Aguirre-Mandujano, 2025-03-25 *How Turkish poetry became the preferred mode for communicating debating and shaping political and social experience in the early Ottoman Empire* *Occasions for Poetry* is a history of how Turkish poetry became the preferred mode for communicating debating and shaping political and social experience in the early Ottoman Empire After the conquest of Constantinople in 1453 Ottoman elites at the imperial court turned to poetry to craft distinctive modes of expression in order to articulate their own place within the Ottoman sultanate Placing Ottoman court poetry in its social and historical context Oscar Aguirre Mandujano argues that poetry functioned as a political act Aguirre Mandujano examines the occasions that compelled the Ottomans to compose poetry to present it to their superiors to share it with their peers and

to spend considerable efforts and time to make poetry often and to make it well He explores how scholars and bureaucrats interacted with each other through poetic imagery revealing how literary language affected bureaucratic practice Poetry was not only an artistic activity but also a means to advance or save one's own political or bureaucratic career For the Ottoman elite poetry was more than a creative activity or a flattering description of Ottoman power and expansion it was a vehicle to shape and mold their social reality The language and genres created and used by these early modern Ottomans would define both a literary tradition and the shape of imperial politics and power for almost six centuries until the end of the empire in the twentieth century

The Metamorphoses of Power Adrian Gheorghe, 2022-12-12 Controversial scholarly debates around the beginnings of the Ottoman Empire in the last century are not only rooted in the scarcity or heterogeneity of sources but also in the mentalities and ideologies that canonised thought paradigms This book uses an interdisciplinary approach at the interface between Ottoman Byzantine Mediterranean and Southeast European studies Unusual sources such as Western Anatolian numismatics and predominantly European documents met innovative methods from the study of violence and power networks Making a case study around the military and institution the author re-evaluates the emergence of the Ottoman polity in dealing with various warlords and across multiple identities and political affiliations

Plural Pasts Claire Norton, 2017-02-03 Through a study of a variety of Ottoman and modern Turkish accounts of the Ottoman Habsburg sieges of Nagykanizsa Castle 1600-01 including official documents correspondence histories and more literary genres such as gazavatnames campaign narratives *Plural Pasts* explores Ottoman literacy practices By considering the diverse roles that the various accounts served construction of identities forging of diplomatic alliances and legitimization of political ideologies and geo-political imaginations it explores the cultural and socio-political significance the various accounts had for different audiences In addition it interweaves theoretical reflection with textual analysis Using the sieges of Nagykanizsa as a case study it offers a sophisticated contribution to ongoing historiographical arguments namely how historians construct hierarchies of primary sources and judge some to be more truthful or more valuable than others how texts are assigned to particular genres based on perceived epistemological status as story or history fact or fiction and the circular role that historians and their histories play in constructing reflecting and reinforcing cultural and political imaginaries

Political Culture in the Latin West, Byzantium and the Islamic World, c.700-c.1500 Catherine Holmes, Jonathan Shepard, Jo van Steenberg, Björn Weiler, 2021-08-26 This comparative study explores three key cultural and political spheres the Latin west Byzantium and the Islamic world from Central Asia to the Atlantic roughly from the emergence of Islam to the fall of Constantinople These spheres drew on a shared pool of late antique Mediterranean culture philosophy and science and they had monotheism and historical antecedents in common Yet where exactly political and spiritual power lay and how it was exercised differed This book focuses on power dynamics and resource allocation among ruling elites the legitimisation of power and property with the aid of religion and on rulers' interactions with local elites and societies Offering the reader route

maps towards navigating each sphere and grasping the fundamentals of its political culture this set of parallel studies offers a timely and much needed framework for comparing the societies surrounding the medieval Mediterranean Faithful Encounters Emrah Sahin, 2018-10-30 By the early twentieth century there were close to two hundred American missionaries working in the Middle East and Eastern Europe They came in droves as early as 1830 organizing hundreds of schools hospitals printing presses and seminaries Until now the missionaries sources and perspectives have dominated discussions of this moment in history but the experiences of the Ottoman authorities are just as if not more revealing of an increasingly tense relationship between Christianity and Islam An enthralling narrative of how locals made sense of American religious activity in the Ottoman Empire Faithful Encounters examines the relationships between the authorities who managed the empire from the capital city of Istanbul provincial agents who carried out the capital's orders and the missionaries who engaged with them Exploring a wide range of untapped sources from imperial ministries security forces and local petitions to international reports and missionary collections Emrah Sahin traces the interactions of the Ottoman authorities focusing on the viewpoints and manoeuvres they adopted to monitor and conquer the missionary presence at a time of turbulent public and political upheaval Offering a comparative context from which to reconsider recent cultural relations in the region Faithful Encounters is not only a history of Christian and Muslim relations It is a lesson about a failing mission in a failing empire with stunning relevance to the looming religious and ethnic crises of today **Empires in Friction** Nelly Hanna, 2025-01-17 In 1517 the Ottoman Empire had finally defeated the Mamluk Sultanate in Egypt completing their conquest of the Middle East and turning Egypt into a province of the Ottoman Empire While much has been documented about the Mamluk period until 1517 publication on the historical record about the sixteenth century reveals little from distinctly Egyptian perspectives In Empires in Friction Nelly Hanna explores this transitional period and provides insight into the intricate dynamics of imperial control and political transition With an original approach to understanding empire Hanna challenges traditional narratives that emphasize the centralization of power and the dominance of the capital Instead she proposes a nuanced paradigm that focuses on the imperial problem of distance the autonomy of provinces and the continuity of local customs and economic activities across different imperial regimes Hanna dives into the financial economic and commercial domains where Ottomanization happened In each the new ruling power faced challenges in understanding the existing processes but ultimately the ability of Egyptian merchants to prosper under Ottoman rule shows how Egypt remained under the Ottomans for so many centuries Hanna deftly demonstrates the strain and areas of conformity in transferring from one imperial system with specific traditions to another Fused together through the continuation of provincial operation the Mamluk and Ottoman rules are not observably differentiable during the sixteenth century as the periphery operates at an arm's length from the Ottoman capital
