Generation on a Tightrope Arthur Levine, Diane R. Dean, 2012-07-19 Today's college students feel as if they are crossing an abyss between their dreams and the reality of an uncertain future They are a generation seeking stability in a time of profound and accelerating change They want government and our other social institutions to work in a time when they're broken they cling to the American Dream in an age of diminished expectations They are walking a tightrope attempting to balance digital connectedness and personal isolation global citizenship and local vision commonality and difference in the most diverse generation in American history and a desire to be treated as mature adults while being more dependent on their parents than previous college students Generation on a Tightrope offers a compelling portrait of today's undergraduate college students that sheds light on their attributes expectations aspirations academics attitudes values beliefs social lives and politics Based on research of 5 000 college students and student affairs practitioners from 270 diverse college campuses the book explores the similarities and differences between today's generation of students and previous generations The

authors examine the myriad forces that have shaped these students and will continue to shape them as they prepare to meet the future The first two volumes in this series exploring the psyche of college students *When Dreams and Heroes Died* 1980 and *When Hope and Fear Collide* 1998 offered thoughtful and accurate profiles of the students of the 1980s and 1990s *As Generation on a Tightrope* clearly reveals today's students need a very different education than the undergraduates who came before them an education for the 21st Century which colleges and universities are ill equipped to offer and which will require major changes of them to provide *Painting a realistic picture of today's college students* the authors offer guidance to higher education professionals researchers practitioners policymakers employers parents and the public The book's insights can help them equip students for the world they face and the world they will help to create *Political Disaffection Among British University Students* Jack Citrin, David J.
