Watching The Wind Conflict Resolution During South Africa's Transition To Democracy:

Watching the Wind Susan Collin Marks, 2000 A compelling inspiring account of peacemaking in action *Watching the Wind* takes us to the front lines of South Africa's struggle to manage the tempestuous transition from apartheid to democracy When Mandela de Klerk and other political leaders launched the 1991 National Peace Accord in a far reaching effort to staunch political bloodshed and promote consultation and cooperation between bitter adversaries Susan Collin Marks was one of thousands of South Africans who committed themselves to making the peace process work where it mattered most at the local level Over the next three years Marks and other leaders of the conflict resolution movement adopted and adapted a vast array of tools and techniques they mediated facilitated and counseled they created forums for open discussion and trained community leaders they fostered community policing and they anticipated crises and stood between demonstrators and security forces And as Marks explains something extraordinary happened The international community had expected a bloodbath but what it saw instead was a near miraculous process of negotiation and accommodation With passion and eloquence the author captures the drama the personalities and the heroism of this grassroots peace process *WATCHING THE WIND... CONFLICT RESOLUTION DURING SOUTH AFRICA'S TRANSITION TO DEMOCRACY... U.S. INSTITUTE OF PEACE*. United States Institute of Peace, 2001* From Conflict Resolution to Peacebuilding Charles Hauss, 2019-11-05

and practitioners demonstrate the synergy between domestic and international influences that can precipitate democratic transitions. As demonstrated by current events in Tunisia and Egypt, oppressive regimes are rarely immune to their citizens' desire for democratic government. Of course, desire is always tempered by reality; therefore, how democratic demands are made manifest is a critical source of study for both political scientists and foreign policy makers. What issues and consequences surround the fall of a government, what type of regime replaces it, and to what extent are these efforts successful? Kathryn Stoner and Michael McFaul have created an accessible book of fifteen case studies from around the world that will help students understand these complex issues. Their model builds upon Guillermo O'Donnell, Philippe C. Schmitter, and Laurence Whitehead's classic work *Transitions from Authoritarian Rule* using a rubric of four identifying factors that can be applied to each case study, making comparison relatively easy. *Transitions to Democracy* yields strong comparisons and insights. For instance, the study reveals that efforts led by the elite and involving the military are generally unsuccessful, whereas mass mobilization, civic groups, and new media have become significant factors in supporting and sustaining democratic actors. This collection of writings by scholars and practitioners is organized into three parts: successful transitions, incremental transitions, and failed transitions. Extensive primary research and a rubric that can be applied to burgeoning democracies offer readers valuable tools and information.

Peacemaking and Peacebuilding in South Africa Liz Carmichael, 2022. It is now 30 years since the National Peace Accord (NPA) was signed in South Africa, bringing to an end the violent struggle of the Apartheid era and signalling the transition to democracy. Signed by the ANC Alliance, the Government, the Inkatha Freedom Party, and a wide range of other political and labour organizations on 14 September 1991, the parties agreed in the NPA on the common goal of a united, non-racial, democratic South Africa and provided practical means for moving towards this end: codes of conduct for political organizations and for the police; the creation of national, regional, and local peace structures for conflict resolution; the investigation and prevention of violence; peace monitoring; socio-economic reconstruction; and peacebuilding. This book, written by one of those involved in the process that evolved, provides for the first time an assessment and in-depth account of this key phase of South Africa's history. The National Peace Campaign, set up under the NPA, mobilized the silent majority and gave peace an unprecedented grassroots identity and legitimacy. The author describes the formulation of the NPA by political representatives with Church and business facilitators, which ended the political impasse, constituted South Africa's first experience of multi-party negotiations, and made it possible for the constitutional talks. Codesa to start. She examines the work of the Goldstone Commission, which prefigured the TRC, as well as the role of international observers from the UN, EU, Commonwealth, and OAU. Exploring the work of the peace structures set up to implement the Accord, the National Peace Committee and Secretariat, the 11 Regional Peace Committees, and 263 Local Peace Committees, and over 18,000 peace monitors, Carmichael provides a uniquely detailed assessment of the NPA, the on-the-ground peacebuilding work, and the essential involvement of the people at its heart. Filling a significant gap in modern

history this book will be essential reading for scholars students and others interested in South Africa's post Apartheid history as well as government agencies and NGOs involved in peacemaking globally

Religion, Tradition, and Restorative Justice in Sierra Leone Lyn S. Graybill, 2017-06-15 In this groundbreaking study of post conflict Sierra Leone Lyn Graybill examines the ways in which both religion and local tradition supported restorative justice initiatives such as the national Truth and Reconciliation Commission TRC and village level Fambul Tok ceremonies Through her interviews with Christian and Muslim leaders of the Inter Religious Council Graybill uncovers a rich trove of perspectives about the meaning of reconciliation the role of acknowledgment and the significance of forgiveness Through an abundance of polling data and her review of traditional practices among the various ethnic groups Graybill also shows that these perspectives of religious leaders did not at all conflict with the opinions of the local population whose preferences for restorative justice over retributive justice were compatible with traditional values that prioritized reconciliation over punishment These local sentiments however were at odds with the international community's preference for retributive justice as embodied in the Special Court for Sierra Leone which ran concurrently with the TRC Graybill warns that with the dominance of the International Criminal Court in Africa there are currently eighteen pending cases in eight countries local preferences may continue to be sidelined in favor of prosecutions She argues that the international community is risking the loss of its most valuable assets in post conflict peacebuilding by pushing aside religious and traditional values of reconciliation in favor of Western legal norms

Globalizing International Theory A. Layug, John M. Hobson, 2022-09-30 Globalizing International Theory adds to the literature on non Western international relations IR theory by probing the question of what it means to globalize international theory The book starts with the premise that international theory is unfinished incomplete and homogenous because it provides a limited conception of the international which in turn derives from its partiality that reflects its narrow Western centric bias The contributors argue that the IR vision of the world is projected through a polarizing Western filtered lens Rather than utilizing an objective set of explanatory tools for explaining world politics the reality is that orthodox IR theory only tells us why the West is best and why the Rest should become like the West This means that international theory is not truly international In provincializing Western international theory this volume navigates beyond the Eurocentric and imperial frontier of the prevailing limited conception of the international to explore the hidden contributions to international theory which can be found in the non Western world Bringing in excluded non Western conceptions of international theory highlights a broader conception of the international The book provides a framework for theorizing globally exploring the fundamental problems with Western IR theory and how to overcome them This book will be used by advanced undergraduate and postgraduate students scholars researchers and IR theorists worldwide who are interested in non Western IR theory It will help navigate the problem of internationalness in the face of the grand theoretical problem of our time the use and misuse of international theory in making sense of and responding to the complex global
