Street Style Brent Luvaas, 2016-04-07 Winner of the 2019 John Collier Jr Award Street style blogging has experienced a meteoric rise in popularity over the last decade Amateur photographers often with no formal training in fashion have become critical arbiters of taste and trends influencing the representations that appear in magazines and on runways and putting new cities on the fashion world map This cutting edge book documents the evolution of street style photography from the fieldwork photos of early anthropology

to the glamorized snapshots that appear on blogs today and explores the structural shifts in the global fashion industry that street style has helped bring about. Chronicling author and anthropologist Brent Luvaas' experience over three years of blogging through vivid street imagery and rich ethnographic detail, this book turns the lens of street style photography back onto anthropology itself, arguing that the phenomenon is a powerful mode of amateur ethnography. Bloggers blur the distinction between professional and amateur insider and outsider self and brand. This book documents that blur from the ground level from the streets of Philadelphia to the sidewalks of New York Fashion Week. Street Style is an essential read for students and scholars of fashion anthropology, sociology, media and cultural studies, and fans of street style photography alike.

Fashion through History Giovanna Motta, 2018-06-11 This collection arises from an international fashion conference held at Sapienza University in Rome, Italy, in May 2015. It is dedicated to one of the main indicators of social change: fashion, analysed within various scientific fields, historical periods and geographical areas. It offers a comprehensive and detailed analysis of the world of clothes starting from a historical perspective: religious clothes and traditional costumes, and then exploring fashion theories and more recent approaches and developments in the media and advertisements. The book analyses the clothing of various cultures, including the Hittite peoples and the less explored fashion of Eastern Europe, and it deals with craft traditions and national costume in different areas, including China, Greece, Romania and Georgia. It also investigates the style of marginalized groups and youth movements and the interpretation of fashion in the studies and writings of sociologists, philosophers and linguists such as Fausto Squillace and Christian Garve.

Honolulu Street Style Malie Moran, Attila Pohlmann, Andrew Reilly, 2014-01-01 Hawai'i is one of the most ethnically and racially diverse places in the world due to its central location in the Pacific. Situated at the crossroads of different cultures, Honolulu has a style all of its own. Honolulu Street Style captures this unique approach as it demonstrates how global trends are transformed by stylish Honolulu denizens to give them a unique local look. Divided into chapters on hair, hats, accessories and beachwear, the book features the styles of people encountered on the street in many different neighbourhoods, with an essay on the history and clothing of Hawai'i as a whole. The neighbourhood fashion explored includes that of iconic Waikiki, which conjures images most people associate with Hawai'i, yet the mass-produced tourist clothing belies a deeper fashion culture hidden in local enclaves and local boutiques that foster an upscale casual style. Chinatown is a neighbourhood of dramatic colour and exotic touches, and it hosts First Friday events that transform the neighbourhood into a crowded hub of artistic, musical and retail activity. As the photos show, the Kaka'ako neighbourhood draws a crowd that is hip, travelled and not afraid to venture off the beaten path. In contrast, the Manoa valley, home to the flagship campus of the University of Hawai'i, presents itself as an eclectic mix of students and professionals dressed in everything from boho chic to surfer skater, avant garde and casual professional style. A highly visual book with full-colour street style photography, Honolulu Street Style will be a landmark publication in the study of place and style.
