Tree Of Life Activity Narrative Therapy:

Understanding and Supporting Refugee Children and Young People Tina Rae, 2023-05-11 This book is the go to resource for those parents and professionals seeking to support children through the trauma of war and conflict Not only does it provide the evidence base for effectively integrating refugee children into their new schools but it also introduces the reader to a range of key tools and strategies to both understand and manage anxiety and trauma related behaviours Practical and user friendly it demystifies the process of talking about difficult topics providing helpful advice on how to do this in a trauma informed way making use of effective tools from therapeutic approaches to help our children and ourselves remain regulated and able to engage in post traumatic growth

Empowering Mindfulness for Women Leigh Burrows, 2021-04-13 Empowering Mindfulness for Women is centred around a 5 day intensive mindfulness course attended by eight women from different backgrounds The reader is invited to imagine they are actively participating in the teaching and learning moments and turning points encountered in teaching and learning mindfulness around themes such as making space for mindfulness safeguarding mindfulness for women engendering mindfulness mindfulness dreaming and a mandala of wisdoms Evocative accounts of experience bring to life the women's growing awareness that mindfulness can be both a separate practice and a natural part of life and that it can help them to nurture what they have neglected in themselves by not tapping into the full spectrum of their experience Each chapter provides useful follow up activities and questions for individual or group reflection journaling sharing and conversation Empowering Mindfulness for Women is aimed at those who teach mindfulness to women in educational community or clinical settings and at women who want to learn mindfulness in a manner that positions them as experts in their own learning

Communicating With Families Michelle O'Reilly, Nikki Kiyimba, 2023-09-21 This textbook uniquely highlights the particular complexities of working systemically with couples and families with children It is designed to be student and practitioner oriented by drawing on real world examples of therapeutic encounters in mental health settings to illustrate how theory can inform practice Good communication is the cornerstone of good clinical practice and is foundational for building therapeutic alliance Although therapists and counsellors are often highly skilled in their therapeutic modalities this book offers additional practical suggestions about how families engage in social actions and positioning themselves and others in their talk The book also takes wider micro and macro ecological systems within which systemic psychotherapists and counsellors work into account and consider the ways that these larger social influences are experienced within institutional discourses The book will be a valuable resource across a broad spectrum of professions and researchers including counsellors psychotherapists family therapists psychiatrists nurses play therapists speech and language therapists and mental health social workers

Building Resilience to Trauma Elaine Miller-Karas, 2015-02-20 After a traumatic experience survivors often experience a cascade of physical emotional cognitive behavioral and spiritual responses that leave them feeling unbalanced and threatened Building Resilience to Trauma explains these common

responses from a biological perspective reframing the human experience from one of shame and pathology to one of hope and biology It also presents alternative approaches the Trauma Resiliency Model TRM and the Community Resiliency Model CRM which offer concrete and practical skills that resonate with what we know about the biology of trauma In programs co sponsored by the World Health Organization the Unitarian Universalist Service Committee ADRA International and the department of behavioral health of San Bernardino County the TRM and the CRM have been used to reduce and in some cases eliminate the symptoms of trauma by helping survivors regain a sense of balance Clinicians will find that they can use the models with almost anyone who has experienced or witnessed any event that was perceived as life threatening or posed a serious injury to themselves or to others The models can also be used to treat symptoms of vicarious traumatization and compassion fatigue
