Vietnam Infantry Tactics Elite:

Vietnam Infantry Tactics Gordon L. Rottman, 2013-05-20 This book reveals the evolving US Viet Cong and NVA tactics at battalion level and below throughout the Vietnam War Beginning with a description of the terrain climate and the unique nature of operations in this theatre of war the author a Vietnam veteran himself goes on to explain how unit organisation was broken down by combatant forces and the impact this had on the kind of tactics they employed In particular the author highlights how units were organised in reality on the battlefield as opposed to their theoretical tables of organisation US tactics included the standard US tactical doctrine as prescribed by several field manuals and in which leaders and troops were rigorously trained But it also reveals how many American units developed innovative small unit tactics specifically tailored to the terrain and enemy practices In contrast this book also reveals the tactics employed by Viet Cong and NVA units including their own Offensive Operations Reconnaissance Movement Formations and Security and Ambushes

Vietnam Marines 1965-73 Charles D. Melson, 2012-05-20 The period following World War 2 saw a number of associated Marine Corps three of whom fought together during the war in Vietnam from 1965 to 1973 These Corps were similar formations but each had its own history and traditions they were the United States Marines the Vietnamese Marines and the Korean Marines Common to them was a reputation for toughness on themselves and any foreign or domestic enemies strong unit pride and loyalty and a privileged place within the political structure of their respective countries This richly illustrated account by US Marine historian Charles Melson describes the history weapons equipment uniforms and insignia of the US Vietnamese and Korean Marines who fought in Vietnam *US Air Cavalry Trooper vs North Vietnamese Soldier* Chris McNab, 2020-09-17 The tactics and technologies of modern air assault vertical deployment of troops by helicopter or similar means emerged properly during the 1950s in Korea and Algeria Yet it was during the Vietnam War that helicopter air assault truly came of age and by 1965 the United States had established fully airmobile battalions brigades and divisions including the 1st Cavalry Division Airmobile This division brought to Vietnam a revolutionary new speed and dexterity in battlefield tactics using massed helicopters to liberate its soldiers from traditional overland methods of combat manoeuvre However the communist troops adjusted their own thinking to handle airmobile assaults Specializing in ambush harassment infiltration attacks and small scale attrition the North Vietnamese operated with light logistics and a deep familiarity with the terrain They optimized their defensive tactics to make landing zones as hostile as possible for assaulting US troops and from 1966 worked to draw them into Hill Traps extensive kill zones specially prepared for defence in depth By the time the 1st Cavalry Division Airmobile withdrew from Vietnam in 1972 it had suffered more casualties than any other US Army division Featuring specially commissioned artwork archive photographs and full colour battle maps this study charts the evolution of US airmobile tactics pitted against North Vietnamese countermeasures The two sides are analysed in detail including training logistics weaponry and organization Tunnel Rat in Vietnam Gordon L. Rottman, 2012-02-20 In 1965 soon after the first US

combat troops had arrived in Vietnam it was realized that in some areas the Viet Cong had developed vast tunnel complexes in which to hide from the enemy. It was long known that such complexes existed but it was not realized just how extensive they were in some areas how important they were to the Viet Cong and how difficult it was to detect and neutralize them. At first infantrymen volunteered to enter the tunnels armed with only pistols and flashlights the tunnel runners were born known to the Australians as tunnel ferrets. Starting as an ad hoc force of infantrymen combat engineers and chemical troops it was not long before units were formalized as tunnel exploration personnel and 4-6 man tunnel exploitation and denial teams were created. They came to be known simply as tunnel rats with the unofficial motto *Non Gratum Anus Rodentum* Not Worth a Rat's Ass. This title will be based on the personal accounts of those who served in this unique role and will describe the specialist training and equipment not to mention the tactics and combat experiences of those who fought an underground war against the Viet Cong in Vietnam.

M50 Ontos and M56 Scorpion 1956-70 Kenneth W Estes, 2016-11-17 Designed in the 1950s the US Marines M50 Ontos and the US Army's M56 Scorpion were both intended to be fast light air droppable tank killers for the Cold War battlefield an answer to the cumbersome and ineffective World War II vintage tanks that had taken to the battlefield during the Korean War. Although they shared the aim of bringing light mobile and lethal antitank firepower to the infantry the two vehicles varied wildly in design to cater for their unique mission demands. They first saw service in the Lebanon intervention of 1958 but it was in the Vietnam War that they made their name with the M50 Ontos seeing intense combat action in the Battle of Hue in 1968. Detailed illustrations and expert analysis provide the reader with a comprehensive history of these deadly antitank vehicles from early development through to their combat history and the eventual disbandment of the Marine Corps last antitank battalion with M50A1s in 1971.

Victory 1945 Gordon L. Rottman, 2015-11-20 Even when Western Allied troops gained a foothold in Normandy World War II in Europe was far from over. The route to Germany's interior and the Nazis final surrender was long arduous and blood stained. The Wehrmacht's

stubborn resistance and the shocking losses suffered by US British Canadian and Free European troops meant that the Allies had to adapt and refine small unit tactics battle drills and their use of weapons and munitions The troops who finally met up with the Red Army in Germany were a very different fighting force to the one that struggled up the beaches of northern France This book offers a comprehensive guide to the late war Allied troops exploring their uniforms equipment organization and tactics Detailed description and accurate colour pictures illustrate the means by which the Allied troops on the ground evolved to the point of winning the war on the Western Front *Napoleonic Heavy Cavalry & Dragoon Tactics* Philip Haythornthwaite,2013-07-20 During the Napoleonic Wars the supreme battlefield shock weapon was the heavy cavalry the French cuirassiers and their British Austrian Prussian and Russian counterparts Big men mounted on big horses the heavy cavalry were armed with swords nearly a metre long used for slashing or thrusting at their opponents many wore steel armour a practice revived by Napoleon They were tasked with smashing a hole in the enemy s line of battle with exploiting a weakness or with turning a flank Their classic manoeuvre was the charge arrayed in close order lines or columns the heavy cavalry would begin their attack at the walk building up to a gallop for the final 50 metres before impact Illustrated with diagrams relevant paintings and prints and specially prepared colour plates this is the first volume of a two part study of the cavalry tactics of the armies of Napoleon and those of his allies and opponents Written by a leading authority on the period it draws upon drill manuals and later writings to offer a vivid assessment of how heavy cavalry actually fought on the Napoleonic battlefield *World War II Winter and Mountain Warfare Tactics* Stephen Bull,2013-04-20 From the siege of Leningrad to the Battle of the Bulge many of the most famous and brutal battles of World War II were fought in winter conditions This book describes and illustrates the tactics used by the men who fought one another in this uniquely demanding environment The twentieth century saw an unprecedented emphasis on fighting in all terrains seasons and weather conditions Such conditions made even basic survival difficult as subzero temperatures caused weapons to jam engines to seize up and soldiers to suffer frostbite snow blindness and hypothermia The conditions often favoured small groups of mobile lightly armed soldiers rather than the armoured forces or air power that dominated other combat environments Some European armies developed small numbers of specialist alpine troops before and during World War I but these proved to be insufficient as nearly all the major combatants of World War II found themselves fighting for extended periods in extremely hostile cold weather and or alpine environments Drawing upon manuals memoirs and unit histories and illustrated with period tactical diagrams and specially commissioned full colour artwork this study sheds new light on the winter warfare tactics and techniques of the US British German Soviet and Finnish armies of World War II *Encyclopedia of Military Science* G. Kurt Piehler,2013-07-24 The Encyclopedia of Military Science provides a comprehensive ready reference on the organization traditions training purpose and functions of today s military Entries in this four volume work include coverage of the duties responsibilities and authority of military personnel and an understanding of strategies and

tactics of the modern military and how they interface with political social legal economic and technological factors A large component is devoted to issues of leadership group dynamics motivation problem solving and decision making in the military context Finally this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations the First Persian Gulf War the events surrounding 9 11 and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events

World War II Jungle Warfare Tactics Stephen Bull,2013-08-20 This book describes and illustrates in fascinating detail the slow and painful learning curve followed by the Allies in the mid war years as they attempted to end the Japanese stranglehold on Southeast Asia and the Pacific Based on the actual wartime training documents and front line memoirs it shows how the British Australian and US armies transformed their tactics attitudes and equipment to master the art of jungle warfare In 1944 45 the Allies finally conquered the jungle environment exploiting their new strengths and their enemy s weaknesses to win crushing victories in Burma and on the Pacific islands
