English Medieval Misericords Paul Hardwick,2011

Misericord carvings present a fascinating corpus of medieval art which in turn complements our knowledge of life and belief in the late middle ages. Subjects range from the sacred to the profane and from the fantastic to the everyday seemingly giving equal weight to the scatological and the spiritual alike. Focusing specifically on England though with cognisance of broader European contexts this volume offers an analysis of misericords in relation to other cultural artefacts of the period. Through a series of themed case studies the book places misericords firmly within the doctrinal and devotional milieu in which they were created and sited arguing that even the apparently coarse images to be found beneath choir stalls are intimately linked to the devotional life of the medieval English Church. The analysis is complemented by a gazetteer of the most notable instances. Dr Paul Hardwick is Professor in English Leeds Trinity University College. [The Medieval Clothier](#) John S. Lee, 2018. A clear and accessibly written guide to the medieval cloth making trade in England. Cloth making became England's leading industry in the late Middle Ages. Clothiers co-ordinated its different stages in some cases carrying out the processes themselves and found markets for their finished cloth selling to merchants, drapers and other traders. While many clothiers were of only modest status or jacks of all trades a handful of individuals amassed huge fortunes through the trade becoming the multi millionaires of their day. This book offers the first recent survey of this hugely important and significant trade and its practitioners examining the whole range of clothiers across different areas of England and exploring their impact within the industry and in their wider communities. Alongside the mechanics of the trade it considers clothiers as entrepreneurs and early capitalists employing workers and even establishing early factories it also looks at their family backgrounds and their roles as patrons of church rebuilding and charitable activities. It is completed with extracts from clothiers' wills and a gazetteer of places to visit making the book invaluable to academics, students and local historians alike. JOHN S LEE is a Research Associate at the Centre for Medieval Studies at the University of York. **The Foundations of Modern Freemasonry** Ric Berman MA, 2022-01-01. Following the appointment of its first aristocratic Grand Masters in the 1720s and in the wake of its connections to the scientific Enlightenment Free and Accepted Masonry became part of Britain's national profile and the largest and most influential of Britain's extensive clubs and societies. The organisation did not evolve naturally from the mediaeval guilds and religious orders that pre-dated it but was reconfigured radically by a largely self-appointed inner core at London's most influential lodge the Horn Tavern. Freemasonry became a vehicle for the expression of their philosophical and political views and the Craft attracted an aspirational membership across the upper middle and gentry. Through an examination of previously unexplored primary documentation Foundations contributes to an understanding of contemporary English political and social culture and explores how Freemasonry became a mechanism that promoted the interests of the Hanoverian establishment and connected the metropolitan and provincial elites. The book explores social networks centred on the aristocracy, parliament, the learned and professional societies and the magistracy and provides pen portraits of the key individuals who spread the Masonic message. Foundations and Schism Sussex Academic 2013 have been

described as the most important books on English Freemasonry published in recent times providing a precise social context for the invention of English Freemasonry Berman's analysis throws a new and original light on the formation and development of what rapidly became a national and international phenomenon *Money and Market in the Economy of All Times* Liviu C. Andrei, 2011-02-18 This is economics see monetary economics and corresponding economic history and focuses on what the book title suggests money and market developing from their very beginnings First some crucial hot historical points are here identified the market picture before money entering history then getting national and international through what was the gold standard money out of its metal base or cover money as national and international after gold Second a substantial debate reaches another level of developments representative versus fiat money Third how about international money as different from national scale money in context **A Bibliographic History of the Book** Joseph Rosenblum, 1995 skillfully compiled should be useful to anyone interested in placing his or her studies in the context of printed and bound literature ENGLISH LITERATURE IN TRANSITION 1880 1920 **Medievalism in North America** Kathleen Verduin, 1994 Studies on the influence of the middle ages and in particular the Arthurian legends on the culture of North America Fifteen essays trace North America's enthusiastic engagement with the middle ages from the Revolution to Disney There are eight studies of the American reception of Arthur in art Abbey Rosenthal literature Canadian writers John Ciardi scholarship R S Loomis politics JFK and popular culture Arthurian youth groups Disneyland the Excalibur Casino Other topics include Tom Paine Elbertus Hubbard Edgar Rice Burroughs C B DeMille popular treatments of Villon the roots of the New Mexican cuento and the rhetoric of the Gulf War Contributors ROGER WOOD KYMBERLEY N PINDER ERICA E HIRSHLER ALAN LUPACK CHARLOTTE OBERG RAYMOND H THOMPSON STAN GALLOWAY ROBIN BLAETZ ROBERT D PECKHAM JEFF RIDER KLAUS P JANKOFSKY MARY MORSE PAMELA S MORGAN SUSAN ARONSTEIN NANCY COINER JONATHAN M ELUKIN [The New Palgrave Dictionary of Economics](#), 2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product **The Complete Tradesman** Nancy Cox, 2016-12-05 The Complete Tradesman redresses the relative paucity of studies on the history of retailing before 1800 Based upon extensive research into diverse trade sources Cox takes issue with the surprisingly resilient stereotype of the dull and out of date shopkeeper in the early modern period showing that the retailing sector was well adapted to the social and economic needs of the day and quick to exploit new opportunities Chapters cover not only distribution shop design customer relations and networks between tradesmen but also attitudes to retailing official controls and the response to novelty By throwing light on subjects hitherto overlooked and challenging existing whiggish preoccupations with progress towards modern retailing systems this study signals a new approach to the history of retailing The focus is placed on

assessing how far tradesmen especially shopkeepers satisfied and stimulated contemporary desires for consumer goods

Women at Work from Ancient Egypt Through the Middle Ages Lora Ann Sigler, 2025-10-17 Even voracious readers are often unaware that women have worked outside the home from the earliest recorded history A significant number of them have made names for themselves by being the first of either sex to do what they did For example the first musical composer we know of Enheduanna of Sumeria daughter of Sargon II Or even more astonishing the first practitioners of Caesarian sections for a difficult birth generally fatal for the mother but producing a live infant Thoroughly illustrated with high quality photographic images this work fills a gap in popular history detailing women at work from the dawn of civilization through to the Middle Ages There are four appendices regarding objects of interest related indirectly but importantly to the text as well as copious endnotes included with each chapter and a glossary of terms which may be unfamiliar to readers For those who wish to pursue related topics there is also a complete bibliography A number of the women included in this work have been forgotten by history even their real names unknown All however have contributed generously to their respective societies and cultures

Medieval Market Morality James Davis, 2011-11-24 This important study examines the market trade of medieval England by providing a wide ranging critique of the moral and legal imperatives that underpinned retail trade James Davis shows how market goers were influenced not only by practical and economic considerations of price quality supply and demand but also by the moral and cultural environment within which such deals were conducted This book draws on a broad range of cross disciplinary evidence from the literary works of William Langland and the sermons of medieval preachers to state civic and guild laws Davis scrutinises everyday market behaviour through case studies of small and large towns using the evidence of manor and borough courts From these varied sources Davis teases out the complex relationship between morality law and practice and demonstrates that even the influence of contemporary Christian ideology was not necessarily incompatible with efficient and profitable everyday commerce

Sekules,2001-04-26 This refreshing new look at Medieval art conveys a very real sense of the impact of art on everyday life in Europe from 1000 to 1500 It examines the importance of art in the expression and spread of knowledge and ideas including notions of the heroism and justice of war and the dominant view of Christianity Taking its starting point from issues of contemporary relevance such as the environment the identity of the artist and the position of women the book also highlights the attitudes and events specific to the sophisticated visual culture of the Middle Ages and goes on to link this period to the Renaissance The fascinating question of whether commercial and social activities between countries encouraged similar artistic taste and patronage or contributed to the defining of cultural difference in Europe is fully explored The Gubbio Studiolo and Its Conservation: Italian Renaissance intarsia and the conservation of the Gubbio studiolo Olga Raggio,Antoine M.
