Teaching/Writing in Thirdspaces Rhonda C. Grego, Nancy S. Thompson, 2007-12-25 Teaching Writing in Thirdspaces The Studio Approach examines a dynamic approach to teaching composition that reimagines not only the physical space in which writing and learning occurs but also the place occupied by composition in the power structure of universities and colleges In response to financial and programmatic cutbacks at the University of South Carolina in the 1990s authors Rhonda C Grego and Nancy S Thompson used their academic backgrounds in composition and English education along with their personal histories in working class families to look at compositional spaces and places with an eye to challenging the embedded issues of race class and gender within the university hierarchies The result was a supplemental writing program that they called the writing studio The studio model emphasizes individual participation in a small group that allows students to present work they are preparing for outside classes discuss their challenges and refine their ideas with other students and staff facilitators This interactional inquiry is replicated and reinforced by the facilitators who meet in their own small groups to analyze larger patterns possibilities and needs as they arise in their studios Grego and Thompson argue that because the studio is physically and institutionally outside but alongside both students other coursework and the hierarchy of the institution it represents a thirdspace a unique position in which to effect institutional change The focus on interactional inquiry challenges traditional power hierarchies within classrooms and shifts the nature of discourse As a bottom up approach to the development of educational programs within institutions that have different needs demographics and histories the studio model can address a multitude of different institutional needs with little disruption to the curriculum

The studio model allows university administrators teachers student aides and students to continually adapt to changing institutional environments with new teaching and learning strategies Teaching Writing in Thirdspaces provides an alternative approach to traditional basic writing courses that can be adopted in educational institutions of all types and at all levels

The Road to Independent Reading and Writing Cathy Collier,2021-07-30 Transform young learners into independent readers and writers This easy to use classroom resource is packed with routines lessons centers charts resources and teaching tips Break key literacy concepts and skills into manageable teachable pieces Virginia Woolf and the Lives, Works, and Afterlives of the Brontës Hilary Newman,2024-06-15 In her feminist polemic A Room of One's Own Virginia Woolf famously wrote of the comparatively recent literary tradition of female writers we think back through our mothers if we are women Woolf's major literary mothers were those women novelists writing during the Victorian period and earlier Virginia Woolf and the Lives Works and Afterlives of the Brontës examines all of Woolf's writings on the Brontës across a wide range of genres juvenilia novels literary essays feminist polemics diaries and letters This proves particularly fruitful as Woolf herself

was both a creative artist and a literary critic As a woman she was ambivalent towards the Victorian world in which she spent her youth emotionally she remained in thrall to it but intellectually she developed the modernist novel After Woolf ceased to write publicly about the Brontës she continued to engage with them through the Hogarth Press which she had founded in 1917 with her husband Leonard She then chose to publish books on the Brontës whose approaches to them she supported Newman approaches her subject in a Woolfian way that is she avoids dogmatism and aims to open up discussion of the lives works and afterlives of the Brontës as mediated by Woolf rather than closing it down to one particular interpretation

metaphor as it relates to computing which isn't simply a set of techniques or a collection of technologies but also an idea that resonates throughout contemporary culture. He addresses a wide array of subjects including film representations of computing, Desk Set, The Social Network, Neal Stephenson's famous open source manifesto, J. K. Rowling's legal battle with a fan site, the sorting of digital libraries, subscription services like Netflix, and the Apple versus Google debate over openness in computing. Punday shows how contemporary authors are caught between traditional notions of writerly authority and computing's emphasis on doing things with writing. What does it mean to be a writer today? Is writing code for an app equivalent to writing a novel? Should we change how we teach writing? Punday's answers to these questions and others are original and refreshing and push the study of digital media in productive new directions.

The Art Of Writing Drama

Michelene Wandor, 2015-01-30. The Art of Writing Drama is an indispensable textbook for wherever writing for the stage is taught but also serves as a foundational book for any student taking courses in performance media, radio, television, and film. Coupling theory with practice, the book opens with a survey of the current methodologies of teaching playwriting and of textual analysis. The theories of Bakhtin, Foucault, and Derrida are examined, as are the agendas of play reviewers from the national press. In the second section of the book, a wealth of guidance with practical exercises on the skills of writing for the stage is provided. Throughout the text, Wandor draws on her extensive experience as both playwright and teacher of creative writing to provide a guide that is both a scholarly and an immensely practical guide to writing for the theatre.
