TheoMedia The Media Of God And The Digital Age:

TheoMedia Andrew Byers, 2014-08-28 The church can be uncertain of itself in our digital age Some Christians denounce the twenty first century s media culture while others embrace the latest gadgets and apps as soon as they appear Many of us are stumbling along amidst the tweets status updates podcasts and blog posts wondering if we have ventured into a realm beyond the scope of biblical wisdom Though there is such a thing as new media Andrew Byers reminds us that the actual concept of media is ancient theological and even biblical In fact there is such a thing as the media of God TheoMedia are means by which God communicates and reveals himself creation divine speech inspired writings the visual symbol of the cross and more Christians are actually called to media saturation But the media that are to most prominently saturate our lives are the media of God If God creates and uses media then Scripture provides a theological logic by which we can create and use media in the digital age This book is not an unqualified endorsement of the latest media products or a tirade against media technology Instead Byers calls us to rethink our understanding of media in terms of the media of God in the biblical story of redemption The Handbook of Religion and Communication Yoel Cohen, Paul A. Pirner, Johannes Lahmann, Werner Haussmann, Susanne Schwarz, 2019-01-23 In order to draw out the relationship between publicly oriented Christianity and education this book demonstrates that education is an important method and prerequisite of public theology as well as an urgent object of public theology research's attention Featuring work from diverse academic disciplines including religion education theology philosophy and religious studies this edited collection also contends with the educational challenges that come with the decline of religion on the one hand and its transformation and regained public relevance on the other Taken together the contributions to this volume provide a comprehensive argument for why education deserves systematic attention in the context of public theology discourse and vice versa **People of the Screen** John Dyer, 2023 People of the Screen traces the history of Bible software development showing the unique and powerful role evangelical entrepreneurs and coders have played in shaping its functionality and how their choices in turn shape the reading habits of millions of people around the world Examining advancements in Bible software from the first desktop applications to pioneering Bible websites and later to mobile apps and virtual experiences this book argues that evangelical creators have a distinct orientation toward societal change and technology called Hopeful Entrepreneurial Pragmatism that uniquely positions them to lead the digital Bible market imbuing their creations with evangelical ways of understanding the nature and purpose of Scripture This book offers a blend of

historical research interviews with developers and field work among digital and print Bible readers offering a nuanced look at the interconnected ecosystem of publishers developers pastors institutions and software companies Digital Bibles aren't replacing print Bibles author John Dyer shows Rather the future of Bible engagement involves readers using a mix of print audio and screens to suit their needs He shows that sometimes the God of the page seems to say different things than the God of the screen suggesting that we are still in the early stages of a multimedia approach to scripture Incarnation O'Murchu, Diarmuid, 2017-05-18 **Babel Church** Li Ma, 2021-03-16 Assisted by a diverse mass media industry American evangelicalism has been long plagued by consumerism entrepreneurism and social engineering Churches and movements that carry the name of Christ have become projects of ambition and scandals in the public eye Without fixing its dysfunctions these ministry models have expanded to other parts of the world reaping similar fruits of corruption prejudice and abuses The alarm call of MeToo and ChurchToo movements since 2017 made it more urgent for the global body of Christ to inspect its pathological patterns What kind of response does the MeToo movement require of our public theology and leadership ethics Sociologist Li Ma invites us to re-engage with biblical exegesis while being attentive to new mandates of God revealed from MeToo A creative Ellulian integration of sociological analysis and theology Babel Church incisively reveals why American evangelicalism and its global projects have succumbed to the temptations of worldly power at the expense of vulnerable members in the body of Christ Ecclesiology and Theosis in the Gospel of John Andrew J. Byers, 2017-06-16 For the author of the fourth Gospel there is neither a Christless church nor a churchless Christ Though John's Gospel has been widely understood as ambivalent toward the idea of church Andrew Byers argues that ecclesiology is as central a Johannine concern as Christology Rather than focusing on the community behind the text John's Gospel directs attention to the vision of community prescribed within the text which is presented as a narrative ecclesiology by which the concept of church gradually unfolds throughout the Gospel's sequence The theme of oneness functions within this script and draws on the theological language of the Shema a centerpiece of early Jewish theology and social identity To be one with this one God and his one Shepherd involves the believers corporate participation within the divine family Such participation requires an ontological transformation that warrants an ecclesial identity expressed by the bold assertion found in Jesus' citation of Psalm 82 you are gods Beyond the Screen Andrew Zirschky, 2015-12-15 It's no secret that teenagers are perpetually connected via social media and mobile devices but while we've analyzed as a culture how youth are connecting we've done less well at understanding why teenagers are drawn to the glow of the screen Beyond the Screen explores the reality that teenagers use these technologies in desperate bid for an intimacy and depth of relationship largely absent from face to face society and the church Employing the latest ethnographic research on youth and digital media in tandem with theological reflection and interviews with teens themselves author Andrew Zirschky provides a deeper glimpse into the world of teens and social media and gives new direction and directives for ministering to Millennials *Biblical and Theological Visions of Resilience*

Christopher C. H. Cook, Nathan H. White, 2019-12-06 In recent years resilience has become a near ubiquitous cultural phenomenon whose influence extends into many fields of academic enquiry Though research suggests that religion and spirituality are significant factors in engendering resilient adaptation comparatively little biblical and theological reflection has gone into understanding this construct This book seeks to remedy this deficiency through a breadth of reflection upon human resilience from canonical biblical and Christian theological sources Divided into three parts biblical scholars and theologians provide critical accounts of these perspectives integrating biblical and theological insight with current social scientific understandings of resilience Part 1 presents a range of biblical visions of resilience Part 2 considers a variety of theological perspectives on resilience drawing from figures including Thomas Aquinas Martin Luther and Dietrich Bonhoeffer Part 3 explores the clinical and pastoral applications of such expressions of resilience This diverse yet cohesive book sets out a new and challenging perspective of how human resilience might be re envisioned from a Christian perspective As a result it will be of interest to scholars of practical and pastoral theology biblical studies and religion spirituality and health It will also be a valuable resource for chaplains pastors and clinicians with an interest in religion and spirituality **Pressure Points**

Harrison, 2015-11-25 The iGeneration has

learned to adapt rapidly to technological change Tech savvy students multi task with consummate ease accessing email on smart phones researching assignments on tablets reading a book on Kindle while drinking a flat white and listening to iTunes in the background How does the tertiary educational curriculum meet the learning needs of students whose attention transitions rapidly between mediums and messages The complexity and pace of modern technological change has left the theological educational sector gasping as it struggles to devise pedagogically engaging online distance learning materials in traditional disciplines and teach units with significant relational and pastoral components The technological benefits are vast the instant availability of information unprecedented and the opportunities to provide theological education to groups marginalised by the tyranny of distance and time enormous How should the theological sector address these challenges and

opportunities Although the benefits are massive the media is replete with stories of the casualties of technological change including cyber bullying internet predators the psychic damage from trolls addiction to gaming and issues of body image among others How should the theological sector drawing upon its scriptural and teaching heritage come to grips with the deficits spawned by the technological revolution What is the theological pastoral social and pedagogic responsibility of theology teachers in nurturing this new generation Teaching Theology in a Technological Age draws together in an inspiring volume a series of cutting edge essays from Australian New Zealand and South African scholars on the learning and teaching of theology in a digital age
