Developmental Disabilities Michael Lewis, Lawrence T. Taft, 2012-12-06 The chapters in this volume are drawn from the presentations delivered at a symposium on Developmental Disabilities in the Preschool Child. This symposium was held under the auspices of The Institute for Pediatric Service of Johnson and Johnson Baby Products. It was co-sponsored by The College of Medicine and Dentistry of New Jersey, Rutgers Medical School, and The Institute for the Study of Exceptional Children Educational Testing Service. The symposium was held in the Fall of 1979 in Chicago, Illinois, and the participants, including Ph.D.s, Ed.D.s, and M.D.s, represented the interdisciplinary approach which characterized the meetings. The interdisciplinary set of speakers was matched by an equally diverse audience who represented almost every professional group concerned with the needs of disabled children and their families. Because of the successful information exchange that took place, a published volume of the proceedings was determined to be useful for others who were not able to attend. To all those who toil to help developmentally disabled children and their families, we dedicate this volume. Michael Lewis, Lawrence T. Taft vii
