The "New" Epidemic- Grading Practices Andre' Mathews, 2016-03-16 This book is a comprehensive view on the grading practices and policies in American public schools. The content of the book identifies the lack of alignment amongst the Federal, State and Local Districts and the need to adopt a unified policy. Educational institutions are creating their own versions of grading systems that lack integrity, flawed in design, hinder many students from graduating and/or achieving opportunities to become a more productive citizen after high school completion. Section I: The structure of the book begins with a systemic view of development by identifying the philosophical and theoretical aspects involved in the grading system. Section II: The authors work then transitions to the structure of the grading system, addressing the mathematical aspects of calculating a student's grade point average to the teacher's validity of grades. Section III: This section identifies the parent's role and need to understand the grade itself and its effect on the student's overall outcome and class ranking. Section IV: The book ends with a strong analysis of the system, parental rights, examples of educational disasters, and schools' quest for new grading systems. All in all, this book takes a journey throughout the entire educational system, identifying a need for change on all levels as it relates to the grading system. The overall message emphasizes the parent's need to be cognizant of the importance of being involved and properly motivating, mentoring, monitoring, modeling, and managing their child's educational careers. All stakeholders should walk away with a sense of ownership to the problem and an understanding that the time for change is now. The ethnic margin is widening, and too many students are graduating unmarketable. A grade is more than a number; it's a quality of life.

The Seven Steps to Help Boys Love School Linda Marie Gilliam, 2015-04-14 The 7 Steps to Help Boys Love School: Teaching to their Passion for Less Frustration is an easy-to-follow, humorous book with practical, researched strategies for ensuring boys' success in school, home, and in their future pursuits. This book is built upon the 7 Es of Excellent Education with step-by-step, exciting lessons for both struggling and bright boys. Girls love them too. More children are being misdiagnosed with ADHD; academics are required earlier in school; recess is being cut out, and many frustrated boys drop out by high school. This prevalent frustration can lead to a child's lack of self-confidence and self-worth, but worse yet, aggression. People are now realizing the increasing crisis facing us today with children slipping further and further behind other nations in Reading, Writing, Math, and Science. The many years of brain research proves over and over that boys and girls need different techniques in the classroom for their best learning environment. This book will guide teachers and parents in activities that are appropriate for boys to excel in learning.
