Law and the Quest for Gender Equality Margaret Thornton,2023-04-27 For centuries law was used to subordinate women and exclude them from the public sphere so it cannot be expected to become a source of equality instantaneously or without resistance from benchmark men that is those who are white heterosexual able bodied and middle class Equality furthermore was attainable only in the public sphere whereas the private sphere was marked as a site of inequality a wife children and servants could never be the equals of the master Despite their ambivalence about the role of law and its contradictions women and Others felt that they had no alternative but to look to it as a means of liberation This skewed patriarchal heritage the subtext of this collection of essays has continued to impede the quest for equality by women and Others It informs not only gender relations in the private sphere as illustrated by domestic violence and sexual assault but also the status of women in the public sphere Despite the fact that women have entered the paid workforce including the professions in large numbers they are still expected to assume responsibility for the preponderance of society s caring The essays show how maternal and caring roles which are still largely viewed as belonging to an unregulated private sphere continue to be invoked to detract from the authority of the feminine in the public sphere The promise of antidiscrimination legislation in overcoming the heritage of the past is also shown to be somewhat hollow

Disrupting the Culture of Silence Kristine De Welde,Andi Stepnick,2023-07-03 CHOICE 2015 Outstanding Academic TitleWhat do women academics classify as challenging inequitable or hostile work environments and experiences How do these vary by women s race ethnicity rank sexual orientation or other social locations How do academic cultures and organizational structures work independently and in tandem to foster or challenge such work climates
