Theology Future Evangelical Assertions Explorations:

Theology and the Future Trevor Cairney, David Starling, 2014-07-31 Theology was once queen of the sciences the integrating centre of Christendom's conceptual universe In our own time the very idea of systematic theology is frequently called into question derided as an arcane and superstitious pseudo discipline Even within the church it is commonly disregarded in favour of unreflective piety and pragmatism At the same time the southward shift in world Christianity's centre of gravity prompts crucial questions about the future form and content of theology Within this context Theology and the Future offers a case for the continuing viability of theology exploring how it might adapt to changing circumstances and discussing its implications for how we are to imagine and help shape our shared human future Beginning with the question of God this book explores what might be meant by the future of God and what its implications are for Christian theology Chapters follow on the location of theology in global Christianity the church and the academy and on its sources and method The second half of the book explores a wide variety of dimensions of the human future that theology might address and illuminate The essays bring together a mix of specialist theologians and interdisciplinary thinkers to support the assertion that there can be no more critical endeavor to the future than understanding God and all things in relationship to him

The Work of Theology Stanley Hauerwas, 2015-08-05 A how to book on theology from a world renowned theologian In this book Stanley Hauerwas returns to the basics of doing theology Revisiting some of his earliest philosophical and theological views to better understand and clarify what he has said before Hauerwas explores how theological reflection can be understood as an exercise in practical reason Hauerwas includes chapters on a wide array of topics including How I Think I Learned to Think Theologically How the Holy Spirit Works How to Write a Theological Sentence and How to Be

Theologically Funny In a postscript he responds to Nicholas Healy's recent book *Hauerwas A Very Critical Introduction* What we believe as Christians says Hauerwas is quite basic and even simple But because it is so basic we can lose any sense of the extraordinary nature of Christian beliefs and practices In discussing the work of theology Hauerwas seeks to recover that sense of the oddness of what we believe as Christians

The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, 2018-10-17 The five volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in Britain and Ireland as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and Royal Supremacy but then follows those traditions as they spread beyond Britain and Ireland and also analyses newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier British and Irish dissent but that have often defined a trajectory of influence independent of ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume V follows the spatial cultural and intellectual changes in dissenting identity and practice in the twentieth century as these once European traditions globalized While in Europe dissent was often against the religious state dissent in a globalizing world could redefine itself against colonialism or other secular and religious monopolies The contributors trace the encounters of dissenting Protestant traditions with modernity and globalization changing imperial politics challenges to biblical denominational and pastoral authority local cultures and languages and some of the century's major themes such as race and gender new technologies and organizational change In so doing they identify a vast array of local and globalizing illustrations which will enliven conversations about the role of religion and in particular Christianity

Theologians on Scripture Angus Paddison, 2016-11-03 The movement that is known as theological interpretation of Scripture reminds us that the reading and exegesis of Scripture is an indispensable part of the theologian's work not to be reserved to biblical scholars alone This insight that the reading of Scripture is a theological responsibility is always at risk of being eclipsed by the modern disciplinary divisions between biblical studies historical theology and systematic theology Intended as a contribution to the theological re-engagement with Scripture this book invites a range of high profile systematic and constructive theologians to reflect on the role that the reading and interpretation of Scripture plays in their theological work both professionally and more personally Spanning a cross section of theological perspectives contributors reflect on the role of tradition in their reading of Scripture the company they view as indispensable in their engagement with the text the place of historical critical

Companion to Henri de Lubac Jordan Hillebert, 2017-06-29 The T T Clark Companion to Henri de Lubac introduces the life and writings of one of the most influential theologians of the 20th century A highly controversial figure throughout the 1940s and 50s Henri de Lubac 1896 1991 played a prominent role during the Second Vatican Council and was appointed cardinal by Pope John Paul II in 1983 His work which covers an impressive range of theological philosophical and historical inquiries has left an indelible mark on modern Christian thought This volume including contributions from leading Catholic Protestant and Anglican scholars of de Lubac s work introduces readers to the key features of his theology By placing de Lubac s writings in both their immediate context and in conversation with contemporary theological debates these essays shed light on the theological ingenuity and continuing relevance of this important thinker **Faith, Form, and Fashion** Paul

Helm, 2014-08-14 This is a detailed examination of the theological innovations of Kevin Vanhoozer and John Franke Each proposes that doctrinal and systematic theology should be recast in the light of postmodernity No longer can Christian theology be foundational or have a stable metaphysical and epistemological framework Vanhoozer advocates a theo dramatic reconstruction of Christian doctrine replacing the timeless propositions of the purely cerebral theology of the Reformed tradition in favor of a theology that does justice to the polyphony of multiple biblical genres Franke holds that theology is part of a three way conversation between Scripture tradition and culture with an uncertain outcome This study shows that each of these proposals is based on misunderstanding and exaggeration and that the case against foundationalism is unclear and unpersuasive It is argued that Vanhoozer s appeal to revelation as divine speech acts is not as radical as he thinks and his epistemology is weak In the hands of postmodernity Christian theology abandons its exactness and the standards of care that are a notable feature of doctrinal constrictions The book will be of importance to those with interest in Reformed theology or Christian theology more generally It provides a clear assessment of the impact of the postmodern mindset on theology *Locating US Theological Education In a Global Context* Hendrik R. The Rhetoric of Conversion in English Puritan Writing from Perkins to Milton David

Parry, 2021-12-30 This rhetorical study of the persuasive practice of English Puritan preachers and writers demonstrates how they appeal to both reason and imagination in order to persuade their hearers and readers towards conversion assurance of salvation and godly living Examining works from a diverse range of preacher writers such as William Perkins Richard Sibbes Richard Baxter and John Bunyan this book maps out continuities and contrasts in the theory and practice of persuasion Tracing the emergence of Puritan allegory as an alternative imaginative mode of rhetoric it sheds new light on the paradoxical question of how allegories such as John Bunyan's The Pilgrim's Progress came to be among the most significant contributions of Puritanism to the English literary canon despite the suspicions of allegory and imagination that were endemic in Puritan culture Concluding with reflections on how Milton deploys similar strategies to persuade his readers towards his idiosyncratic brand of godly faith this book makes an original contribution to current scholarly conversations around the textual culture of Puritanism the history of rhetoric and the rhetorical character of theology

What Has

Jerusalem to Do with Beijing? K. K. Yeo, 2018-08-24 The rise of China as a superpower and of Chinese Christians as vital members of the global church mean that world Christianity would be a dynamic transformation and bountiful blessing to the world by engaging with Chinese biblical interpretations among global theologies This book a twentieth anniversary revised and expanded edition includes studies that range from exploration of the philosophical structure of Eastern culture to

present day sociopolitical realities in Malaysia and China all in support of cross cultural methods of reading the Bible culturally and reading the cultures biblically Pedagogy and Education for Life Trevor H. Cairney, 2018-04-30 There are many books on Christian education but few consider pedagogy with a biblical focus on formation and a grounding in varied related disciplines This book seeks to recapture the term pedagogy and place it at the center of the teacher's role not as a pseudonym for other things but as the critical foundation for the orchestration of classroom life This is a view of pedagogy that accepts that children come to classrooms as inhabitants of multiple and varied communities Some are known and shared with teachers but many are not Children cannot be left to find their way in the world for as they encounter competing and contradictory worlds their hopes dreams and intentions are shaped Teachers play a key role in students formation by shaping classroom life for all of life is used by God to reveal himself The things taught the priorities set and activities planned the experiences structured and books shared indeed everything in and outside school acts upon and shapes our students Pedagogy is the vehicle for shaping the life of the school Learning requires more than subject content and good teaching The central task of teachers is the development of a pedagogy that shapes life This book offers challenge and guidance as teachers engage in this noble task *Liberating the Gospel* David Smith, 2020-04-28 *Liberating the Gospel* is prefaced by Tom Wright's claim that Christians have for too long read scripture with nineteenth century eyes and sixteenth century questions and that it is urgently necessary they learn to read with first century eyes and twenty first century questions The central section of the book concentrates on reading the narratives of the Galilean ministry of Jesus within their first century context then exploring Paul's mission in the setting of the urban and imperial world of Rome before offering reflection on the Apocalypse in the changed world following the destruction of Jerusalem Smith then concludes his treatise facing the twenty first century questions seeking to build a hermeneutical bridge to our globalized world As a whole this major book on Christian mission aims to contribute toward an understanding of how the dynamic message of Christ might be liberated to be heard as genuinely good news today in the process potentially transforming Christianity provided there is willingness to face opposition from a world resistant to the exposure of its injustices Into All the World Mark Harding, Alanna Nobbs, 2017 *Into All the World* the third volume from editors Mark Harding and Alanna Nobbs on the content and social setting of the New Testament brings together a team of eminent Australian scholars in ancient history New Testament and the early church to take the story of Christianity into the Jewish and Greco Roman world of the first century In thirteen chapters the contributors discuss all the post Pauline New Testament writings devoting attention to both their content and their context They examine the impact of the growth of the church on both Jews and Gentiles exploring issues such as the diaspora minorities the Book of Acts and the Fourth Gospel The book then proceeds to a discussion of the impact of Christianity on the Roman state including consideration of the book of Revelation and the imperial cult A final chapter investigates how the church was perceived by Clement of Rome at the end of the first century **Theologies of Retrieval** Darren

Sarisky, 2017-11-30 One of the most significant trends in academic theology today which emerges within Protestant Roman Catholic and Orthodox points of view is the growing interest in theologies of retrieval. This mode of thinking puts a special stress upon subjecting classic theological texts to a close reading with a view toward using the resources that they provide to understand and address contemporary theological issues. This volume offers an understanding of what theologies of retrieval are, what their rationale is, and what their strengths and weaknesses are. The contributions provided by a distinguished team of theologians answer the important questions that existing work has raised, expand on suggestions that have not yet been fully developed, summarize ideas to highlight themes that are relevant to the topics of this volume, and air new critiques that will spur further debate.
