Cuming's Tour to the Western Country Fortescue Cuming, 2003-01-30 A man travels through the Mid West and deep South following what seems to be a convoluted route

It's Up to You Lee Stewart, 2011-11-01 Lee Stewart argues in this book that the notion of university education as a cultural entitlement inherent in the literal translation of the University of British Columbia's motto *Tuum Est* as 'It is yours' has always been more applicable to male than to female students. Conversely, the popular interpretation of *Tuum Est* 'It's up to you' has held greater significance for women. Stewart examines the demands, accomplishments, and limitations of women advocates and educators against the background of the social and cultural conditions which enveloped them. The book profiles the experience of women at UBC from the founding of the university early in this century until after the Second World War. Stewart argues that campaigns to open the university to start nursing and home economic programs to establish the office of dean of women and to build women's residences each involved the persistent efforts of women reformers and each eventually succeeded. At the same time, pragmatism, politics, and expedience far more than a passion for feminism within the university or in the province accounted for the form that these programs and institutions took. Stewart also describes the experience of female students and the strategies they devised to participate fully in the academic, cultural, and political life of the university. Young women had to juggle the contradictory expectations of the academic and social communities. In describing this process, the author consciously links women's experience to the history of the university itself. Stewart makes an important contribution to our understanding of higher education and to the history of a major Canadian university. She also expands our sensitivity to women's changing role in the twentieth century.

A time of terror Douglas Morey Ford, 2025-04-24 In *A Time of Terror*, Douglas Morey Ford masterfully weaves together narrative and poetry to explore the psychological and societal turmoil of a nation grappling with existential dread. The book employs a fragmented structure and vivid imagery that reflect the chaos of contemporary life, drawing parallels with historical episodes of panic and fear. Ford's use of stream of consciousness techniques invites readers into the minds of complex characters, rendering their experiences both visceral and relatable, all while framing their struggles within the broader context of cultural anxieties.
