User-Centric Technology Design for Nonprofit and Civic Engagements Saqib Saeed, 2014-04-26 Due to the increased global political importance of the nonprofit sector its technological support and organizational characteristics have become important fields of research In order to conduct effective work nonprofits need to communicate and coordinate effectively However such settings are generally characterized by a lack of resources an absence of formal hierarchical structures and differences in languages and culture among the activists Modern technologies could help nonprofit networks in improving their working In order to design appropriate technological support for such settings it is important to understand their work practices which widely differ from traditional business organizations This book aims to strengthen the body of knowledge by providing user studies and concepts related to user centered technology design process for nonprofit settings The examination of ethnographic studies and user centered evaluation of IT artifacts in practice will further the understanding of design requirements of these systems This book includes chapters from leading scholars and practitioners on the technology design process examining human centered factors The chapters will focus on developed and developing countries as they both have unique issues in technology design The book will be useful or of interest to academics from a range of fields including information systems human computer interaction computer supported cooperative work and organizational science as well as for government officials and governmental organizations

Handbook of Research on Virtual Workplaces and the New Nature of Business Practices Zemliansky, Pavel, St. Amant, Kirk, 2008-04-30 This book compiles authoritative research from scholars worldwide covering the issues surrounding the influx of information technology to the office environment from choice and effective use of technologies to necessary participants in the virtual workplace Provided by publisher

User Localization Strategies in the Face of Technological Breakdown Isidore Kafui Dorpenyo, 2019-08-20 This book examines Ghana's use of the fingerprint biometric technology in order to further conversations about localization championed by technical communication scholars Localization in this case refers to the extent to which users demonstrate their knowledge of use by subverting and reconfiguring the purpose of technology to solve local problems Dorpenyo argues that the success of a technology depends on how it meets the users needs and the creative efforts users put into use situations In *User Localization Strategies in the Face of Technological Breakdown* Dorpenyo advocates studying how users of technological systems construct knowledge about the technology and develop local strategies to solve technological breakdowns By analyzing technical documents and

interview transcripts the author identifies and advances three user localization strategies linguistic localization subversive localization and user heuristic experience localization and considers how biometric systems can become a tool of marginalization **Advances in Interdisciplinary Practice in Industrial Design** WonJoon Chung,Cliff Sungsoo

Shin,2018-06-27 This book provides readers with a snapshot of cutting edge methods and procedures in industrial design with a particular focus on human centered and user experience design service design sustainable design and applications of virtual augmented reality Reporting on both theoretical and practical investigations aimed at improving industrial design through interdisciplinary collaboration it covers a wide range of topics from design strategies to product research and planning exhibit design as well as new materials and color research Based on the AHFE 2018 International Conference on Interdisciplinary Practice in Industrial Design held on July 21 25 2018 in Orlando Florida USA the book offers a timely guide for industrial designers production engineers and computer scientists User Error Ellen Rose,2003-09-01 User Error explodes the myth of computer technology as juggernaut Multimedia educator Ellen Rose shows that there is no bandwagon no out of control dynamo no titanic conspiracy to overwhelm us Instead there is our own desire to join the fraternity of users a fraternity that confers legitimacy and power on those who enter the brave new world Rose exposes how we surrender decision making power in personal and workplace computing situations As users we willingly grant authority to the creators of software support materials and the seductive infrastructure of technocracy Smart users are rewarded reluctant users are pathologized User identity is deliberately constructed at the crossroads of industry consumer demand and complicity User Error sounds a timely alarm calling on all of us who use the new technologies to recognize how we are being co opted With awareness we can reassert our own responsibility and power in this increasingly important interaction Savvy accessible and up to date User Error offers insight inspiration and strategies of resistance to general readers technology professionals students and scholars alike Legal Tech, Smart Contracts and Blockchain Marcelo Corrales,Mark Fenwick,Helena Haapio,2019-02-07 There is a broad consensus amongst law firms and in house legal departments that next generation Legal Tech particularly in the form of Blockchain based technologies and Smart Contracts will have a profound impact on the future operations of all legal service providers Legal Tech startups are already revolutionizing the legal industry by increasing the speed and efficiency of traditional legal services or replacing them altogether with new technologies This on going process of disruption within the legal profession offers significant opportunities for all business However it also poses a number of challenges for practitioners trade associations technology vendors and regulators who often struggle to keep up with the technologies resulting in a widening regulatory gap Many uncertainties remain regarding the scope direction and effects of these new technologies and their integration with existing practices and legacy systems Adding to the challenges is the growing need for easy to use contracting solutions on the one hand and for protecting the users of such solutions on the other To respond to the challenges and to provide better legal communications systems and services Legal Tech scholars and

practitioners have found allies in the emerging field of Legal Design This collection brings together leading scholars and practitioners working on these issues from diverse jurisdictions The aim is to introduce Blockchain and Smart Contract technologies and to examine their on going impact on the legal profession business and regulators *Rhetorical*

Accessibility Lisa Meloncon, 2014-11-30 Veterinary medicine has long been recognized as one of the more neglected areas of medical history One of the main stumbling blocks to research is the lack of comprehensive information regarding the survival and availability of primary source material Veterinary Medicine A Guide to Historical Sources redresses these issues for the first time offering researchers an unparalleled tool with which to approach the subject The book opens with a brief history of veterinary medicine and the veterinary profession from the fourteenth to the beginning of the twenty first centuries identifying the key dates and events that shaped their development There then follows a chapter on the nature and uses of the records covered by the book outlining the types of records found the type of information they contain and their likely uses by different types of researcher A brief user s guide then explains how to use the book After these preliminary sections comes the main body of the book the lists of records It is here that the various practices and institutions covered by the book are listed together with the types of records they hold the dates they cover and where they are kept A short biographical history is also included with each entry where appropriate Taken as a whole this volume will prove to be an invaluable aid for any scholar researching the history of veterinary medicine in Britain
