includes a generous selection of about 650 letters written between World War II and the end of Calvino's life. Selected and introduced by Michael Wood, the letters are expertly rendered into English and annotated by well-known Calvino translator Martin McLaughlin. The letters are filled with insights about Calvino's writing and that of others about Italian, American, English, and French literature, about literary criticism and literature in general, and about culture and politics. The book also provides a kind of autobiography documenting Calvino's Communism and his resignation from the party in 1957, his eye-opening trip to the United States in 1959-60, his move to Paris where he lived from 1967 to 1980, and his trip to his birthplace in Cuba where he met Che Guevara. Some lengthy letters amount almost to critical essays, while one is an appropriately brief defense of brevity, and there is an even shorter reassuring note to his parents written on a scrap of paper while he and his brother were in hiding during the antifascist Resistance. This is a book that will fascinate and delight Calvino fans and anyone else interested in a remarkable portrait of a great writer at work.

Approaches to Teaching the Works of Italo Calvino Franco Ricci, 2013-01-01. Italo Calvino, whose works reflect the major literary and cultural trends of the second half of the twentieth century, is known for his imagination, humor, and technical virtuosity. He explores topics such as neorealism, folktale, fantasy, and social and political allegory, and experiments with narrative style and structure. Students take delight in Calvino's wide-ranging and inventive work, whether in Italian courses or in courses in comparative or world literature, literary criticism, cultural studies, philosophy, or even architecture. Given the range of his writing, teaching Calvino can seem a daunting task. This volume aims to help instructors develop creative and engaging classroom strategies. Part 1, Materials, presents an overview of Calvino's writings, nearly all of which are available in English translation, as well as critical works and online resources. The essays in part 2, Approaches, focus on general themes and cultural contexts, address theoretical issues, and provide practical classroom applications. Contributors describe strategies for teaching Calvino that are as varied as his writings, whether having students study narrative theory through *If on a winter's night a traveler*, explore literary genre with *Cosmicomics*, improve their writing using *Six Memos for the Next Millennium*, or read *Mr. Palomar* in a general education humanities course.

The Fire Within Elena Borelli, 2014-04-11. Desire for love, desire for knowledge, desire to possess, desire to be desired: our life is shaped by what we want and by our efforts to achieve it. Hailed by philosophers and psychoanalysts as the core of human identity, desire informs not only our actions but also our dreams and hopes and their sublimation into art and literature. This collection of essays explores how desire is portrayed in modern and contemporary Italian literature by analysing some of the most interesting literary figures of the last two centuries. The authors of this collection approach desire from various perspectives: psychoanalytical, sociological, political, and semiotic, in order to show that desire, albeit at times not explicitly mentioned, pervades the literary works of modern and contemporary Italy, either as a central theme or as the secret motor of the narrative. Through the filter of desire, the essays of this collection highlight the international dimension of Italian literature, establishing a connection between Italian authors and the major theoretical

works of the last two centuries As the notion of desire as represented in literary texts is informed by psychoanalytical and philosophical concepts that operate across the boundaries of nationality and language modernists and scholars of Comparative Literature will find the papers in this book of considerable interest **Calvino and the Pygmalion Paradigm** Bridget Tompkins, 2015-06-28 *Calvino and the Pygmalion Paradigm* Fashioning the Feminine in *I nostri antenati* and *Gli amori difficili* is the first book length analysis of the representation of the feminine in Calvino's fiction Using the structural umbrella of the Pygmalion paradigm and using feminist interpretative techniques this book offers interesting alternative readings of two of Calvino's important early narrative collections The Pygmalion paradigm concerns the creation by a male artist of a feminine ideal and highlights the artificiality and narcissistic desire associated with the creation process This book discusses Calvino's active and deliberate work of self creation accomplished through extensive self commentaries and exposes both the lack of importance Calvino placed on the feminine in his narratives and the relative absence of critical attention focused on this area Relying on the analogy between Pygmalion's pieces of ivory and Barthes's *semes* and drawing upon the ideas underlying Kristeva's intertextuality the book demonstrates that despite Calvino's professed lack of interest in character development his female characters are carefully and purposefully constructed A close reading of Calvino's narratives engaging directly with Freud Lacan and the feminist psychoanalytical thinking of Kofmann Kristeva Kaplan and others demonstrates how Calvino uses his female characters as foils for the existential reflections of his typically maladjusted and narcissistic male characters *The Complete Cosmicomics* Italo Calvino, 2014 The definitive edition of the cosmicomics Italo Calvino's short stories exploring natural phenomena and the origins of the universe The Complete Cosmicomics brings together all of these enchanting stories including some never before translated in one volume for the first time

Schlote Nermeen Shaikh Patrick Williams Alexis Wright and Robert J C Young Calvino's Combinational Creativity Elizabeth Scheiber, 2016-02-08 Calvino's Combinational Creativity examines the various ways combinatory processes influence the work of the Italian author Italo Calvino. Comprising chapters by six literary scholars, the volume asserts that the Ligurian writer's creativity often stems from his contemplation of literature even as it investigates the intersection of his work with poets, writers and literary movements. Each chapter explores a different aspect of Calvino's creativity. Natalie Berkman examines Calvino as a reader of Ariosto and provides an analysis of mathematical combinations inspired by Vladimir Propp in *Il castello dei destini incrociati*. Discussing the poetic and scientific influence of the Argentine writer Julio Cortázar on Calvino, Sara Ceroni then presents *Palomar* as a modernist work of epiphanies. This is followed by two chapters investigating different influences on *Cosmicomics*. Elio Baldi demonstrates how Calvino's collection of stories appropriates various conventions of the science fiction genre, while Elizabeth Scheiber provides a close reading of two tales to show how Calvino uses science as a metaphor to comment on the poetics of Italian authors. Gadda, D'Annunzio, Ungaretti and Montale. Cecilia Benaglia then proposes Calvino as a reader of Gadda who served not only as an aesthetic influence but also as an epistemological one. Finally, juxtaposing Calvino with his contemporary Umberto Eco, Sebastiano Bazzichetto examines the two authors' use of figures of speech as ways of constructing labyrinths. Calvino's *Combinational Creativity* takes Calvino studies in new directions as it rethinks how the author's work can be classified and delves into the sources of his inspiration.

La poesia di Ovidio: letteratura e immagini Claudio Buongiovanni, Flaviana Ficca, Tiziana Pangrazi, Cristina Pepe, Chiara Renda, 2020-07-07 Italiano Nella sterminata bibliografia ovidiana cogliendo l'occasione fornita dalle celebrazioni del bimillenario della morte del poeta 17 2017 il volume intende offrire uno strumento utile ad approfondire in chiave diacronica e sincronica non solo le molteplici virtù della poesia di Ovidio, la sua straordinaria ars di matrice alessandrina, le tappe della sua fortuna a partire dall'antichità ma anche e non soprattutto una qualità indiscussa e per certi aspetti inarrivabile della lingua e dello stile ovidiani, la dirompente forza icastica, la capacità di servirsi come pochi altri delle immagini nella costruzione del testo poetico, delle sue trame narrative, della sua elegante ricercatezza, della sua efficacia nella ricezione da parte del lettore. La versatilità della poesia di Ovidio, la trasversalità delle sue letture e dei suoi possibili riusi nel corso della storia della cultura occidentale trovano conferma nella compresenza all'interno del volume di contributi che spaziano dalle letterature classiche a quelle moderne e contemporanee, dall'archeologia alla storia dell'arte, dalla filosofia alla musica. English Within the vast Ovidian bibliography taking the opportunity provided by the celebrations of the Bimillenary of the poet's death 17 2017 the volume aims at offering a useful tool to deepen in a diachronic and synchronic perspective not only the multifarious virtues of Ovid's poetry, his extraordinary Alexandrian ars, the stages of his Reception starting from antiquity but also, if not above all, an undisputed and in some ways unreachable quality of the Ovidian language and style: the disruptive icastic strength, the ability to employ like few others the images in the construction of the poetic text, of its narrative plots, of its elegant refinement, of its

effectiveness in the reader's Reception The versatility of Ovid's poetry the transversality of its readings and of its possible reuse throughout the history of western culture are confirmed by the coexistence within the volume of contributions ranging from classical to modern and contemporary literatures from archeology to Art history from philosophy to music

apparent contradiction that while Calvino repeatedly advocated throughout his career of forty plus years a precise language this call for precision did not extend to erotic subject matter where Calvino sometimes felt that direct representation was virtually impossible Gabriele finds that in Calvino the challenge of erotic representation is linked to the complexity of the writer's role especially as articulated in Calvino's famous article *Cibernetica e fantasmi* **Artificial Creativity** Alessandra Micalizzi, 2025-07-02 This edited book collects a selection of the best papers submitted for the Artificial Creativity Looking at the Future of Digital Culture meeting held in Milan Italy in June of 2024 The chapters cover the effects of technology on the arts including the narrative visual and auditory This book revisits the notion of what can be considered creative artistic and consequently an expression of our culture It appeals to students and researchers and reveals how the field of creative practice research is constantly shaped by the emergence of new technologies especially intelligent technologies such as AI and machine learning L'ARMONIA DELL'UNIVERSO - La Sezione Aurea in Natura e nell'Arte Roberto Spedicato, 2018-12-13 Tutto nell'universo tende a disporsi secondo la medesima geometria in tutte le scale dimensionali e lo fa mostrando una spiccata predisposizione per le forme in rapporto aureo e secondo schemi di crescita di tipo frattale l'unica geometria che descrive una forma indipendentemente dalla scala in cui essa si trova La sezione aurea costituisce il modello comune secondo cui si strutturano gli organismi viventi e certi fenomeni naturali mostrando un'armonia che si ritrova nell'intero universo Non sorprende quindi che l'umanità abbia usato questa stessa proporzione riscontrabile in natura come modello per raggiungere l'equilibrio l'armonia e la bellezza nelle opere architettoniche e artistiche Myth and Subversion in the Contemporary Novel José Manuel Losada Goya, Marta Guirao Ochoa, 2012-03-15 This bilingual work identifies and explains the subversive rewriting of ancient medieval and modern myths in contemporary novels The book opens with two theoretical essays on the subject of subversive tendencies and myth reinvention in the contemporary novel From there it moves on to the analysis of essential texts Firstly classical myths in works by authors such as André Gide Thomas Pynchon Julio Cortázar Italo Calvino or Christa Wolf for instance Theseus Oedipus or Medea are discussed Then myths of biblical origin such as the Flood or the Golem are revisited in the work of Giorgio Bassani Julian Barnes and Cynthia Ozick A further section is concerned with the place of modern myths Faust the ghost Ophelia in the fiction of Günter Grass Paul Auster or Clara Janés The contributors have also delved into the relationship between myth and art especially in the discourse of contemporary advertising painting and cinema and myth's intercultural dimensions hybridity in the Latin American novels of Augusto Roa Bastos and Carlos Fuentes and in the Hindu themed novels of Bharati Mukherjee This volume emerges from the careful selection of 37 essays out of over 200 which were put forward by outstanding scholars from 25 different countries for the Madrid International Conference on Myth and Subversion March 2011 Este volumen bilingüe identifica y explica la práctica subversiva aplicada a los mitos antiguos medievales y modernos en la novela contemporánea Abren el libro dos estudios ricos sobre la tendencia subversiva y la reinventión de mitos en la actualidad Prosigue el análisis de diversos textos de
