Sodomy in Eighteenth-Century France Jeffrey Merrick,2020-10-27 We know more about men who sought and had sex with men in eighteenth century Paris than in any other city at the time Police records provide information about thousands of sodomites who were arrested and thousands more who were not Michel Rey explored the sodomitical culture of the capital in five articles based on one set of sources published from 1982 to 1994 No one has completed his pioneering work in the archives and challenged his anachronistic conclusions about identity community and effeminacy This book the first on the subject based on extensive research in all of the relevant series of police records explores patterns and changes in the lives of men who desired men and in the surveillance and punishment of same sex relations across the century Chapters 1 and 2 offer a more systematic skeptical and subtle analysis of complex questions about mentalities than Rey did Chapters 3 and 4 discuss the ways in which sodomites made connections through solicitation in public spaces and networking in private places and the ways in which the police tracked them Chapters 5 and 6 analyze the operations of agents who entrapped sodomites and the procedures of magistrates who judged them The book examines what the extant sources do and do not tell us about the heads hearts and hands of men detained or mentioned by the police To that end it includes a generous selection of documents that allow us to hear voices from the archives including many that require us to rethink what we thought we knew about the subculture

Siew seeks to examine the events that will unfold within the three and a half years before the dawn of the kingdom of God on earth He argues that John composed the textual unit of Rev 11 1 14 5 as a coherent and unified literary unit structured in a macro chiasm He pays special attention to the fusion of

form and content and seeks to elucidate how the concentric and chiastic pattern informs the meaning of the literary units within 11 1 14 5 and proposes that the text of 11 1 14 5 is best analyzed using Hebraic literary conventions devices and compositional techniques such as chiasm parallelism parataxis and structural parallelism The macro chiastic pattern provides the literary structural framework for John to portray that the events of the last three and a half years unfold on earth as a result of what transpires in heaven Specifically the war in heaven between Michael and the dragon has earthly ramifications The outcome of the heavenly war where Satan is defeated and thrown out of heaven to earth results in the war on earth between the two beasts of Rev 13 and the two witnesses of Rev 11 The narrative of the war in heaven 12 7 12 is seen as the pivot of the macro chiastic structure Siew pays close attention to the time period of the three and a half years as a temporal and structural marker which functions to unite the various units in 11 1 14 5 into a coherent and integral whole The events of the last days will be centred in Jerusalem

Elements of Practical Arithmetic John P. Payson, 1887

Working for the Public Good Leslie F. Weber Jr., 2025-10-21

Weber demonstrates conclusively that despite historical critiques of quietism European Lutherans developed a social ethics in the centuries following the Reformation that brought about fundamental systemic and structural changes in social services law education health care the formation of states and nations and public morality Those changes eventually led to the development of the welfare state In so doing Weber challenges interpretations by scholars such as the German Lutheran theologian Ernst Troeltsch who argued that Lutheran theology created a church operating at a remove from society's pressing questions Weber's comprehensive coverage of northern European society from the Reformation era through the nineteenth century utilizes the tools of sociology theology history and ethics to demonstrate that Lutheran ethical theory a Lutheran understanding of the social order and Lutheran social reforms lie at the heart of modern European social institutions Grounded in a Lutheran ethic of faith active in love for the neighbor Lutheran ethics transformed the household and polity developed government care for the poor protected public health and promoted social welfare within a new moral and legal order that continues to underpin contemporary social democracy across northern Europe

Israel and the Covenants in New Testament Times Peter Williams, A Bible student reference A New Testament prophecy of a falling away from truth into apostasy and lawlessness in the final generation before Jesus Christ returns in glory is being fulfilled now and is shortly to end Yet Christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this or that Christ's return is therefore now almost upon us How and why this is the case is here explained thoroughly and logically with many examples directly from the word of God In God's saving plan for the world everyone must in time make a free will choice to become part of the Israel of God in order to access eternal life in the kingdom of God The route to take is the strait and narrow way Mat 7 13 14 that very few have so far found and it involves the biblical new and old covenants which both apply to this Israel Embark on this voyage only if you are willing to be challenged about some basic Christian preconceptions be a serious open minded Bible student and trust what the Bible

teaches but remember that time is short What the Bible has taught me I see as both vital and urgent for our eternal salvation yet I know of no church or individual theologian who teaches what this book deals with in any substantive way Be prepared for major challenges to your understanding just as God has challenged me In the epistles Paul refers to two Israels whom he calls Israel after the flesh I Cor 10 18 and the Israel of God Gal 6 16 I focus mainly on the latter but I also explain an unexpected but critically important connection between them Dependent on the teaching nearly all Christian denominations either teach nothing at all on it or almost the opposite of what Scripture repeatedly showed me Looking back I find this absolutely staggering Very few Christians understand that the new covenant also only applies to Israel as I will clearly show I no longer believe that the NT New Testament can be fully understood without this extra Israel dimension Had I felt I could deliver this in a more light hearted way I would have done so but its implications are too awesome and fundamental to our eternal life prospects for that
