Camarinha-Matos, Ricardo Almeida, José Oliveira, 2019-04-29 This book constitutes the refereed proceedings of the 10th IFIP WG 5.5 SOCOLNET Advanced Doctoral Conference on Computing Electrical and Industrial Systems DoCEIS 2019 held in Costa de Caparica Portugal in May 2019 The 36 revised full papers presented were carefully reviewed and selected from 73 submissions The papers present selected results produced in engineering doctoral programs and focus on technological innovation for industry and service systems Research results and ongoing work are presented illustrated and discussed in the following areas collaborative systems collaboration and resilient systems decision and optimization systems assistive systems smart environments smart manufacturing water monitoring systems communication systems and energy systems

Understanding Educational Leadership Steven J. Courtney, Helen M. Gunter, Richard Niesche, Tina Trujillo, 2021-01-28 Understanding Educational Leadership guides you through critical perspectives and approaches across the world taking in the global north and south and explores the ways in which educational leadership is currently understood theorised researched modelled and practised The book also covers contemporary issues including gender sexual identity and race as well as topics such as governance performativity and corporatisation It brings together evidence and ideas that illuminate the power structures and relations in educational leaders leading and leadership and helps you to consider the impact on policy

and practice and to think about changes needed to mitigate the issues identified The book showcases a wide range of theorists including Bourdieu Foucault and Fraser Its impressive scope includes analyses of collectivist neoliberal and historical influences on educational leadership It explores forensically leadership styles with an explicit focus on distributed instructional democratic autocratic laissez faire and organisational forms Carefully curated by the editors the world leading contributors draw on their wealth of knowledge about research and practice to provide you with an overview of educational leadership today looking at global research evidence arguments and conceptualisations Each chapter is written in an engaging and inspiring way following a consistent approach to help you to develop your understanding in each of the areas covered Full pedagogical features throughout include chapter summaries key questions case studies questions for readers and further reading suggestions with questions on key texts A companion website provides links to open access outputs research project outcomes and networking seminars conferences with links to local national and global events and connections

Theory of Constraints, Lean, and Six Sigma Improvement Methodology Bob Sproull, 2019-07-09 Many leaders and managers have led improvement initiatives in a variety of different industry sectors Most believe that when they begin these efforts they already have the tools they need in their improvement backpack Using these tools they make substantial improvements to processes in a wide array of industry segments As time passes however most realize that there is a missing link in their arsenal of tools for improvement The author of this book faced this same predicament and he discovered what the missing link was in his improvement tool kit Theory of Constraints TOC Once he learned the details of TOC his ability to make major improvements jettisoned upward to levels he had not seen before TOC is the common denominator in all the case studies presented in this book This book opens with a chapter on what Theory of Constraints is and why it works so well in improvement efforts The second and third chapters cover the important points related to Lean Manufacturing and Six Sigma as well as key points related to variability Chapter 4 demonstrates how to effectively combine these three components to achieve maximum improvement and the corresponding enhancement to your company s profitability The remainder of this book is composed of true case studies from different industry segments using this integrated improvement methodology Essentially this book lays the foundation for what most practitioners are just beginning to understand this integrated improvement methodology is superior to the three components used in isolation from each other This book presents a step by step method of how to combine the Theory of Constraints Lean and Six Sigma and then demonstrates its effectiveness in a very diverse array of industries

Biological Inquiry Neil A. Campbell, Margaret Waterman, Ethel Stanley, Jane B. Reece, 2007-12 This workbook offers an investigative case study for each unit of the book Each case study requires students to synthesize information from one unit of the text and apply that knowledge to a real world scenario as they evaluate new information analyze evidence plot data or seek explanations This workbook includes two new case studies one on avian influenza and one on hedgehog developmental pathways

Pharmacology for Health Professionals W. Renee

Acosta,2020-06-08 Pharmacology for Health Professionals Second Edition is specifically written for students who may not directly administer drugs in their chosen health profession but who will be involved in patient care and therefore need to understand basic pharmacological principles and practices
