Studio Ghibli Rayna Denison, 2023-02-21 Studio Ghibli An Industrial History takes us deep into the production world of the animation studio co founded by Oscar winning director Hayao Miyazaki It investigates the production culture at

Studio Ghibli and considers how the studio has become one of the world's most famous animation houses. The book breaks with the usual methods for studying Miyazaki and Ghibli's films, going beyond textual analysis to unpack the myths that have grown up around the studio during its long history. It looks back at over 35 years of filmmaking by Miyazaki and other Ghibli directors, reconsidering the studio's reputation for egalitarianism and feminism, re-examining its relationship to the art of cel and CG animation, investigating Studio Ghibli's work outside of feature filmmaking from advertising to videogames and tackling the studio's difficulties in finding new generations of directors to follow in the footsteps of Miyazaki and Isao Takahata. By reconstructing the history of Studio Ghibli through its own records, promotional documents and staff interviews, Studio Ghibli: An Industrial History offers a new perspective not just on Ghibli but on the industrial history of Japanese animation.

Human Capital and Development Ju-Ho Lee, Hyeok Jeong, Song Chang Hong, During recent decades Korea has been one of only a handful of countries that have made the successful transformation to become a developed nation by simultaneously achieving persistent economic growth combined with a democratic political system. Experts and political leaders worldwide have attributed this achievement to investments in people or in other words the power of education. Whilst numerous books have highlighted the role of industrial policies, technological growth and international trade in Korea's development process, this is one of the first to focus on the role of human capital. It shows how the accumulation of human capital aided transformation and helps explain the policies, strategies and challenges that Korea faces now and in the future.
