Routledge International Handbook of Contemporary Racisms John Solomos, 2020-02-25 The study of contemporary forms of racism has expanded greatly over the past four decades Although it has been a focus for scholarship and research for the past three centuries it is perhaps over this more recent period that we have seen important transformations in the analytical frames and methods to explore the changing patterns of contemporary racisms The Routledge International Handbook of Contemporary Racisms brings together thirty four original chapters from international experts that address key features of contemporary racisms The Handbook has a truly global orientation and covers contemporary racisms in both the western and non western geopolitical environments In terms of structure the volume is organized into ten interlinked parts that include Theories and Histories Contemporary Racisms in Global Perspective Racism and the State Racist Movements and Ideologies Anti Racisms Racism and Nationalism Intersections of Race and Gender Racism Culture and Religion Methods of Studying Contemporary Racisms and the End of Racism These parts contain chapters that draw on original theoretical and empirical research to address the evolution and changing forms of contemporary racism The Handbook is framed by a General Introduction and by short introductions to each part that provide an overview of key themes and concerns Written in a clear and direct style and from a conceptual multidisciplinary and international perspective the Handbook will provide students scholars and practitioners with an overview of the most pressing issues of Racisms in our time Rethinking Race

and Identity in Contemporary British Fiction Sara Upstone, 2016-10-04 This book takes a post racial approach to the representation of race in contemporary British fiction re imagining studies of race and British literature away from concerns with specific racial groups towards a more sophisticated analysis of the contribution of a broad post racial British writing Examining the work of writers from a wide range of diverse racial backgrounds the book illustrates how contemporary British fiction rather than merely reflecting social norms is making a radical contribution towards the possible future of a positively multi ethnic and post racial Britain This is developed by a strategic use of the realist form which becomes a utopian device as it provides readers with a reality beyond current circumstances yet one which is rooted within an identifiable world

Speaking to the specific contexts of British cultural politics and directly connecting with contemporary debates surrounding race and identity in Britain the author engages with a wide range of both mainstream and neglected authors including Ian McEwan Zadie Smith Julian Barnes John Lanchester Alan Hollinghurst Martin Amis Jon McGregor Andrea Levy Bernardine Evaristo Hanif Kureishi Kazuo Ishiguro Hari Kunzru Nadeem Aslam Meera Syal Jackie Kay Maggie Gee and Neil Gaiman This cutting edge volume explores how contemporary fiction is at the centre of re thinking how we engage with the question of race in twenty first century Britain

Race, Ethnicity and Social Theory John Solomos, 2022-07-01 Race Ethnicity and Social Theory provides a critical analysis of the main areas of scholarly research and debate about racial and ethnic relations over the past few decades The book covers substantive areas of scholarly debate in this fast changing field including race and social relations identities and the construction of the racial other feminism and race the relationship between race and nationalism antisemitism the evolution of new forms of racism race and political representation and more generally the changing debates about race and ethnicity in our global environment The book argues that there is a need for more dialogue across national and conceptual boundaries about how to develop the theoretical tools needed to understand both the historical roots of contemporary forms of racialised social and political relations and the contemporary forms through which race is made and re made A key argument that runs through the book is the need to develop conceptual frameworks that can help us to make sense of the changing forms of racial and ethnic relations in contemporary societies This means developing more dialogue across national research cultures as well as empirical research that seeks to engage with the key issues raised by contemporary theoretical debates The book will be of interest to both students wanting to develop a deeper understanding of this area of scholarship and to researchers of race ethnicity and migration working in various national and disciplinary environments

Racism, Policy and Politics Karim Murji, 2017-12-06 This book analyses and bridges the gap between critical social research on race and politics by reviewing the academic field of race theorising and scholarship covering changes in race and racism debates in recent decades and assessing the extent scope and limits of academic engagements with and impact on policy and politics

Social Inequalities Anya Ahmed, Deidre Duffy, Lorna

Chesterton,2023-02-16 Part of the New Approaches to Sociology series Social Inequalities is a relevant and valuable exploration of how we see the world through a decolonised lens Aimed at undergraduate and postgraduate students of sociology this textbook offers a critical re reading of traditional approaches to understanding social inequalities and responds to the call from university administrations academics and students to decolonise the curriculum and challenge its lack of diversity It presents an intersectional approach to understanding diversity and social inequalities and in so doing allows for alternative knowledge sources and voices to be heard From looking at social groups such as race age sexuality and class alongside a nuanced evaluation of traditional sociological theories such as Marxism functionalism and feminism this book is an expert guide to the debates central to understanding the challenges individuals face in society Including personal stories and case studies students will be exposed to an authentic and real world view of how individuals have encountered discrimination Social Inequalities is an essential resource for anyone working and studying across sociology and anyone interested in challenging established ways of looking at the world Professor Anya Ahmed Dr Deirdre Duffy and Dr Lorna Chesterton work in the faculty of health and education at Manchester Metropolitan University UK Feminist Approaches to Law Dragica Vujadinović, Antonio Álvarez del Cuvillo, Susanne Strand,2022-11-15 This book raises awareness about gender perspective in political and legal theories and historical analysis The impacts of feminist political and legal theories as well as critical legal studies have been embedded in all the papers in different ways and degrees Differences among feminist political and legal ideas are visible in the different approaches The ongoing issue of defining gender for example is a recurring theme in the texts Some papers question the binary basis of the gender issue and the notion of gender as such while others start from the binary dichotomy and attempt to expand the consideration towards a multi dimensional understanding of gender identities The main focus is on a feminist reconsideration of all relevant fields of legal knowledge The primary aim is to demystify the seemingly neutral character of legal norms and legal knowledge and highlight the power relations at different layers beginning with male and female legal subjects of Western heredity in terms of culture ethnicity and race then moving on to different needs and power relations among female persons of different races and classes and finally addressing differentiating gender relations and identities beyond the framework of the women men binary codification i e also taking into consideration the multiple options of intersex transgender queering etc Taking seriously the issue of the maleness of political and legal theories is indeed a challenging and relevant endeavor for legal scholars The male bias is present not only throughout history but also in the present given that our universal categories of political and legal thought are still overburdened by unequal power relations It is also important to open our minds and knowledge production for a gender sensitive and gender competent intersectional approach which would also include various queer race and class based considerations These tasks should be of interest not only to critical legal scholars but also all those belonging to mainstream legal and political thought The SAGE Encyclopedia of Psychology and Gender Kevin L.
