Homeless Advocacy and the Rhetorical Construction of the Civic Home Melanie Loehwing, 2018-10-04 Homeless assistance has frequently adhered to the three hots and a cot model which prioritizes immediate material needs but may fail to address the political and social exclusion of people experiencing homelessness In this study Loehwing reconsiders typical characterizations of homelessness citizenship and democratic community through unconventional approaches to homeless advocacy and assistance While conventional homeless advocacy rhetoric establishes the urgency of homeless suffering it also implicitly invites housed publics to understand homelessness as a state of abnormality that destines the individuals suffering it to life outside the civic body In contrast Loehwing focuses on atypical models of homeless advocacy the meal sharing initiatives of Food Not Bombs the international competition of the Homeless World Cup and the annual Homeless Persons Memorial Day campaign She argues that these modes of unconventional homeless advocacy provide rhetorical exemplars of a type of inclusive and empowering civic discourse that is missing from conventional homeless advocacy and may be indispensable for overcoming homeless marginalization and exclusion in contemporary democratic culture Loehwing's interrogation of homeless advocacy rhetorics demonstrates how discursive practices shape democratic culture and how they may provide a potential civic remedy to the harms of disenfranchisement discrimination and displacement This book will be welcomed by scholars whose work focuses on the intersections of democratic theory and rhetorical and civic studies as well as by homelessness advocacy groups

At War with Women Jennifer Greenburg,2023-02-15 At War with Women reveals how post 9 11 politics of gender and development have transformed US military power In the mid 2000s the US military used development as a weapon as it revived counterinsurgency in Iraq and Afghanistan The military assembled all female teams to reach households and wage war through development projects in the battle for hearts and minds Despite women technically being banned from ground combat units the all female teams were drawn into combat nonetheless Based on ethnographic fieldwork observing military trainings this book challenges liberal feminist narratives that justified the Afghanistan War in the name of women s rights and celebrated women s integration into combat as a victory for gender equality Jennifer Greenburg critically interrogates a new imperial feminism and its central role in securing US hegemony Women s incorporation into combat through emotional labor has reinforced gender stereotypes with counterinsurgency framing female

soldiers as global ambassadors for women's rights This book provides an analysis of US imperialism that keeps the present in tension with the past clarifying where colonial ideologies of race gender and sexuality have resurfaced and how they are changing today **Realizing Indonesia's Economic Potential** Mr.Luis E Breuer,Mr.Jaime Guajardo,Mr.Tidiane

Kinda,2018-08-01 Analytical work on Indonesian macroeconomic and financial issues with an overarching theme on building institutions and policies for prosperity and inclusive growth The book begins with a 20 year economic overview by former Finance Minister Chatib Basri with subsequent chapters covering diverse sectors of the economy as well as Indonesia's place in the global economy **Handbook on Securities Statistics** Mr.Jose M Cartas,Mrs.Qi He,2015-06-08 The production of

the Handbook on Securities Statistics the Handbook is a joint undertaking by the Bank for International Settlements BIS the European Central Bank ECB and the International Monetary Fund IMF They have specific interests and expertise in the area of securities statistics and are the core members of the Working Group on Securities Databases WGSD In 2007 the WGSD originally established by the IMF in 1999 was reconvened in response to various international initiatives and recommendations to improve information on securities markets The WGSD is chaired by the ECB and includes the BIS the IMF and the World Bank Selected experts from national central banks who participated actively in the various international groups that identified the need to improve data on securities markets were also invited to contribute to some of the WGSD's deliberations In mid 2008 the WGSD agreed to sponsor the development of a handbook on securities statistics In November 2009 the report entitled The Financial Crisis and Information Gaps which was prepared by the Financial Stability Board FSB Secretariat and IMF staff at the request of the Group of Twenty G 20 finance ministers and central bank governors endorsed the development of the Handbook as well as the gradual implementation of improved statistics on issuance and holdings of securities at the national and international level The BIS's compilation of data on debt securities plays an important role in this respect The Handbook sponsors responded to the demand from various international groups for the development of methodological standards for securities statistics and released the Handbook in three parts Part 1 on debt securities issues was published in May 2009 and Part 2 on debt securities holdings in September 2010 Part 3 of the Handbook on equity securities statistics was published in November 2012 The methodology described in all three parts was based on the System of National Accounts 2008 2008 SNA and the sixth edition of the Balance of Payments and International Investment Position Manual BPM6 The three parts also went slightly beyond the confines of these standards by providing guidance and additional information on for example the main features of securities special and borderline cases and breakdowns of issues and holdings of securities by counterparty Special attention was also paid to specific operations such as mergers and acquisitions restructuring privatization and nationalization and transactions between general government and public corporations From the beginning the intention was to combine the three parts into one volume thereby eliminating any overlap and repetitions between the parts The Handbook's conceptual framework is complemented by a set of tables for presenting securities data

both at an aggregated level and broken down by various features This should allow sufficient flexibility in the presentation of data on issuance and holdings of securities in line with developments in securities markets and financing The Handbook is the first publication of its kind to focus exclusively on securities statistics Recent turmoil in global financial markets has confirmed the importance of timely relevant coherent and internationally comparable data on securities from the perspective of monetary policy fiscal policy and financial stability analysis This Handbook provides a conceptual framework for the compilation and presentation of statistics on different types

Defining the Government's Debt and Deficit Mr. Timothy Irwin, 2015-11-20 Although the budget deficit and the public debt feature prominently in political debate and economic research there is no agreement about how they should be measured They can be defined for different sets of public institutions including the nested sets corresponding to central government general government and the public sector and for any definition of government there are many measures of the debt and deficit including those generated by four kinds of accounts cash financial full accrual and comprehensive which can be derived from four nested sets of assets and liabilities Each debt and deficit measure says something about public finances but none tells the whole story Each is also vulnerable to manipulation and is likely to be manipulated if it is subject to a binding fiscal rule or target Narrow definitions of government encourage the shifting of spending to entities outside the defined perimeter of government Narrow definitions of debt and deficit encourage operations involving off balance sheet assets and liabilities while broad measures are susceptible to the mismeasurement of on balance sheet assets and liabilities Reviewing the literature on these issues the paper concludes that governments should publish several measures of the debt and deficit in a form that clearly reveals their interrelationships
