Treating and Preventing Adolescent Mental Health Disorders Dwight L. Evans, Edna B. Foa, Raquel E. Gur, Herbert Hendin, Charles P. O'Brien, Daniel Romer, Martin E.P. Seligman, B. Timothy Walsh, 2017-07-12 Sponsored by the Adolescent Mental Health Initiative of the Annenberg Public Policy Center APPC of the University of Pennsylvania and the Annenberg Foundation Trust at Sunnylands Trust *Treating and Preventing Adolescent Mental Health Disorders* Second Edition provides a major update since the first edition in 2005. It addresses the current state of knowledge about the major mental health disorders that emerge during adolescence including updated DSM 5 diagnostic criteria. Here six commissions established by the APPC and the Sunnylands Trust pool their expertise on adolescent anxiety, schizophrenia, substance use disorders, depression, and bipolar disorders, eating disorders, and suicidal behavior in sections that thoroughly define each disorder, outline and assess available treatments, discuss prevention strategies, and suggest a research agenda based on what we know and don't yet know about these various conditions. Two additional behavioral disorders, gambling and internet addiction, are covered in this second edition. As a meaningful counterpoint to its primary focus on mental illness, the volume also incorporates the latest research from a seventh commission on positive youth development, which addresses how we can fully prepare young people to be happy and successful throughout their lives. Concluding chapters discuss overarching issues regarding the behavioral and mental health of adolescents, overcoming the stigma of mental illness, the research policy and practice context for the delivery of evidence-based treatments, and the development of a more robust agenda to advance adolescent health. Integrating the work of eminent scholars in both psychology and psychiatry, this work will be an essential volume for academics and practicing clinicians and will serve as a wake-up call to mental health professionals and policy makers alike about the state of our nation's response to the needs of adolescents with mental disorders. **ACT for Adolescents** Sheri L. Sells, 2004-07-26 This book illuminates the causes of severe adolescent behavioral problems and presents a research-based fifteen-step model for helping families bring about real, lasting change. Incorporating structural and strategic principles, the author's cohesive approach focuses on setting clear rules and consequences, changing the mood and direction of confrontations, neutralizing such problem behaviors as disrespect, truancy, running away, violence, and threats of suicide, and restoring positive, nurturing relationships among family members. Special treatment issues covered include working with single-parent families, outside systems, peers, school, probation officers, divorce, and stepfamily problems, and substance misuse.
