Twenty First Century Peace Operations:

Twenty-first-century Peace Operations William J. Durch, 2006 This superbly edited volume addresses the question of what has been accomplished and what lessons have been learned from ten years of peace operations in post conflict societies

The Militarisation of Peacekeeping in the Twenty-First Century James Sloan, 2011-11-01 Since the end of the last century UN peacekeeping has undergone a fundamental and largely unexamined change Peacekeeping operations long expected to use force only in self defence and to act impartially are now increasingly relied upon by the Security Council as a means to maintain and restore security within a country The operations are established under Chapter VII of the UN Charter and some are empowered to use all necessary measures language traditionally reserved for enforcement operations Through a close examination of these twenty first century peacekeeping operations including operations in Sierra Leone the Democratic Republic of the Congo Liberia Cote d'Ivoire Haiti and the Darfur region of the Sudan the book shows that they are for the most part fundamentally ill suited to the enforcement type tasks being asked of them The operations which are under funded under equipped and whose troops are under trained frequently lurch from crisis to crisis There is scant evidence some 10 years on that matters are likely to improve The book argues that bestowing enforcement type functions on a peacekeeping operation is misconceived Such operations are likely to be unsuccessful in their enforcement type tasks thereby causing serious damage to the excellent reputation of UN peacekeeping and the UN more broadly In addition because such operations are more likely to be perceived as partial their ability to carry out traditional non forceful peacekeeping tasks may be impeded Finally the Security Council's practice of charging peacekeeping operations with enforcement functions lessens the pressure on the Council to work to establish genuine enforcement operations ie operations that are considerably better suited to restoring peace and security Dr Sloan is able to show in knowledgeable detail not only what has changed over the years but also what has brought these changes about His analysis leads him to offer not only well informed insights but critical observations too This book is a pleasing combination of detailed scrutiny of topics already familiar provisional measures consent so called Chapter VII 2 action implied powers and a rigorous questioning as to their place in or indeed relevance at all to militarised peacekeeping The reader will find much new terrain traversed and plenty of out of the box thinking From the foreword by Dame Rosalyn Higgins

Who Should Keep the Peace? William J. Durch, Tobias C. Berkman, 2006 Maintaining peace has traditionally been the job of nations but as populations grow distances shrink borders leak and belief systems clash it has increasingly become a multinational collaborative task As evidence consider the number of peace support operations PSOs now working in the world's least well governed most conflict ridden regions and the growing number of institutions supporting them This volume offers a critical institutional performance review of PSO security providers from the United Nations to the private sector comparing them on many dimensions from legitimacy and deployment agility to firepower and staying power Its concluding observations stress the risks of either

privatizing peace or of making its rebuilding a largely military enterprise

Providing Peacekeepers Alex J. Bellamy, Paul D. Williams, 2013-02-28 During the first decade of the twenty first century the rising demand for peacekeepers saw the United Nations UN operate at a historically unprecedented tempo with increases in the number and size of missions as well as in the scope and complexity of their mandates The need to deploy over 120 000 UN peacekeepers and the demands placed upon them in the field have threatened to outstrip the willingness and to some extent capacity of the UN s Member States This situation raised the questions of why states contribute forces to UN missions and conversely what factors inhibit them from doing more Providing Peacekeepers answers these questions After summarizing the challenges confronting the UN in its force generation efforts the book develops a new framework for analyzing UN peacekeeping contributions in light of the evidence presented in sixteen case study chapters which examine the experiences of the United States the United Kingdom France the People s Republic of China the Russian Federation Bangladesh Pakistan India Nigeria Ghana Nepal Uruguay Brazil Turkey South Africa and Japan The book concludes by offering recommendations for how the UN might develop new strategies for force generation so as to meet the foreseeable challenges of twenty first century peacekeeping and improve the quantity and quality of its uniformed peacekeepers

leads him to offer not only well informed insights but critical observations too This book is a pleasing combination of detailed scrutiny of topics already familiar provisional measures consent so called Chapter VI 2 action implied powers and a rigorous questioning as to their place in or indeed relevance at all to militarised peacekeeping The reader will find much new terrain traversed and plenty of out of the box thinking From the foreword by Dame Rosalyn Higgins Latin American Military and Politics in the Twenty-first Century Dirk Kruijt, Kees Koonings, 2022-07-22 This volume offers a comparative analysis of the role of the military in Latin America in domestic politics and governance after 2000 Divided into four parts covering the entirety of Latin America the book argues that the Latin American military as semi autonomous political actors have not faded away since 2000 and may even have been making a comeback in various countries Each part outlines scenarios which effectively frame the various pathways taken to post military democratic society Part 1 critically examines textbook cases of political demilitarization in the Southern Cone Peru and Costa Rica Part 2 contrasts the role of the military in the post 2000 politics of two regional powers Brazil and Mexico Part 3 examines the political role of the military facing violent pluralism in Colombia and the Northern triangle of Central America Finally Part 4 identifies country cases in which the military have been instrumental in the rise sustenance and occasional demise of left wing revolutionary projects within Venezuela Cuba Nicaragua and Bolivia Latin American Military and Politics in the Twenty First Century will be of interest to scholars students and professionals in the fields of Latin American history international relations military studies and studies concerning democracy political violence and revolution in Latin America elsewhere **The United Nations in the 21st Century** Karen A.
