Western Empires, Christianity and the Inequalities

between the West and the Rest Sampie Terreblanche,2014-09-30 The acute problem of inequality in the world was brought centre stage by the sensational appearance of French economist Thomas Piketty s bestselling book Capital in the Twenty first Century In Western Empires Christianity and the Inequalities between the West and the Rest 1500 2010 Sampie Terreblanche studies the matter from a political economic perspective and brings five centuries of global history to bear in his focus on global as opposed to internal national inequalities The unprecedented accumulation of wealth in the Western world has come at a dire cost to the Restern world a term the author coins and empire building is at the root of it The last 500 years have seen successive epochs of empire followed by war and systemic chaos During this time the haves of world history have systematically channeled global resources towards the West through cunning and conquest a process in which Christian missionary societies played a key role as the soft avant garde followed by the hardware The book deals with several concepts of empire and the forces through which empires have been rolled out through history arms money ideology religion What fed into the Eurocentrism and notion of superiority which paved the way for a lamentable history of slavery exploitation and the unremitting accumulation of wealth and power The book shows how clearly dangerous a world we live in with the scales as precipitously tipped as they are Ten years in the writing and in many ways the apex of this decorated author s life work Western Empires is a book for everyone who wishes to understand or address the extreme concentration of wealth in the hands of the global few and the hopeless poverty of the many

Africa and the War on Drugs Neil Carrier,Gernot Klantschnig,2012-10-11 Nigerian drug lords in UK prisons khat chewing Somali pirates hijacking Western ships crystal meth smoking gangs controlling South Africa s streets and narco traffickers corrupting the state in Guinea Bissau these are some of the vivid images surrounding drugs in Africa which have alarmed policymakers academics and the general public in recent years In this revealing and original book the authors weave these aspects into a provocative argument about Africa s role in the global trade and control of drugs In doing so they show how foreign inspired policies have failed to help African drug users but have strengthened the role of corrupt and brutal law enforcement officers who are tasked with halting the export of heroin and cocaine to European and American consumer markets A vital book on an overlooked front of the so called war on drugs
