The Twilight Mystique Amy M. Clarke, Marijane Osborn, 2014-01-10 The 13 essays in this volume explore Stephenie Meyer's wildly popular Twilight series in the contexts of literature religion fairy tales film and the gothic Several examine Meyer's emphasis on abstinence considering how why and if the author's Mormon faith has influenced the series worldview Others look at fan involvement in the Twilight world focusing on how the series avid following has led to an economic transformation in Forks Washington the real town where the fictional series is set Other topics include Meyer's use of Quileute shape shifting legends Twilight's literary heritage and its frequent references to classic works of literature and the series controversial depictions of femininity Banking Systems in the Crisis Suzanne J. Konzelmann, Marc Fovargue-Davies, 2013 The 2008 financial crisis has severely shaken confidence in liberal economic theory and policy However the sharply divergent experiences of the six Anglo Saxon liberal market economies LMEs suggest that the reality is not so simple This book traces the evolution of liberal capitalism from its rebirth amidst the challenges of the 1970s to its role in the genesis of the 2008 crisis and debates the assumptions underpinning the liberal capitalist paradigm Close examination reveals variety within liberal capitalism Not only was there the familiar hands off libertarian approach adopted by the US UK and Ireland but more bounded better regulated and apparently more stable varieties of economic liberalism also emerged through the more pragmatic approach taken by Canada Australia and New Zealand The evidence is compelling Whereas the American British and Irish financial systems were severely damaged by the crisis those of Canada Australia and New Zealand proved more robust This volume explores the degree to which these divergent experiences were a result of better and more intensive supervision differences in business or political culture broader commitment to social norms and the pace of liberalisation Detailed comparative case studies reveal fundamental differences in the economic and political environments in which economic liberalisation took place in approaches to finance and in the degree to which it was seen to be an engine for growth The book concludes that this had a major influence on the evolving economic and financial systems and consequently their relative resilience when confronted with the challenges of the 2008 crisis **Adaptation in the Age of Media Convergence** Johannes Fehrle, Werner Schäfer-Zell, 2025-10-01 This collection considers new phenomena emerging in a convergence environment from the perspective of adaptation studies The contributions take the most prominent methods within the field to offer reconsiderations of theoretical concepts and practices in participatory culture transmedia franchises and new media adaptations The authors discuss phenomena ranging from mash ups of novels and YouTube cover songs to negotiations of authorial control and interpretative authority between media producers and fan communities to perspectives on the fictional and legal framework of brands and franchises In this fashion the collection expands the horizons of both adaptation and transmedia studies and provides reassessments of frequently discussed BBC's Sherlock or the LEGO franchise and previously largely ignored phenomena self censorship in transnational franchises mash

Die Landschaft interpretieren: Interdisziplinäre Ansätze Werner Kreisel, Peter H. Marsden, Tobias Reeh, 2021 There is no generally valid recognised definition of what landscape actually is On the basis of its relatedness to the environment to aesthetics territory society politics economics geography planning ethnology and philosophy the concept of landscape is considered to be a composite notion shaped by a thousand years of Central European ideas and of literary and art history In other words the very term landscape is ambiguous and it is used in different ways both in the scholarly world and everyday speech The aim of this volume is to present various possible approaches to the phenomenon of landscape Far from laying any claim to be exhaustive or comprehensive we have simply tried to do justice to the overarching interdisciplinary approach of the Zentrum f r Landschaftsinterpretation und Tourismus ZELT Centre for Landscape Interpretation and Tourism by singling out and addressing individual instances of this fascinating multifaceted phenomenon Beyond Fandom Natalie Le Clue, 2025-08-26

By centralising fan studies this collection provides a crucial lens through which to understand the capability of fan practices to shape the trajectory of online communication It provides a nuanced understanding of the interplay between social media and contemporary society *After Saturday Comes Sunday* Elizabeth Natalie Kendal, 2016-06-08 The post Christian West is in decline revived Islam is on the rise and Mesopotamia Syria Iraq the cradle of civilization has become ground zero in a battle for civilization Despised as infidels unbelievers and kafir unclean Mesopotamia s indigenous Christian peoples are targeted by fundamentalist Muslims and jihadists for subjugation exploitation and elimination Pushed deep into the fog of war buried under a mountain of propaganda and rendered invisible by a shroud of silence they are betrayed and abandoned

by the West's progressive political academic and media elites who cling to utopian fantasies about Islam while nurturing deep seated hostility towards Christianity If they are to survive as a people in their historic homeland the Christians of Mesopotamia will need all the help they can get If Western civilization is to survive as a force in its historic heartland Europe then we had better start seeing hearing and believing the Christians of the Middle East for their plight prefigures our own

A Defence of Nihilism James Tartaglia, Tracy

Llanera,2020-12-21 This book offers a philosophical defence of nihilism The authors argue that the concept of nihilism has been employed pejoratively by almost all philosophers and religious leaders to indicate a widespread cultural crisis of truth meaning or morals Many religious believers think atheism leads to moral chaos because it leads to nihilism and atheists typically insist that we can make life meaningful through our own actions thereby avoiding nihilism In this way both sides conflate the cosmic sense of meaning at stake with a social sense of meaning This book charts a third course between extremist and alarmist views of nihilism It casts doubt on the assumption that nihilism is something to fear or a problem which human culture should overcome by way of seeking discovering or making meaning In this way the authors believe that a revised understanding of nihilism can help remove a significant barrier of misunderstanding between religious believers and atheists A Defence of Nihilism will be of interest to scholars and students in philosophy religion and other disciplines who are interested in questions surrounding the meaning of life Teens, Libraries, and Social Networking Denise E.
