El ejercicio de la psicología aplicada José Olivares

Rodríguez,Diego Macià Antón,Pablo J. Olivares Olivares,Ana Isabel Rosa Alcázar,2012-06-12 La premisa mayor de la psicología aplicada es el uso de las teorías y principios psicológicos para resolver problemas de relevancia social e individual Cada campo de actuación da lugar a un perfil diferenciado en el ejercicio de la profesión El conjunto de tales perfiles integra áreas de actividad tan antiguas como la del psicólogo clínico la del psicólogo de la educación y la del psicólogo del trabajo y las organizaciones junto a otras más nuevas como las del psicólogo del tráfico y la seguridad vial el psicólogo jurista el psicólogo del deporte el psicólogo del envejecimiento otras de reciente desarrollo como la del psicólogo de la intervención en catástrofes y situaciones de emergencia u otras de vieja raigambre pero de reciente reconocimiento oficial como la del psicólogo general sanitario En la actualidad el desarrollo del ejercicio de la psicología está adquiriendo tal relevancia que ya es posible hallar especializaciones dentro de las grandes áreas de trabajo que le son propias así como de otras en las que el comportamiento humano desempeña un papel crucial Tal es el caso de los psicólogos que trabajan en el contexto de equipos multiprofesionales en el ámbito de la reproducción humana o en el de la neurología lo que ha dado lugar a la psicología de la reproducción y la neuropsicología clínica En otros casos la intensidad del quehacer psicológico reclama el reconocimiento de nuevos perfiles como es el caso del psicólogo de familia una cuestión cotidiana para los psicólogos que trabajan en el ámbito infantil

Domando al dragón Juan Sevilá Gascó, Carmen Pastor Gimeno, 2016-02-04 Desde un punto de vista clínico el enfado es la emoción olvidada A pesar del hecho de que el enfado es una experiencia humana común y universal no ha sido bien entendido por la psicología Nuestro conocimiento científico sobre la evaluación el diagnóstico y el tratamiento del enfado están muy por debajo del de otros trastornos emocionales como la ansiedad o la depresión Debido a estos débiles fundamentos científicos en la investigación sobre el enfado hay una proliferación de mitos y concepciones erróneas sobre la mejor manera de ayudar a la gente que sufre de enfado excesivo Como clínicos y expertos internacionales en terapia cognitivoconductual Juan Sevilá y Carmen Pastor han creado un manual práctico y comprensible para guiar a los profesionales a ser eficaces en el tratamiento de adultos y adolescentes que sufren y expresan enfado patológico

Number (ISBN),1995 Bibliografía española ,2004 *Delibros* ,1996 **Tratando... pánico y agorafobia** Arturo Bados López,2022-06-02 Pánico y agorafobia son dos de los trastornos de los que con más frecuencia se ocupa la práctica clínica. Existe una intervención claramente eficaz para estos problemas denominada terapia cognitivo conductual con la que mejoran más del 70 por 100 de los pacientes tratados y además las mejoras conseguidas se mantienen a medio y largo plazo. Sin embargo en su aplicación pueden surgir numerosas dificultades que de no solventarse pueden reducir o anular la eficacia de dicha terapia. Esta obra se ocupa de esas dificultades y comienza presentando un caso ilustrativo del trastorno de pánico con agorafobia y un repaso de los aspectos básicos del problema: tipología, naturaleza, frecuencia, curso, problemas asociados, como de su explicación, evaluación y tratamiento. A continuación se describen muchas de las dificultades que pueden surgir en la evaluación y tratamiento del pánico y la agorafobia y se ofrecen unas guías orientativas muy útiles para resolverlas. Las dificultades están agrupadas en apartados y cada uno se corresponde con un capítulo: evaluación inicial, modelo explicativo, objetivos terapéuticos y tratamiento propuesto, respiración controlada, reestructuración cognitiva, exposición a las situaciones y sensaciones temidas y otras dificultades que pueden surgir durante el tratamiento. Finalmente se ofrecen pautas a seguir cuando los resultados no han sido satisfactorios. Tratamiento psicológico del pánico-agorafobia Carmen Pastor,2003

Nuevo tratamiento psicológico del pánico y la agorafobia , Trastorno de pánico y agorafobia Luis Eduardo Peña Saavedra,2024-09-19 El trastorno de pánico puede llegar a ser un problema muy severo especialmente cuando este está acompañado de agorafobia. Lamentablemente y a pesar de que en las últimas tres décadas se han producido impresionantes avances en el tratamiento psicológico de este trastorno y cuya eficacia ha sido documentada en múltiples estudios alrededor del mundo, la mayoría de individuos que lo padecen no reciben tratamiento ya sea por su costo o por la falta de profesionales entrenados en su implementación. Es de primordial importancia diseminar el tratamiento psicológico con las evidencias científicas que actualmente existe para el trastorno de pánico a fin de que quienes sufren esta condición psiquiátrica puedan aprenderlo a controlar. El libro presenta el tratamiento para el control del pánico desarrollado por los profesores David Barlow, quien prologa el presente libro, y Michelle Craske. Barlow también el libro sirve como guía para aquellos profesionales de la salud mental que quieran capacitarse en su implementación. Aunque este manual ha sido escrito con suficiente detalle para que el lector implemente el tratamiento por su cuenta, en la medida de lo posible es recomendable buscar un terapeuta experto en este protocolo de tratamiento y que con su supervisión y orientación le ayude a implementar los conceptos delineados en este libro. **Tratamiento psicológico del trastorno de pánico y la agorafobia** Pedro Moreno,2007
