Travel and Tourism in the Age of Overtourism Claudio Milano, Marina Novelli, Joseph M. Cheer, 2021-03-30 Over the last decade while many scholars have maintained their interest in the classical debate concerning the impacts of tourism some have attempted new conceptualisations while others have converged towards critical narratives promoted by a number of social movements and have become involved in subsequent discussions on overtourism and tourismphobia The terms overtourism and tourismphobia have their genesis in the rapid unfolding of unsustainable mass tourism practices and the responses that these have generated amongst academics practitioners social movements and grassroots organizations concerned with the detrimental use of urban rural and coastal spaces among others for tourism purposes The renewed interest in the study of the adverse impacts of tourism as implied in the term overtourism is related to a variety of well established causes Travel and Tourism in the Age of Overtourism builds on existing knowledge and makes a theoretical and practical contribution the overtourism debate and the system dynamics underlining it This collection suggests ways to address this from a tourism and planning perspective It offers critical reflections on the contemporary evolution of tourism development and the implication of such processes on people places and spaces The chapters in this book were originally published as a Special Issue of the journal Tourism Planning Development

The Twenty-First-Century Parson's Handbook Jared C. Cramer, 2025-01-30 When first published at the end of the nineteenth century The Parson's Handbook went on to go through twelve editions the final of which was published in 1932 four years before the death of its author Percy Dearmer In 1965 a thirteenth edition was published by Dearmer's student Cyril Pocknee Now nearly a hundred years after the publication of Dearmer's twelfth edition Jared Cramer provides a new version of this work that will bring the insights of Dearmer's distinctively Anglican approach to worship to bear on the ministry of clergy and lay leaders in the twenty first century Entirely revised and rewritten with attention to the principals of modern liturgical theology and history along with the ecumenical and multicultural context of
