Vietnam Explaining Americas Lost War Contesting The Past

Philip Thody

Vietnam Explaining Americas Lost War Contesting The Past:

Vietnam Gary R. Hess, 2009 This work examines the historiography of the Vietnam War which still polarises opinion today It describes and evaluates the main arguments of scholars participants and journalists and questions whether the war was inherently doomed to failure or was lost due to inept strategy poor leadership and a biased media **Vietnam** Gary R. Hess, 2015-05-26 Now available in a completely revised and updated second edition Vietnam Explaining America's Lost War is an award winning historiography of one of the 20th century's seminal conflicts Looks at many facets of Vietnam War examining central arguments of scholars journalists and participants and providing evidence on both sides of controversies around this event Addresses key debates about the Vietnam War asking whether the war was necessary for US security whether President Kennedy would have avoided the war had he lived beyond November 1963 whether negotiation would have been a feasible alternative to war and more Assesses the lessons learned from this war and how these lessons have affected American national security policy since Written by a well respected scholar in the field in an accessible style for students and scholars **The Israel-Palestine Conflict** Neil Caplan, 2019-09-11 One of the 10 Must Read Histories of the Palestine Israel Conflict Ian Black Literary Hub on the 100th anniversary of the Balfour Declaration The new edition of the acclaimed text that explores the issues continuing to define the Israeli Palestinian conflict Numerous instances of competing sometimes incompatible narratives of controversial events are found throughout history Perhaps the starkest example of such contradictory representations is the decades long conflict between Israel and Palestine For over 140 years Israelis Palestinians and scores of peacemakers have failed to establish a sustainable mutually acceptable solution The Israel Palestine Conflict introduces the historical basis of the dispute and explores both the tangible issues and intangible factors that have blocked a peaceful resolution Author Neil Caplan helps readers understand the complexities and contradictions of the conflict and why the histories of Palestine and Israel are so fiercely contested Now in its second edition this book has been thoroughly updated to reflect the events that have transpired since its original publication Fresh insights consider the impact of current global and regional instability and violence on the prospects of peace and reconciliation New discussions address recent debates over two state versus one state solutions growing polarization in public discourse outside of the Middle East the role of public intellectuals and the growing trend of merging scholarship with advocacy Part of the Wiley Blackwell Contested Histories series this clear and accessible volume Offers a balanced non polemic approach to current academic discussions and political debates on the Israel Palestine conflict Highlights eleven core arguments viewed by the author as unwinnable Encourages readers to go beyond simply assigning blame in the conflict Explores the major historiographical debates arising from the dispute Includes updated references and additional maps Already a standard text for courses on the history and politics of the Middle East The Israel Palestine Conflict is an indispensable resource for students scholars and interested general readers Contesting the Renaissance William Caferro, 2010-08-24 In this book

William Caferro asks if the Renaissance was really a period of progress reason the emergence of the individual and the beginning of modernity An influential investigation into the nature of the European Renaissance Summarizes scholarly debates about the nature of the Renaissance Engages with specific controversies concerning gender identity economics the emergence of the modern state and reason and faith Takes a balanced approach to the many different problems and perspectives that characterize Renaissance studies *American Foreign Policy Since WWII 19th Edition* Steven W.

Hook,John Spanier,2013 Allowing students to truly grasp the functions and frequent dysfunctions of America s foreign policy agenda this book has long set the standard in guiding students through the complexities of the field **Westmoreland's**

War Gregory Daddis,2013-12-16 General William C Westmoreland has long been derided for his failed strategy of attrition in the Vietnam War Historians have argued that Westmoreland s strategy placed a premium on high body counts through a big unit war that relied almost solely on search and destroy missions Many believe the U S Army failed in Vietnam because of Westmoreland s misguided and narrow strategy In a groundbreaking reassessment of American military strategy in Vietnam Gregory Daddis overturns conventional wisdom and shows how Westmoreland did indeed develop a comprehensive campaign which included counterinsurgency civic action and the importance of gaining political support from the South Vietnamese population Exploring the realities of a large yet not wholly unconventional environment Daddis reinterprets the complex political and military battlefields of Vietnam Without searching for blame he analyzes how American civil and military leaders developed strategy and how Westmoreland attempted to implement a sweeping strategic vision Westmoreland s War is a landmark reinterpretation of one of America s most divisive wars outlining the multiple interconnected aspects of American military strategy in Vietnam combat operations pacification nation building and the training of the South Vietnamese armed forces Daddis offers a critical reassessment of one of the defining moments in American history **War and American**

Popular Culture M. Paul Holsinger,1999-01-30 Spanning more than 400 years of America s past this book brings together for the first time entries on the ways Americans have mythologized both the many wars the nation has fought and the men and women connected with those conflicts Focusing on significant representations in popular culture it provides information on fiction drama poems songs film and television art memorials photographs documentaries and cartoons From the colonial wars before 1775 to our 1997 peacekeeper role in Bosnia the work briefly explores the historical background of each war period enabling the reader to place the almost 500 entries into their proper context The book includes particularly large sections dealing with the popular culture of the American Revolution the Civil War the Indian Wars West of the Mississippi World War II and Vietnam It has been designed to be a useful reference tool for anyone interested in America s many wars to provide answers to teach to inspire and most of all to be enjoyed *American Foreign Policy Since World War II* Steven W.

Hook,John Spanier,Andrea K. Grove,2024-03-04 A classic introductory text that examines the history of American foreign policy to help students analyze and understand modern issues *Pathological Counterinsurgency* Samuel R.

Greene,2018-06-29 Pathological Counterinsurgency critically examines the relationship between elections and counterinsurgency success in third party campaigns supported by the United States From Vietnam to El Salvador to Iraq and Afghanistan many policymakers and academics believed that democratization would drive increased legitimacy and improved performance in governments waging a counterinsurgency campaign Elections were expected to help overcome existing deficiencies thus allowing governments supported by the United States to win the hearts and minds of its populace undermining the appeal of insurgency However in each of these cases campaigning in and winning elections did not increase the legitimacy of the counterinsurgent government or alter conditions of entrenched rent seeking and weak institutions that made states allied to the United States vulnerable to insurgency Ultimately elections played a limited role in creating the conditions needed for counterinsurgency success Instead decisions of key actors in government and elites to prioritize either short term personal and political advantage or respect for political institutions held a central role in counterinsurgency success or failure In each of the four cases in this study elected governments pursued policies that benefited members of the government and elites at the expense of boarder legitimacy and improved performance Expectations that democratization could serve as a key instrument of change led to unwarranted optimism about the likely of success and ultimately to flawed strategy The United States continued to support regimes that continued to lack the legitimacy and government performance needed for victory in counterinsurgency

The Age of Great Dreams David Farber,2025-10-16 In this book David Farber grounds our understanding of the extraordinary history of the 1960s by linking the events of that era to our country s grand projects of previous decades Farber s important study based on years of research in archives and oral histories as well as in historical literature explores Vietnam the Civil Rights Act the War on Poverty the entertainment business the drug culture and much more

Withdrawal Gregory A. Daddis,2017-09-01 A better war Over the last two decades this term has become synonymous with US strategy during the Vietnam War s final years The narrative is enticingly simple appealing to many audiences After the disastrous results of the 1968 Tet offensive in which Hanoi s forces demonstrated the failures of American strategy popular history tells of a new American military commander who emerged in South Vietnam and with inspired leadership and a new approach turned around a long stalemated conflict In fact so successful was General Creighton Abrams in commanding US forces that according to the better war myth the United States had actually achieved victory by mid 1970 A new general with a new strategy had delivered only to see his victory abandoned by weak kneed politicians in Washington DC who turned their backs on the US armed forces and their South Vietnamese allies In a bold new interpretation of America s final years in Vietnam acclaimed historian Gregory A Daddis disproves these longstanding myths Withdrawal is a groundbreaking reassessment that tells a far different story of the Vietnam War Daddis convincingly argues that the entire US effort in South Vietnam was incapable of reversing the downward trends of a complicated Vietnamese conflict that by 1968 had turned into a political military stalemate Despite a new articulation of strategy Abrams s approach

could not materially alter a war no longer vital to US national security or global dominance Once the Nixon White House made the political decision to withdraw from Southeast Asia Abrams s military strategy was unable to change either the course or outcome of a decades long Vietnamese civil war In a riveting sequel to his celebrated Westmoreland s War Daddis demonstrates he is one of the nation s leading scholars on the Vietnam War Withdrawal will be a standard work for years to come

Arc of Empire Michael H. Hunt, Steven I. Levine, 2012 Argues that America s wars in The Philippines Japan Korea and Vietnam were actually all part of a sustained U S bid for dominance in Asia

Frieden und Frauenrechte im Kalten Krieg Lara Track, 2024-03-04 Als der Kalte Krieg die Welt an den atomaren Abgrund brachte formierte sich in den USA das Aktivistinnen Netzwerk Women Strike for Peace WSP Von Frauen getragen protestierte die WSP gegen Atomwaffentests und forderte Frieden im Namen k nftiger Generationen Lara Track analysiert das Verh ltnis der WSP zur zeitgen ssischen Frauenrechtsbewegung und zeigt auf welchen entscheidenden Einfluss transnationale Vernetzung auf die Zusammenarbeit sozialer Bewegungen hatte Damit erschlie t sie nicht nur die Geschichte des bisher kaum im historischen Ged chtnis verankerten Frauenfriedensnetzwerks bis 1990 sondern verdeutlicht auch wie Aktivistinnen gemeinsam f r Frieden und Frauenrechte einstanden

Writing the Arab-Israeli Conflict Jonathan B. Isacoff, 2006-03-30 Nearly all empirical work in political science is fundamentally historical yet very little attention has been given to the problem of grounding claims to historical knowledge In Writing the Arab Israeli Conflict Jonathan B Isacoff constructs the nature of historical knowledge by deftly examining the multiple histories of the Arab Israeli conflict written by generations of Israeli scholars He also undertakes briefer analysis of literature drawn from both historians and political scientists of the Vietnam War demonstrating that historical revisionism is not unique to the study of the Middle East Focusing on different schools of historical interpretation Writing the Arab Israeli Conflict argues for a pragmatist approach in the tradition of John Dewey Most importantly this exceptional work suggests a number of practical methodological measures that can be taken to produce more sophisticated and nuanced political science scholarship

Understanding Western Society, Volume 2: From the Age of Exploration to the Present John P. McKay, Bennett D. Hill, John Buckler, Clare Haru Crowston, Merry E.

Wiesner-Hanks, Joe Perry, 2011-07-29 Based on the highly successful A History of Western Society Understanding Western Society A Brief History captures students interest in the everyday life of the past and ties social history to the broad sweep of politics and culture Abridged by 30% the narrative is paired with innovative pedagogy designed to help students focus on significant developments as they read and review An innovative three step end of Chapter study guide helps students master key facts and move toward synthesis

Terrorism and Homeland Security Dale L. June, 2010-09-29 Since 9 11 the terms homeland security and terrorism have become firmly entrenched in our lexicon The days of walking through a simple metal detector at the airport are over and our security landscape is forever changed Terrorism and Homeland Security

Perspectives Thoughts and Opinions brings together the work of academic researchers and law **Tet Offensive 1968**

James Arnold,2012-09-20 A slim detailed volume on a key moment in the Vietnam War featuring battlescenes maps and archive photography The 1968 Tet Offensive was the decisive battle for Vietnam Masterminded by the brilliant North Vietnamese General Vo Nguyen Giap it was intended to trigger a general uprising in South Vietnam However the bloody fighting for Saigon Hue and other cities actually resulted in a catastrophic defeat for the North In this excellent assessment of the key battle of the Vietnam conflict James Arnold details the plans and forces involved and explains how despite the outcome of the battle the American people and their leaders came to perceive the war for Vietnam as lost *Representing*

Death in the News F. Hanusch,2010-08-11 This new study maps and synthesizes existing research on the ways in which journalism deals with death Folker Hanusch provides a historical overview of death in the news looks at the conditions of production content and reception and also analyzes emerging trends in the representation of death online **Lost Crusade**

Peter Scott,2014-07-15 When Peter Scott began a 1968 tour in Vietnam advising ethnic Cambodian Khmer Krom paramilitaries they shared only an earnest desire to check the spread of communism It took nearly thirty years and a chance reunion for Scott to realize just how much they had become a part of him This fascinating chronicle of Scott s experiences with the secret army of brave disciplined warriors is by far the most moving and richly detailed account ever published of the deep bonds forged in war between Americans and our Asian allies Successfully blending intense combat narrative and stirring emotional drama Scott vividly captures both the unique village culture of a little known highly spiritual people and their complex relationship with Special Forces soldiers who found it increasingly difficult to match their charges commitment to the costly conflict With a novelist s powers of description and reflection and a professional soldier s keen insight and analysis Scott raises the standard for literature about the Vietnam War with this searing portrait of promise and betrayal Building on his experiences as a Phoenix Program adviser near the Cambodian border extensive interviews with Khmer Krom survivors hundreds of hours of research in government archives and requests for Freedom of Information Act disclosures Scott seamlessly reconstructs the six thousand strong mercenary force s final crusade against communism beginning in their ancestral home in 1970 and ending on the U S West Coast in 1995 Such a hauntingly evocative and highly readable book will both entertain and shock and it is assured of a place among the classics on Vietnam **The Value of History** Paul F Frank

Beisbier,2019-07-09 The work that is about to be surveyed by the reader represents decades of painstaking work to provide him or her with the most positive and freshest perspective with respect to what the discipline of history teaches him or her to improve the quality of not only his or her daily life but also those of all other whom he or she comes into contact with This task is accomplished when he or she becomes aware of the fact that the greatest possible good can only be achieved through the promotion of the adequate satisfaction of the greatest number of needs of the maximum number of people within the context of its being mutually beneficial to all parties involved Furthermore the reader of this volume gains the widest perspective on how the above assertion is valid for and has a positive impact on all fields of human endeavor individual

human lives and human institutions since the content of historical subject matter consists of nothing less than the past and present record of all the events and developments of the above entities Thus since everything that people learn is through past and present experiences history teaches them everything and nothing can be perceived outside the framework of its subject matter To present a graphic example to the reader of this volume to clearly illustrate the truth and validity of the above points the author has used the comparison and contrast of the values beliefs and cultures of two very different societies in variant times and places to do so The retrograde valuing of power and wealth placed on them by a small elite in European medieval society resulting in limited social mobility in a primarily agrarian society is in marked contrast to the emphasis on limited individual freedom within the framework of the rule of law as espoused by modern America Within the latter framework it was possible to develop a modern industrial and postindustrial community to provide individual social advancement through educational and employment opportunities as well as through the availability of quality health care Finally through all that has been stated above it is worthwhile for society at large as well as the academic community to peruse through the contents of this volume in order to accomplish the above objectives

Eventually, you will completely discover a further experience and endowment by spending more cash. still when? do you tolerate that you require to acquire those all needs past having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to comprehend even more on the subject of the globe, experience, some places, as soon as history, amusement, and a lot more?

It is your definitely own era to con reviewing habit. in the course of guides you could enjoy now is **Vietnam Explaining Americas Lost War Contesting The Past** below.
