Monetary and Capital Markets Department,2017-11-13 This Technical Note discusses the findings and recommendations in the Financial Sector Assessment Program for Spain regarding institutional arrangements for financial sector oversight The macroprudential policy framework for banking is now in place although the national macroprudential authority has not been established Banco de Espa a is the national designated authority for exercising certain macroprudential powers and under the Banking Union shares macroprudential oversight with the European Central Bank which possesses top up powers It is recommended that the
