Training Christianity Princeton Legacy Library:

Training in Christianity Søren Kierkegaard, 2015-12-08 Kierkegaard in his late and confirmed Christian period discusses the sharp separation of Christianity from Christendom as seen in the official church Originally published in 1944 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Education Ted Newell, 2019-01-17 Education has the power to shape culture through the passing on of traditions narratives and values across generations Profiling five distinct paradigms of education through different eras in history this book casts a vision for a renewal of Christian education essential for bringing hope to our postmodern world Understanding the role of education in the reformation of societies will enable churches families and schools to reclaim their task for the spread of the gospel in our world today

Economics and Ageing José Luis Iparraguirre, 2019-11-29 This upper level textbook provides a coherent introduction to the economic implications of individual and population ageing Placing economic considerations into a wider social sciences context this is ideal reading not only for advanced undergraduate and masters students in health economics and economics of ageing but policy makers professionals and practitioners in gerontology sociology health related sciences and social care This volume introduces topics in labour economics including the economic implications of ageing workforces It covers pension economics and pension systems with their macroeconomic and distributive effects and the question of risk Finally it describes macroeconomic consequences of ageing populations on aggregate saving inflation international trade and financial markets

Believing in Shakespeare Claire McEachern, 2018-04-19 This ground breaking and accessible study explores the connections between the English Reformation's impact on the belief in eternal salvation and how it affected ways of believing in the plays of Shakespeare Claire McEachern examines the new and better faith that Protestantism imagined for itself a faith in which scepticism did not erode belief but worked to substantiate it in ways that were both affectively positive and empirically positivist Concluding with in depth readings of Richard II King Lear and The Tempest the book represents a markedly fresh intervention in the topic of Shakespeare and religion With great originality McEachern argues that the English reception of the Calvinist imperative to know with God allowed the very nature of literary involvement to change transforming feeling for a character into feeling with one

A Legacy of Learning Edward J. Power, 1991-07-03 A Legacy of Learning examines the principal periods in the history of European and American education beginning in ancient Greece and ending in twentieth century America It is a superior textbook for courses in the history of western education tightly organized to cover the territory while developing a strong central theme addressing the continuities of western educational experience Special attention is given to

philosophies of knowledge the content of instruction cultural evolution and educational policy The history of education can be construed so broadly as to be unmanageable Power's thoughtful organization and clear story telling prose delineates and brings to life the watershed epochs in educational history *Will Schooling Ever Change?* Piotr Mikiwicz, Marta Jurczak-Morris, 2023-03-28 This book is an insightful meta narrative about schooling which explores the global natural experiment of the COVID 19 pandemic and its potential impact on school culture The proposed book discusses how the abrupt and somewhat forced digital transformation of schooling on a global scale caused by the COVID 19 pandemic did not change the educational status quo It states that online teaching and learning failed to transform the role of the key school actors students and teachers as well as the relationship between them despite megatrends such as digitalisation automation and the development of artificial intelligence This focus text discusses why the global experience of distance education did not translate into a significant qualitative change and provides a theoretical framework which enables the reader to interpret and explain the processes that occurred during distance education as well as understand why extraordinarily little if nothing has changed in school culture It will appeal to scholars and students from the sociology of education and from education studies particularly those interested in school culture innovation in education online teaching and learning curriculum studies and education policy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Christ's Idea of Authority in the Church* John Wijngaards, 2023-08-23 The Catholic Church like other churches has created institutions to support its spiritual mission The exercise of authority plays a central role in how they function The truth is that ugly accretions have attached themselves to that authority in the course of the centuries Like weeds scallops and rubbish clinging to the bottom of a ship Think of unchristian cultural views customs and practices from the Roman Empire the barbarian tribes in Europe and the feudalistic Middle Ages that nailed themselves to the ministries These cancerous growths have even been enshrined in church laws This booklet identifies what is wrong by going back to Jesus original intentions Find out how Jesus wanted the spiritual authority he gives to be exercised in practice *'All my books in foreign tongues'* Kasper van Ommen, 2025-02-19 In 1609 the renowned scholar Joseph Scaliger 1540-1609 bequeathed all my books in foreign tongues to the library of Leiden University Scaliger's gift marked the foundation of the extensive Oriental collections in Leiden How and why did Scaliger collect these rare and precious books The books and manuscripts printed and written in Hebrew Arabic Ethiopian Armenian Russian and other non western languages were kept separate from the rest of the collection of Leiden University Library in an ornamental cupboard the Arca Scaligerana This study offers the first systematic exploration of the printed books in Scaliger's bequest The books remain extant in Leiden University Library albeit spread across the collection By reconstructing the collection we gain a deeper understanding of Scaliger's extensive scholarly network the development of oriental philology the early modern book trade and the early modern use of catalogues and the development of libraries *God's Beloved*

Queer Rolf R. Nolasco Jr.,2019-07-29 The book re centers the conversation back to what I believe anchors our identity and inspires our ways of being living and loving That is we all are beloved children of the Triune God whose image and likeness we bear hence we all are God s beloved queers primed to flourish in more ways than we can ever dare to imagine for ourselves I have drawn from a wide range of disciplines pastoral theology spirituality counseling psychology affective neuroscience anthropology to offer a more nuanced description of what it means as queer folks to be sacred icons of God like everyone else offering multifarious windows into the spacious gratuitous and transforming love of God It also explores with penetrating detail the inner psychological and spiritual terrain of our queer lives along with spiritual practices that will help support our flourishing

Holistic Bioethics Jude Thaddaeus Buyondo,2024-10-31 In pursuing a holistic bioethics while dialoguing with different sciences appreciation of moral affinities between human and nonhuman entities Dr Buyondo argues for a minimum moral status for nonhuman entities The minimum normative basics of approaches to biomedical ethics are at the very least not distinctive to either human animals or nonhuman animals only The investigation builds further on the African understanding of life where no creation is lifeless In establishing a more inclusive functional bioethics the African approach goes further than biocentrism ecocentrism and holism to ground an inclusive African holistic moral egalitarianism suggesting that all forces and all created things have life We are not emphasizing how every system and creature command equal respect rather everything has life commands respect and moral concern as a minimum imperative within a Black African holistic approach to bioethics However holistic bioethics can neither be Western nor an African invention that people of other cultures only admire from a distance Moreover holistic bioethics doesn t offer the last word on the ethics of nonhuman animals holistic anamnestic solidarity the relational Other and intercultural theological bioethics

The Impact of Church Consultancy Ian G. Duncum,2019-01-14 This book follows the journey of ten churches who underwent church consultancies and explores in depth both the consultancy and its outcomes Pre consultancy and post consultancy snapshots four to five years apart of vitality indicators and attendance figures using National Church Life Survey and other data are used to compare these with churches that have not undertaken church consultancies Theologies of church consultancy church health and church growth are also developed and examined intersecting with a wide body of literature including contemporary ecclesiologies Consultancy outcomes are examined in detail This includes interviews with pastors of some of those churches reflecting on their perceptions of whether and how the church consultancy impacted the health and growth of their church Conclusions are drawn about the efficacy of church consultancy in influencing the health and growth of churches as well as contexts for the best use of church consultancy This is a significant book for denominational leaders theological lecturers pastors and church leaders as they encounter lack of health in churches and seek ways forward for greater health and impact in their local communities

Pacifism Robert L. Holmes,2016-12-15 In a world riven with conflict violence and war this book proposes a philosophical defense of pacifism It argues that there is a moral presumption

against war and unless that presumption is defeated war is unjustified Leading philosopher of non violence Robert Holmes contends that neither just war theory nor the rationales for recent wars Vietnam the Gulf War the Iraq and Afghanistan Wars defeat that presumption hence that war in the modern world is morally unjustified A detailed comprehensive and elegantly argued text which guides both students and scholars through the main debates Just War Theory and double effect to name a few clearly but without oversimplifying the complexities of the issues or historical examples *The Sage Encyclopedia of Education and Gender* Elizabeth E. Blair, Sherry L. Deckman, 2025-10-02 The Encyclopedia of Education and Gender is a timely and expansive two volume reference work that addresses the urgent need for a comprehensive inclusive resource on gender in educational contexts worldwide While understandings of gender roles expectations and opportunities have evolved significantly schools continue to serve as key battlegrounds for debates over gender identity access and expression This encyclopedia responds to ongoing educational and societal shifts by presenting 250 to 300 concise expertly written entries that cover foundational concepts emerging issues and critical debates at the intersection of gender and education Authored by a global network of scholars this authoritative compendium offers a broad interdisciplinary perspective and serves as a first stop resource for students educators and researchers seeking to navigate this rapidly developing and complex field

Principles of Zen Training for Educational Settings Hugh Schuckman, 2024-10-31 This book provides insights into new developments and persistent traditions in Zen teacher training and education through the use of historical archival research and original interviews with living Zen Masters It argues that some contemporary Euro American social values of gender equality non discrimination rationality ecumenicism and democracy permeate not only the organizational aspects of the Kwan Um School of Zen case study but soteriological processes and goals of the training more widely Each chapter showcases the ways important facets of Zen education from meditation to curriculum development to school management have absorbed Euro American cultural and social ideals in both community and educational practices Giving dedicated scholarly attention and conceptualising new adaptations in transnational Zen communities it constitutes an important and timely addition to the literature and will appeal to researchers and scholars of religion and education Asian pedagogies contemporary Buddhism transnational Zen and Zen education *John Calvin's American Legacy* Thomas Davis, 2010-04-08 This title explores the ways Calvin and the Calvinist tradition have influenced American life In addition each section moves chronologically ranging from colonial times to the 21st century *History, Biography, and the Genre of Luke-Acts* Andrew W. Pitts, 2019-07-15 Unlike contemporary literary linguistic configurations of genre current methodologies for the study of the Gospel genre are designed only to target genre similarities not genre differences This basic oversight results in the convoluted discussion we witness in Lukan genre study today Each recent treatment of the genre of Luke Acts represents a distinct effort to draw parallels between Luke Acts and a specific or multiple literary tradition s These studies all underestimate the role of literary divergence in genre analysis leveraging much if not all of their case on literary proximity

This monograph will show how attention to literary divergence from a number of angles may bring resolution to the increasingly complex discussions of the genre s of Luke Acts **The Logic of Intersubjectivity** Darren M.

Slade,2020-08-27 To survey harsh criticisms against Brian Douglas McLaren 1956 readers gain the inaccurate impression that he is a heretical relativist who denies objective truth and logic While McLaren s inflammatory and provocative writing style is partly to blame this study also suspects that his critics base much of their analyses on only small portions of his overall corpus The result becomes a caricature of McLaren s actual philosophy of religion What is argued in this book is that McLaren s philosophy of religion suggests a faith based intersubjective relationship with the divine ought to result in an existential appropriation of Christ s religio ethical teachings When subjectively internalized this appropriation will lead to the assimilation of Jesus kingdom priorities thereby transforming the believer s identity into one that actualizes Jesus kingdom ideals The hope of this book is that by tracing McLaren s philosophy of Christian religion future researchers will not only be able to comprehend and perhaps empathize with McLaren s line of reasoning but they will also possess a more nuanced discernment of where they agree and disagree with his overall rationale *The Long Shadow of Emile Cailliet* Abigail Rian

Evans,Clemens Bartollas,Gordon Graham,Kenneth Henke,2011-09-23 This book aims to examine the importance of Christian philosophy in theological education through the prism of the life and teachings of Emile Cailliet The book s primary focus is on his years of teaching at Princeton Theological Seminary to which all the authors are connected This work examines Cailliet as a believer teacher scholar and philosopher Although Cailliet wrote over twenty books none of them articulated his formal position on the nature of theological education However it is clear from his teaching at seminary and his writings on philosophy especially Pascal that he saw philosophy as an integral part of seminary training We want to preserve his work because he was a seminal but neglected thinker whose influence extends from science to literature and from philosophy to spirituality and theology We believe that Emile Cailliet was one of the most influential Christians of the twentieth century We invite the reader to stand in the long shadow of Cailliet and consider how his life and thought can help us tackle some of the knotty questions that face us today **Revisioning Cambridge Platonism: Sources and Legacy** Douglas Hedley,David

Leech,2020-01-01 This volume contains essays that examine the work and legacy of the Cambridge Platonists The essays reappraise the ideas of this key group of English thinkers who served as a key link between the Renaissance and the modern era The contributors examine the sources of the Cambridge Platonists and discuss their take up in the eighteenth century Readers will learn about the intellectual formation of this philosophical group as well as the reception their ideas received Coverage also details how their work links to earlier Platonic traditions This interdisciplinary collection explores a broad range of themes and an appropriately wide range of knowledge It brings together an international team of scholars They offer a broad combination of expertise from across the following disciplines philosophy Neoplatonic studies religious studies intellectual history seventeenth century literature women s writing and dissenting studies The essays were originally

presented at a series of workshops in Cambridge on the Cambridge Platonists funded by the AHRC **A Legacy of Learning in Near Eastern Archaeology** Peter Lacovara, 2025-01-23 Helene J Kantor July 15 1919 January 13 1993 was one of the last of the great generalists of the ancient world This volume celebrates her scholarship with articles covering her wide ranging interests with important studies on ancient Egypt the Aegean Iran and Classical civilization
