those interested in the impact of migration diaspora and the global flow of cinematic culture

Pacific Automobilmism Gijs Mom,2022-09-13 The beginning of the 21st century has seen important shifts in mobility cultures around the world as the West s media driven car culture has contrasted with existing local mobilities from rickshaws in India and minibuses in Africa to cycling in China In this expansive volume historian Gijs Mom explores how contemporary mobility has been impacted by social political and economic forces on a global scale as in light of local mobility cultures the car as an adventure machine seems to lose cultural influence in favor of the car s status character

Invisible Migrant Nightworkers in 24/7 London Julius-Cezar MacQuarie, 2023-08-30

This book captures the hidden labour of migrant nightworkers in 24/7 London It argues that late capitalism normalises nightwork yet refuses to recognise the associated problems from lack of decent working conditions to the seizure of the workers private time for self development family and social life The book shows how the articulation of nightworkers subjectivities and socialities happens at the intersection between migration precarity and nightwork and traces how each of these dimensions magnifies the lived experience of the others It further reveals that any possibilities for cooperation or solidarity in the workplace between migrant nightworkers become fragile and secondary to their survival of the nightshift It also elucidates the mechanisms that hinder cohesion between vulnerable groups placed temporally and socially on a different par to the mainstream societies As such this book is an excellent resource for labour regulators experts and student researchers in migration work and gender The book offers a deeply empathic and engaging portrayal of the production of disciplined and exploitable manual labor in permanent nightshift cities It cogently unpacks the experiences of embodied precarity through the largely unseen micro practices of workplaces that entrap migrant laborers The

nightnographic component adds an original dimension to the inquiry Violetta Zentai Central European University *Border Culture* Victor Konrad, Anne-Laure Amilhat Szary, 2022-12-29 This book introduces readers to the cultural imaginings of borders the in between spaces in which transnationalism collides with geopolitical cooperation and contestation Recent debates about the refugee crisis and the spread of the COVID 19 pandemic have politicized culture at and of borders like never before Border culture is no longer culture at the margins but rather culture at the heart of geopolitics flows and experience of the transnational world Increasingly culture and borders are everywhere yet nowhere In border spaces national narratives and counter narratives are tested and evaluated coming up against transnational culture This book provides an extensive and critical vision of border culture on the move drawing on numerous examples worldwide and a growing international literature across border and cultural studies It shows how border culture develops in the human imagination and manifests in human constructs of nation and state as well as in transnationalism By analyzing this new and expanding cultural geography of border landscapes the book shows the way to a fresh broader dialogue Exploring the nature and meaning of the intersection of border and culture this book will be an essential read for students and researchers across border studies geopolitics geography and cultural studies **Transnational Feminism in Film and Media** K. Imre, 2007-12-09 This collection of interdisciplinary essays examines current cinematic and media landscapes from the perspective of transnational feminist practices and methodologies Focusing on film media art and video essays the contributors chart innovative strategies for exploring contemporary visual cultures In Permanent Crisis Ipek A.
