There Not Even Andreas Urstadt:

There. Not Even. Andreas Urstadt, 2015-12-14 Cartoonbook New York, 1980 **Chronicle of the Horse**, 1982-10
The Utne Reader, 1999-11 *The Insiders' Chronicle*, 1988 Cadence Bob Rusch, 1990 The Making of the
Stockhausen Play Andreas Urstadt, 2014-08-25 These are notes written in the process on a way to a play on the work of
Karlheinz Stockhausen The way had been not without conflict I told it I told already that I am on the play so there had been
no way back Fixed to with no alternate I just went back over a sonical history A history of popular music I denied mostly any
experience of new music A distance broke up Countless names went unmentioned countless serious composers thousands of
hours of commitment to minor sounds sounds which brought no audience in just the usual minority the ones who know each
other by name or by face the ones who always meet on the usual sonical events The notes provide not even a glimpse of the
other kind of music Mentioned are some known ones like Stockhausen himself Nono Varese At one point I had to sell all
books of Stockhausen I had including the ones with his signature in I needed a distance I even felt a kind of aggression I
thought or I felt I never liked him It needed a big big distance A detour The detour became these notes A Stockhausen Play
must have the level of Stockhausen himself But isn't Stockhausen everyone Stockhausen wrote me he didn't change He
claimed that he is still the one he had been when he was 20 He even wanted to become a writer He didn't become a writer
but he became a writer he just didn't use common letters for After a big distance I matched him The play will follow later I
saw it already Imagined it and didn't forget it for years From a big distance free of Stockhausen for getting more
Stockhausen for meeting Stockhausen on true ground The notes had been written quick The play itself is more on
Stockhausen than on the work but it's more on the work than on Stockhausen and it's on both of them where they meet and
where they enjoy each other's company The notes are a detour These notes are unplugged which means the play may match
Stockhausen the notes won't always meet the usual English tongue Who stresses and sees language as a national foundation
with no chance for slang or a strange tongue shouldn't take the issue The book started as a scrap book it still has something
