An Ethology of Religion and Art Bryan Rennie, 2020-02-13 Drawing from sources including the ethology of art and the cognitive science of religion this book proposes an improved understanding of both art and religion as behaviors developed in the process of human evolution Looking at both art and religion as closely related but not identical behaviors a more coherent definition of religion can be formed that avoids pitfalls such as the Eurocentric characterization of religion as belief or the dismissal of the category as nothing more than false belief or the product of scholarly invention The book integrates highly relevant insights from the ethology and anthropology of art particularly the identification of the special by Ellen Dissanayake and art as agency by Alfred Gell with insights from among others Ann Taves who similarly identified specialness as characteristic of religion It integrates these insights into a useful and accurate understanding and explanation of the relationship of art and religion and of religion as a human behavior This in turn is used to suggest how art can contribute to the development and maintenance of religions The innovative combination of art science and religion in this book makes it a vital resource for scholars of Religion and the Arts Aesthetics Religious Studies Religion and Science and Religious Anthropology **Handbook to Lectures on the Theory, Art, and History of Education** Simon Somerville Laurie, 1883

Theorizing Adaptation Kamilla Elliott, 2020-05-20 From intertextuality to postmodern cultural studies narratology to affect theory poststructuralism to metamodernism and postcolonialism to ecocriticism humanities adaptation studies has engaged with a host of contemporary theories Yet theorizing adaptation has been declared behind the theoretical times

compared to other fields and charged with theoretical incorrectness by scholars from all theoretical camps In this thorough and groundbreaking study author Kamilla Elliott works to explain and redress the problem of theorizing adaptation She offers the first cross disciplinary history of theorizing adaptation in the humanities extending back to the sixteenth century revealing that until the late eighteenth century adaptation was valued for its contributions to cultural progress before its eventual and ongoing marginalization by humanities theories The second half of the book offers ways to redress the troubled relationship between theorization and adaptation Ultimately Theorizing Adaptation proffers shared ground upon which adaptation scholars can debate productively across disciplinary cultural and theoretical borders

On the Theory and Practice of Art-enamelling Upon Metals Sir Henry Hardinge Cunynghame, 1906

The Oxford History of Western Art Martin Kemp, 2000 The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK's most distinguished art

historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an inspirational introduction for the general reader and an authoritative source of reference and guidance for students

Art History and Fetishism Abroad Gabriele Genge, Angela Stercken, 2014-12-15 By focusing on the various modes and

media of the fetishised object this anthology shifts the debates on thingness into a new global art historical perspective The contributors explore the attention given to those material images in both artistic and cultural practice from the heyday of colonial expansion until today They show that in becoming vehicles and agents of transculturality so called fetishes take shape in the 17th to 19th century aesthetics psychology and ethnography and furthermore inspire a recent discourse on magical practice and its secular meanings requiring altered art historical approaches and methods **Religion and**

Various,2021-12-02 Mini set B Curriculum Theory re issues 15 volumes originally published between 1973 and 1993 and covers curriculum theory changes in curricula and the politics and sociology of the school curriculum Doctor Who and the Art of Adaptation Marcus K. Harmes,2014-05-01 Although it started as a British television show with a small but devoted fan base Doctor Who has grown in popularity and now appeals to audiences around the world In the fifty year history of the program Doctor Who s producers and scriptwriters have drawn on a dizzying array of literary sources and inspirations Elements from Homer classic literature gothic horror swashbucklers Jacobean revenge tragedies Orwellian dystopias Westerns and the novels of Agatha Christie and Evelyn Waugh have all been woven into the fabric of the series One famous storyline from the mid 1970s was rooted in the Victoriana of authors like H Rider Haggard and Arthur Conan Doyle and another was a virtual remake of Anthony Hope s The Prisoner of Zenda with robots In Doctor Who and the Art of Adaptation Fifty Years of Storytelling Marcus Harmes looks at the show s frequent exploration of other sources to create memorable episodes Harmes observes that adaptation in Doctor Who is not just a matter of transferring literary works to the screen but of bringing a diversity of texts into dialogue with the established mythology of the series as well as with longstanding science fiction tropes In this process original stories are not just resituated but transformed into new works Harmes considers what this approach reveals about adaptation television production the art of storytelling and the long term success and cultural resonance enjoyed by Doctor Who Doctor Who and the Art of Adaptation will be of interest to students of literature and television alike and to scholars interested in adaptation studies It will also appeal to fans of the series interested in tracing the deep cultural roots of television s longest running and most literate science fiction adventure Deep History, Secular Theory Luther Martin,2014-05-21 Over the course of his career Luther H Martin has primarily produced articles rather than monographs This approach to publication has given him the opportunity to experiment with different methodological approaches to an academic study of religion with updates to and different interpretations of his field of historical specialization namely Hellenistic religions the subject of his only monograph 1987 The contents of this collected volume represent Martin s shift from comparative studies to socio political studies to scientific studies of religion and especially to the cognitive science of religion He currently considers the latter to be the most viable approach for a scientific study of religion within the academic context of a modern research university The twenty five contributions collected in this volume are selected from over one hundred essays articles and book chapters published over a long and industrious career and are

Herrick, 2017-09-22 By tracing the traditional progression of rhetoric from the Greek Sophists to contemporary theorists The History and Theory of Rhetoric illustrates how persuasive public discourse performs essential social functions and shapes our daily worlds Students gain a conceptual framework for evaluating and practicing persuasive writing and speaking in a wide

range of settings and in both written and visual media This new 6th edition includes greater attention to non Western studies as well as contemporary developments such as the rhetoric of science feminist rhetoric the rhetoric of display and comparative rhetoric Known for its clear writing style and contemporary examples throughout The History and Theory of Rhetoric emphasizes the relevance of rhetoric to today's students [The Reception of Northrop Frye](#) ,2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s after which point he became obsolete his work buried in obscurity This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question Who now reads Frye In The Reception of Northrop Frye Robert D Denham catalogues what has been written about Frye books articles translations dissertations and theses and reviews in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate Denham also explores what we can discover once we have a fairly complete record of Frye's reception in front of us such as Hayden White's theory of emplotments applied to historical writing and Byron Almén's theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton's rhetorical question is a very large and growing number the growth being not incremental but exponential
