Nolasco, Rob Vincent MacDonald, 2016-10-19 Compassion plays a central role in the teachings of all world religions Christianity in particular

demonstrates its vitality through compassionate engagement with those suffering with Christ serving as a paradigm and source of motive power These concrete acts of mercy and solidarity disclose God's intimate regard for the welfare of humanity The purpose of this book is to affirm compassion as the pulsating heartbeat of Christian theology and praxis through the hermeneutical perspectives of brain science psychology and practical theology More importantly it offers readers specific compassion cultivation practices that will nurture the trait of compassion as a way of incarnating God's compassionate presence and response to a world marked with suffering of all kinds

Six Stages on the Spiritual Path Ruth Whitney, 2021-05-21 In *Six Stages on the Spiritual Path* we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving In the first stage on the mystic way children experience awe and wonder but they do not realize that this is a spiritual experience While all indigenous people recognize awe as a mystical experience only some adults and most artists do When parents and religious leaders teach children about God they cause their spiritual growth to flourish or to become stunted at an elementary school level

Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us Awakening produces love for our neighbors and ourselves Then love nurtures more awakenings Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE Illumination creates more love for all people and all the universe

Juliana Claassens, 2018-09-17 In light of the numerous challenges posed by globalization living together as humanity on one planet needs to be reinvented in the twenty first century To create a new peaceful just and sustainable world order is vital to the survival of us all In this regard humankind will have to expand the limited scope of its moral imagination beyond the borders of family tribe class religion nation and culture Will the cultivation of compassion as scholars like Martha Nussbaum and Karen Armstrong and religious leaders like the Dalai Lama maintain contribute to a more just world A global movement to cultivate and extend compassion

beyond the immediate circle of concern may indeed find inspiration from many different religious traditions The question at the heart of this book is whether the Christian legacy provides us with sources of moral imagination needed to guide us into the global era Can the Christian practice of faith contribute to a more compassionate world If so how And is it true that compassion is what we need or do we need something else justice for example In *Considering Compassion* colleagues from different theological disciplines at Stellenbosch South Africa and Groningen Netherlands take up these challenging questions from a variety of interdisciplinary angles
