Convergence Johannes Fehrle, Werner Schäfke-Zell, 2025-10-01 This collection considers new phenomena emerging in a convergence environment from the perspective of adaptation studies The contributions take the most prominent methods within the field to offer reconsiderations of theoretical concepts and practices in participatory culture transmedia franchises and new media adaptations The authors discuss phenomena ranging from mash ups of novels and YouTube cover songs to negotiations of authorial control and interpretative authority between media producers and fan communities to perspectives on the fictional and legal framework of brands and franchises In this fashion the collection expands the horizons of both adaptation and transmedia studies and provides reassessments of frequently discussed BBC s Sherlock or the LEGO franchise and previously largely ignored phenomena self censorship in transnational franchises mash up novels or YouTube cover videos **Shakespeare and Millennial Fiction** Andrew James Hartley, 2018 This book analyses the ways

contemporary fiction writers draw on Shakespeare the man his work and his cultural legacy Shakespeare's Fans Johnathan H. Pope, 2019-12-05 This book examines Shakespearean adaptations through the critical lens of fan studies and asks what it means to be a fan of Shakespeare in the context of contemporary media fandom Although Shakespeare studies and fan studies have remained largely separate from one another for the past thirty years this book establishes a sustained dialogue between the two fields In the process it reveals and seeks to overcome the problematic assumptions about the history of fan cultures Shakespeare s place in that history and how fan works are defined While fandom is normally perceived as a recent phenomenon focused primarily on science fiction and fantasy this book traces fans practices back to the eighteenth century particularly David Garrick s Shakespeare Jubilee in 1769 Shakespeare s Fans connects historical and scholarly debates over who owns Shakespeare and what constitutes an appropriate adaptation of his work to online fan fiction and commercially available fan works **Adaptation, Awards Culture, and the Value of Prestige** Colleen

Kennedy-Karpat, Eric Sandberg, 2017-09-07 This book explores the intersection between adaptation studies and what James F English has called the economy of prestige which includes formal prize culture as well as less tangible expressions such as

canon formation fandom authorship and performance The chapters explore how prestige can affect many facets of the adaptation process including selection approach and reception The first section of this volume deals directly with cycles of influence involving prizes such as the Pulitzer the Man Booker and other major awards The second section focuses on the juncture where adaptation the canon and awards culture meet while the third considers alternative modes of locating and expressing prestige through adapted and adaptive intertexts This book will be of interest to students and scholars of adaptation cultural sociology film and literature

Parasocial Politics Jason Zenor, 2014-10-21 The popularity of cable news satire documentaries and political blogs suggest that people are often absorbing and dissecting direct political messages from informational media But entertainment media also discusses the important political issues of our time though not as overtly Nonetheless consumers still learn debate and form opinions on important political issues through their relationship with entertainment media While many scholarly books examine these political messages found in popular culture very few examine how actual audiences read these messages Parasocial Politics explores how consumers form complex relationships with media texts and characters and how these readings exist in the nexus between real and fictional worlds This collection of empirical studies uses various methodologies including surveys experiments focus groups and mixed methods to analyze how actual consumers interpret the texts and the overt and covert political messages encoded in popular culture
