Resources in Education ,1979 Films and Other Materials for Projection Library of Congress,1978 *Vision in Cephalopods* Frederike Diana Hanke,Daniel Colaco Osorio,2018-03-13 Cephalopods usually have large and mobile eyes with which they constantly scan their environment The eyes of cephalopods are single chamber eyes which show resemblance to vertebrate eyes However there are marked differences such as the cephalopod eye having an everted retina instead of an inverted retina found in vertebrates Their visual system allows the cephalopods depending on species to discriminate objects on the basis of their shapes or sizes images from mirror images or to learn from the observation of others The cephalopod visual system is also polarization sensitive and controls camouflage an extraordinary ability almost exclusive to all cephalopods they are capable of rapidly adapting their body coloration as well as altering their body shape to any background in almost any condition and even during self motion Visual scene analysis ultimately leads to motor outputs that cause an appropriate change in skin coloration or texture by acting directly on chromatophores or papillae in the skin Mirroring these numerous functions of the visual system large parts of the cephalopod brain are devoted to the processing of visual information This research topic focuses on current advances in the knowledge of cephalopod vision It is designed to facilitate merging questions approaches and data available through the work of different researchers working on different aspects of cephalopod vision Thus the research topic creates mutual awareness and facilitates the growth of a field of research with a long tradition cephalopod vision visual perception and cognition as well as the mechanisms of camouflage This research topic emerged from a workshop on Vision in cephalopods as part of the COST Action FA1301 Current Catalog National Library of Medicine (U.S.),1967 Includes subject section name section and 1968 1970 technical reports *Catalog* National Medical Audiovisual Center,1981
