Was Hitler Ill A Final Diagnosis:

The Third Reich in History and Memory Richard J. Evans, 2015 Seventy years after its demise historian Richard J Evans charts the ways our understanding of the Third Reich has changed Hitler's People Richard J. Evans, 2015-11-18 Named a Best Book of the Year by Kirkus Reviews and Air Mail A fascinating and instructive book elegantly written and perceptive Wall Street Journal Kaleidoscopic A fascinating exploration of individual agency that never loses sight of the larger context Just the kind of probing nuanced and unsparing study to help us think things through The New York Times Through a connected set of biographical portraits of key Nazi figures that follows power as it radiated from Hitler to the inner and outer circles of the regime's leadership one of our greatest historians answers the enduring question How does a society come to carry out a program of unspeakable evil Richard J Evans author of the acclaimed Third Reich trilogy and more than a dozen other volumes on modern Europe is our preeminent scholar of Nazi Germany Having spent half a century searching for the truths behind one of the most horrifying episodes in human history in Hitler's People he brings us back to the original site of the Nazi movement namely the lives of its most important and representative members Working in concentric circles out from Hitler and his closest allies Hitler's People forms a typological framework of German society under Nazi rule from the top down With a novelist's eye for detail Evans explains the Third Reich through the personal characteristics and professional ambitions of its members from its most notorious deputies such as Goebbels the regime's propagandist and Himmler the Holocaust's chief architect to the crucial enforcers and instruments of the Nazi agenda that history has largely forgotten such as the schoolteacher Julius Streicher or the actress and film director Leni Riefenstahl Drawing on a wealth of recently unearthed historical sources Hitler's People lays bare the characters whose choices caused the deaths of millions Nearly a century after Hitler's rise the leading nations of the west are once again being torn apart by an untamed will to power By telling the stories of these infamous individuals as human lives Evans asks us to grapple with the complicated nature of agency and complicity showing us that the distinctions between individual and collective responsibility and even between pathological evil and rational choice are never easily drawn **The Jews, the Holocaust, and the Public** Larissa Allwork, Rachel Pistol, 2019-11-25 This book explores the work and legacy of Professor David Cesarani OBE a leading British scholar and expert on Jewish history who helped to shape Holocaust research remembrance and education in the UK It is a unique combination of chapters produced by researchers curators and commemoration activists who either worked with and or were taught by the late Cesarani The chapters in this collection consider the legacies of Cesarani's contribution to the discipline of history and the practice of public history The contributors offer reflections on Cesarani's approach and provide new insights into the study of Anglo Jewish history immigrants and minorities and the history and public legacies of the Holocaust Hugh Trevor-Roper Blair Worden, 2015-01-02 Hugh Trevor Roper was one of the most gifted historians of the twentieth century His scholarly interests ranged widely from the Puritan Revolution to the Scottish Enlightenment Yet he was

also fascinated by the events of his own lifetime and wrote widely on issues of espionage and intelligence as well as maintaining a fascination with the workings and personalities of Nazi Germany In this volume a variety of contributors many of whom knew Trevor Roper personally engage with his scholarship and analyse his greatest achievements as an historian Covering the full range of Trevor Roper's interests this volume will be essential for anyone who wishes to better understand this great historian and his work

The First Soldier Stephen G. Fritz, 2018-11-13 An expert account of Nazi war strategy that concludes that Hitler was not without military talent Kirkus Reviews After Germany's humiliating World War II defeat numerous German generals published memoirs claiming that their country's brilliant military leadership had been undermined by the Führer's erratic decision making The author of three highly acclaimed books on the era Stephen Fritz upends this characterization of Hitler as an ill informed fantasist and demonstrates the ways in which his strategy was coherent and even competent That Hitler saw World War II as the only way to retrieve Germany's fortunes and build an expansionist Thousand Year Reich is uncontroversial But while his generals did sometimes object to Hitler's tactics and operational direction they often made the same errors in judgment and were in agreement regarding larger strategic and political goals A necessary volume for understanding the influence of World War I on Hitler's thinking this work is also an eye opening reappraisal of major events like the invasion of Russia and the battle for Normandy Perhaps the best account we have to date of Hitler's military leadership It shows a scrupulous and imaginative historian at work and will cement Fritz's reputation as one of the leading historians of the military conflicts generated by Hitler's Germany Richard Overy author of The Bombing War Original insightful and authoritative David Stahel author of The Battle for Moscow

The Second World Wars Victor Davis Hanson, 2017-10-17 A breathtakingly magisterial account of World War II by America's preeminent military historian Wall Street Journal World War II was the most lethal conflict in human history Never before had a war been fought on so many diverse landscapes and in so many different ways from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya The Second World Wars examines how combat unfolded in the air at sea and on land to show how distinct conflicts among disparate combatants coalesced into one interconnected global war Drawing on 3 000 years of military history bestselling author Victor Davis Hanson argues that despite its novel industrial barbarity neither the war's origins nor its geography were unusual Nor was its ultimate outcome surprising The Axis powers were well prepared to win limited border conflicts but once they blundered into global war they had no hope of victory An authoritative new history of astonishing breadth The Second World Wars offers a stunning reinterpretation of history's deadliest conflict

armata germană a fost înjunghiată în spate de socialiști și evrei în 1918 când naziștii au incendiat Reichstagul pentru a pune mâna pe putere. După fuga în Marea Britanie a lui Rudolf Hess în 1941 a fost aprobat de Hitler și acesta venea cu termeni pentru încheierea păcii ascunși de Churchill sau când Hitler a scăpat din buncăr în 1945 și a fugit în America de Sud în paginile sale vom vedea unele surprize surprinzătoare pe care aceste ipoteze și alte teorii ale conspirației le au în comun. Aceasta este o carte de istorie, dar este o carte de istorie pentru epoca postmodernă și fapte alternative o carte pentru vremurile noastre tulburi. O nouă carte care apare la momentul oportun. Disecă pe care o realizează Evans asupra celor mai populare teorii ale conspirației care înconjoară pe naziști este introspectiv prin ea însăși, dar relevantă pentru că trece dincolo de aceasta. Ea ne demonstrează că cel mai important este că faptele alternative să fie confruntate și corectate. Robert Gerwarth Daily Telegraph. Tranșant, atent documentat și adesea foarte amuzant, cartea lui Evans este o lectură extrem de plăcută. Dominic Sandbrook Sunday Times. O capodoperă de cinci stele. Evening Standard. Nu există un ghid mai bun prin haosul teoriilor conspirației decât Evans însuși. Problema devine azi extrem de serioasă. Financial Times. Richard J. Evans este autorul mai multor cărți importante printre care: In Defence of History, The Coming of the Third Reich, The Third Reich in Power, The Third Reich at War și The Pursuit of Power. Cea mai recentă carte a sa este biografia lui Eric Hobsbawm. Din 2008 până în 2014 a fost profesor Regius de istorie la Cambridge unde a condus un program de cercetare Leverhulme de cinci ani având ca subiect teoriile conspirației și impactul lor asupra democrației.
