Treatment Plan Goals For Adjustment Disorder:

Treatment Planning for Psychotherapists, Third Edition Richard B. Makover, M.D., 2016-02-16 Previous editions of Dr Richard B Makover's popular handbook *Treatment Planning for Psychotherapists* shed light on this all too often neglected element of psychotherapy while squarely establishing themselves as the go to references on the topic Drawing on the author's years of experience and with engaging and memorable clinical examples the book presents a top down outcome based approach to treatment planning that emphasizes the importance of the initial interview and assessment to the planning process while providing practical advice for enhancing patient collaboration and reducing drop out rates This revised edition of the guide has been updated to reflect important changes in mental health delivery systems and funding relevant to treatment providers as well as the challenges and opportunities posed by the digital revolution It is also more readable than ever bullet points and chapter end summaries distill points of emphasis helping readers take in and reference information easily and effectively This third edition also features An amplified chapter on assessment that explains how this crucial step should inform case formulation and as a result treatment planning An expanded chapter on the challenges of treating patients struggling with cognitive impairment addiction and psychoses among other issues ensuring that readers are equipped to handle a wide range of scenarios A new simplified approach to the often overlooked but crucial step of formulation Suggested readings that will provide therapists with a comprehensive view of psychotherapy in general and treatment planning in particular The framework and methods offered in this edition of *Treatment Planning for Psychotherapists* make it an invaluable resource for clinical psychiatrists and psychologists psychiatric nurse practitioners psychiatric residents clinical social workers in short anyone engaged in the challenging but necessary work of helping patients address and overcome their dysfunction
