Clymer,Velocepress,2022-08-26 260 pages and more than 290 illustrations and charts size 8 25 x 10 75 inches This
publication is a reproduction of the Triumph factory workshop manual part number 99 0843 0948 0950 The original
workshop manual part number 99 0843 was subsequently updated and merged with workshop manual 99 0948 This merged
double manual also included a supplement part number 99 0950 which extended the coverage up to the 1974 models The
supplement was appended to the double manual such that Section A Lubrication System is followed by a Section AA
Lubrication System supplement and Section B Engine is followed by a Section BB Engine supplement etc etc This
combination of 99 0843 0948 0950 was published as a single workshop manual applicable to the entire range of 350cc and
500cc unit construction twins from 1963 through 1974 This reprint is a faithful reproduction of that combination manual
There were a number of running changes made throughout the 11 year production run of these models and the way the
factory identifies the point where those changes took place is by referencing engine numbers within each individual section
of this manual To assist in identifying the appropriate information applicable to those changes the supplements were
appended to the end of each appropriate section Consequently it is important to note with regard to any maintenance and

repair instructions and also the specifications in the General Data GD section that wherever engine numbers are stated the data will be specific to that particular series Therefore the reader is encouraged to read the entire section plus the supplemental section prior to commencing any work paying close attention to any engine number notations Owners of the 350cc and 500cc machines are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various 350cc and 500cc manuals that have recently flooded the online marketplace Based on our research at least six manuals were issued for different series of engine numbers throughout the 11 year production run However the 99 0843 0948 0950 combination manual is the most comprehensive manual for the entire line of 350cc and 500cc unit construction twins produced from 1963 to 1974 It covers all engine numbers from H29733 through H67331 plus the later 1969 through 1974 alpha numeric series engine numbers unfortunately it is somewhat scarce and difficult to find In addition many of the changes made towards the end of the production run necessitate the use of the supplement and we are pleased to offer this reprint of the combination manual as a service to all Triumph 350cc and 500cc unit construction owners The 1963 to 1974 models covered are Tiger 100 T100SS Tiger 1963 1965 T100 Tiger 1966 T100S Tiger 1967 1970 T100T T100R Daytona 1966 1974 T100C Trophy 1966 1972 Speed Twin 5TA 1963 1966 Tiger 90 T90 1963 1969 Twenty One 3TA 1963 1966

Many Triumph enthusiasts consider that the external distributor Tiger Cub models brought the true Triumph single cylinder line to a conclusion This is further supported by the fact that the final workshop manual for the T15 T20 T20C T20S published under the Triumph name was the August 1964 manual No 8 part number 906 64 which only included the external distributor models In addition under BSA ownership the Tiger Cub engine had previously been utilized as the basis for the 1959 BSA C15 and ultimately by the BSA Bantam Cub series from 1966 onwards Unfortunately Triumph motorcycle owners are subjected to considerable confusion surrounding the appropriate selection from the multitude of originals and reprints of the various manuals that have recently flooded the online marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years
