War Crimes And Just War War Crimes And Just War:

War Crimes and Just War Larry May, 2007-02-12 Larry May argues that the best way to understand war crimes is as crimes against humanness rather than as violations of justice. He shows that in a deeply pluralistic world we need to understand the rules of war as the collective responsibility of states that send their citizens into harm's way as the embodiment of humanity and as the chief way for soldiers to retain a sense of honour on the battlefield. Throughout May demonstrates that the principle of humanness is the cornerstone of international humanitarian law and is itself the basis of the traditional principles of discrimination, necessity and proportionality. He draws extensively on the older Just War tradition to assess recent cases from the International Tribunal for Yugoslavia as well as examples of atrocities from the archives of the International Committee of the Red Cross.

Just War Theory and Artificial Intelligence Maria Power, Maggi Savin-Baden, 2025-08-11 Two of the most crucial issues facing humanity in the contemporary world are artificial intelligence and armed conflict. This book tackles them both, bringing them into conversation with one another and creating an understanding of their relationship. New developments in technology, especially within weapons systems, have challenged our understandings of just war theory, thus changing the nature of the questions to be asked of and by those engaged in conflict. Covering topics such as drone warfare and the use of wargaming by combatants, this collection seeks to answer those questions with essays from leading experts in the field. It will be a valuable resource for those interested in both the development of artificial intelligence generally and warfare specifically.

Just War and Human Rights Todd Burkhardt, 2017-02-21 Discusses how just war theory needs to be revised to better secure and respect human rights. Warfare in the twenty-first century presents significant challenges to the modern state. Serious questions have arisen about the use of drones, target selection, civilian exposure to harm, intervening for humanitarian reasons, and war as a means of forcing regime change. In *Just War and Human Rights*, Todd Burkhardt argues that updating the laws of war and reforming just war theory is needed. A twenty-year veteran of the US Army, Burkhardt claims that war is impermissible unless it is engaged, fought, and concluded with right intention. A state must not only have a just cause and limit its war-making activity in order to vindicate the just cause but it must also seek to vindicate its just cause in a way that yields a just and lasting peace. A just and lasting peace is motivated by the just war tenant of right intention and predicated on the realization of human rights. Therefore, human rights should not only dictate how a state treats its own people but also how a state treats the people of other countries, insulating them and protecting innocent civilians from the harms of war. Todd Burkhardt, experienced American soldier and educator, has here crafted a clearly written and spirited book. It is timely and practical, analyzing drone strikes and post-conflict dilemmas yet also reflective and theoretical, arguing that the rule of right intention deserves far more prominence in just war theory than it has recently been given. Above all, this is a readable and constructive call to reform the laws of armed conflict in light of human rights values, especially as understood through the lens of John Rawls's theory of

Ethics, Nationalism, and Just War Henrik Syse, Gregory M Reichberg, 2007-09 At a time when moral questions about armed force are at the forefront of the public's attention this volume offers insight on current challenges related to war nationalism and justice Though recent publications on military ethics abound this work adds to the debate by considering the historical background of just war theory in the Middle Ages before going on to elucidating its contemporary challenges The book covers a wide range of topics and raises issues rarely touched on in the ethics of war literature such as environmental concerns and the responsibility of bystanders Following a general introduction by Henrik Syse and Gregory M Reichberg the book is divided into two main sections The first addresses the cradle of the modern idea of just war in medieval Latin Christianity The section discusses the relevance of medieval ideas to the modern setting and explains why the study of the medieval roots of just war thinking is so important even today It includes essays on Ambrose Augustine Thomas Aquinas Christine de Pizan and Geoffrey Chaucer not focusing however solely on the contributions of these writers but also providing an overall introduction to key concerns in medieval just war theorizing The second section of essays examines nationalism intervention preventive war war crimes and the environmental side effects of war All of these topics are treated within the relevant theoretical contexts thus providing a rich overview of the state of the debate While staying within the framework of a post 9/11 context and raising several issues of relevance to the discussion about terrorism this section also highlights several topics that have been overshadowed by the war on terror but which merit attention in their own right One of the most comprehensive works on the subject *Ethics Nationalism and Just War* is an important and accessible text for students and scholars alike Henrik Syse is a senior research fellow at the International Peace Research Institute Oslo PRIO Gregory M Reichberg also senior research fellow at PRIO heads the institute's program on Ethics Norms and Identities They are coeditors of *The Ethics of War Classic and Contemporary Readings* and have both published and taught widely on issues related to political thought and the ethics of armed force In addition to the editors contributors are J Peter Burgess Andreas F Ilesdal Kate L Forhan Phillip Gray Dieter Janssen James Turner Johnson James Meernik Gerson Moreno Riano Anne Julie Semb Dan Smith Arne Johan Vetlesen and John von Heyking
