Verzameld Werk Iv Critische Proza:

Avant-Garde and Criticism ,2015-06-29 Avant Garde and Criticism sheds new light on the complex aims functions practices and contexts of art criticism in relation to the European avant garde Although many avant garde works and the avant gardes of various countries have been analyzed considerably less attention has been given to the reviews in newspapers and journals on avant garde literature art architecture and film This volume of Avant Garde Critical Studies will look at how art critics operated in a strategic way The strategies of avant garde criticism are diverse Art critics especially when they are artists themselves attempt to manipulate the cultural climate in their favour They use their position to legitimize avant garde concepts and to conquer a place in the cultural field But they are also markedly influenced by the context in which they operate The position of fellow critics and the ideological bias of the papers in which they publish can be as important as the political climate in which their criticism flourishes The analysis of avant garde art criticism can also make clear how strategies sometimes fail and involuntarily display non avant garde characteristics On the other hand traditionalist criticism on the avant garde offers new insights into its status and reception in a given time and place This volume is of interest for scholars teachers and students who are interested in the avant garde of the interbellum period and work in the field of literature art film and architecture

Contemporary Explorations in the Culture of the Low Countries William Z. Shetter,1996 An all inclusive study of Netherlandic culture

Neue Sachlichkeit and Avant-Garde Ralf Grüttemeier,Klaus Beekman,Ben Rebel,2013 One of the aims of the book is to shed more light on the notion Neue Sachlichkeit in its appearance in a variety of fields as painting architecture music photography and literature in order to get a clearer idea of its scope Several contributions will do so by analysing the heterogeneity in the use of the term concerning its function in the fight for recognition in the art fields around 1930 in other words Neue Sachlichkeit will be analysed as a positioning strategy Especially its participation in the broader discourse on modernity as well as its international and intermedial dimension will be highlighted often using the historical avant garde as point of reference From this perspective the present volume wants to be read as a plea for a differentiated description of the many shared aspects and some differences between the avant garde and Neue Sachlichkeit

Dutch and Flemish Literature as World Literature Theo D'haen, 2019-07-25 The recent return of world literature to the centre of literary studies has entailed an increased attention to non European literatures but in turn has also further marginalized Europe s smaller literatures Dutch and Flemish Literature as World Literature shows how Dutch language literature from its very beginnings in the Middle Ages to the present has not only always taken its cue from the major literary traditions of Europe and beyond but has also actively contributed to and influenced these traditions The contributors to this book focus on key works and authors providing a concise yet highly readable history of Dutch language literature and demonstrating how this literature is anchored in world literature **Edda und Thora** Kornelis Heiko Miskotte, Der millionenfache Mord an den europ ischen Juden zwischen 1939 und 1945 ist ein im w rtlichen Sinn apokalyptisches also enth llegendes n mlich die Abgr ndigkeit der europ ischen Kultur und Zivilisationsgeschichte dekuvierendes Ereignis Und der daf r verantwortliche Antisemitismus und Judenhass ist noch immer h chst virulent Als Ursachen werden aus je verschiedenen Perspektiven h chst unterschiedliche Gr nde genannt Dabei kommt aber nie das R tselhafte und Abgr ndige dieses Hasses in den Blick Der niederl ndische Theologe Kornelis Heiko Miskotte gr bt im vorliegenden Werk tiefer Er sieht die eigentliche Ursache des Judenhasses in einem Zwiespalt zwischen dem Anspruch der j dish christlichen Ethik und den instinktiven und animistischen Bed rfnissen in der Seele des nat rlichen bzw heidnischen Menschen letztlich also in einem Hass auf den Gott der Thora Diesen Grundkonflikt der im Nazismus brutale Gestalt annahm beschreibt er als gro en sakralen Streit
