told UFOs are real and the British government knows it The Alien Book Nick Redfern,2019-09-01 Unmasking the mysteries of alien life on earth Make mention of the word alien and it conjures images of black eyed large headed dwarfish beings that have come to be known as the Greys Indeed Greys have become a staple part of pop culture never mind just the field of UFO research They ve appeared in Steven Spielberg s classic 1977 movie Close Encounters of the Third Kind They regularly popped up in The X Files And of course there are numerous people all across the world who claim to have been abducted by the Greys and subjected to intrusive medical experiments Yet before the 1950s the Greys were nowhere in sight The Alien Book A Guide to Extraterrestrial Beings on Earth shows that extraterrestrial life comes in all kinds appearances sizes and bodies They all have one thing in common however the human race has encountered them and we continue to do so today Not just dozens or even hundreds but thousands of eyewitness experiences have been reported Covering hundreds of extraterrestrial life forms in more than 40 thematic chapters this absorbing look at the mysteries of aliens on earth includes the Space Brothers long haired very human looking ETs the fiendish Reptilians seven to eight foot tall predatory shapeshifters Men in Black beings extremely pale skinned tall and with huge eyes Black eyed Children anemic looking kids with solid black eyes that might be ET human hybrids Bigfoot the werewolf like Dogmen jellyfish style aliens that soar around the skies of our world the Shadow People dangerous humanoids that terrorize people legendary Nephilim space vampires insect like aliens that resemble a giant praying mantis and many many more The Alien Book investigates the full range of sentient alien life forms Some are benign and others downright deadly Some are small like a germ or virus that has NASA creating guidelines to deal with an outbreak of an extraterrestrial germ Some are big like a giant praying mantis or the biblical Goliath They all lurk on Earth and in this chilling book With more than 120 photos and graphics this tome is richly illustrated Its helpful bibliography and extensive index add to its usefulness **Extra-terrestrials Among Us** George Clinton Andrews,1986 Close Encounters of the Fatal Kind Nick Redfern,2014-06-23 From a journalist specializing in conspiracy theories an examination of mysterious deaths and missing persons related to sightings of UFO phenomena Everyone has heard of Close Encounters of the Third Kind But what about close encounters of the fatal kind The field of UFOs is rife with unsettling examples of suspicious deaths Accounts of accidents that might not have been accidents after all abound Researchers and witnesses have vanished never to be seen again Conveniently timed heart attacks are reported Out of the blue suicides that upon investigation bear the distinct hallmarks of murder are all too common And grisly deaths at the hands of both extraterrestrials and government agents have occurred Highlights of Close Encounters of the Fatal Kind include The strange saga of the incredible melting man The UFO related death of the first U S Secretary of Defense James Forrestal The mysterious disappearances of military pilots and their connection to UFOs The connections between national security and the sudden deaths of UFO investigators Getting too close to the cosmic truth about alien abductions Roswell and what the government really knows about UFOs can clearly be a deadly business The government s latest admission of the

existence of Area 51 is barely the tip of a very big iceberg **Paranormal America** Christopher D. Bader, F. Carson Mencken, Joseph O. Baker, 2011-01-05 A significant number of Americans spend their weekends at UFO conventions hearing whispers of government cover ups at New Age gatherings learning the keys to enlightenment or ambling around historical downtowns learning about resident ghosts in tourist targeted ghost walks They have been fed a steady diet of fictional shows with paranormal themes such as The X Files Supernatural and Medium shows that may seek to simply entertain but also serve to disseminate paranormal beliefs The public hunger for the paranormal seems insatiable Paranormal America provides the definitive portrait of Americans who believe in or have experienced such phenomena as ghosts Bigfoot UFOs psychic phenomena astrology and the power of mediums However unlike many books on the paranormal this volume does not focus on proving or disproving the paranormal but rather on understanding the people who believe and how those beliefs shape their lives Drawing on the Baylor Religion Survey a multi year national random sample of American religious values practices and behaviors as well as extensive fieldwork including joining hunts for Bigfoot and spending the night in a haunted house authors Christopher Bader F Carson Mencken and Joseph Baker shed light on what the various types of paranormal experiences beliefs and activities claimed by Americans are whether holding an unconventional belief such as believing in Bigfoot means that one is unconventional in other attitudes and behaviors who has such experiences and beliefs and how they differ from other Americans and if we can expect major religions to emerge from the paranormal Brimming with engaging personal stories and provocative findings Paranormal America is an entertaining yet authoritative look at a growing segment of American religious culture **A Covert Agenda** Nicholas Redfern, 1997 This text describes how the government has been concealing the evidence of routine penetration of British airspace by rationally controlled machines from outside Earth over which the military infrastructure has little or no control It suggests that there is evidence that there has been an official shift in policy and that there is a desire to disseminate to the public top secret UFO data collected over the past 50 years Having examined the available evidence the author is convinced that there is an active alien presence on the Earth and that official confirmation of such a presence will soon be forthcoming The Mammoth Book of UFOs Lynn Picknett, 2012-03-01 The ultimate guide to the history background and meaning of whether UFOs really exist plus associated phenomena such as alien abduction crop circles and cattle mutilations There is also a comprehensive overview of the many conspiracy theories which surround UFOs and abductions from the craft as secret Nazi technology to weird CIA plots Written by a ufologist with many years in the field this exciting and highly provocative book at times reads like a thriller What messages do UFOs hold for us and for the future of life on earth Nova revija , 1997
