The Book of Fallacies Jeremy Bentham, 2015 The present edition of The Book of Fallacies is the first that follows Bentham's own structure for the work and includes a great deal of material both in terms of the fallacies themselves and the illustrative matter that previous versions of the work have omitted The fallacies that concerned Bentham were not logical errors of the sort identified by Aristotle or commonplace misunderstandings of matters

of fact but arguments deployed in political debate in particular in the British Parliament in order to prevent reform Bentham not only identified described and criticized the fallacious arguments in question which were all characterized by their irrelevancy but explained the sinister interests that led politicians to employ them and their supporters to accept them By exposing these political fallacies Bentham hoped to prevent their employment in future and thereby to place political debate on its only proper ground namely considerations drawn from the principle of utility

Fiddled out of Reason John William Knapp, 2019-04-11 *Fiddled out of Reason* is a study of several poems spanning the life and career of Joseph Addison who along with John Dryden Alexander Pope Ambrose Philips Isaac Watts and many British poets of the turn of the eighteenth century helped to cultivate a broad new current of nonliturgical hymnic verse that became immensely popular across that century though it has eluded critical notice until now The texts the book examines Addison's *St Cecilia's Day odes* 1692 1699 his libretto for the opera *Rosamond* 1707 and a sequence of five hymnic works in *The Spectator* 1712 precede by twenty five years John Wesley's publication of the first hymnal for use in the Church of England The book argues that secular hymnic works such as Addison's emerged alongside religious political controversies and anxieties about British national identity morality and expressions of enthusiastic passions Church and Tory interests largely rejected hymnic verse claiming it would only fiddle unwitting readers out of their reason and reignite the dangerous fervor of Revolution era Nonconformity and Dissent As is evident from his poetry Addison a moderate Whig ardently opposed this view arguing that the hymnic could in fact be a portal to national and individual amelioration After an introductory chapter exploring period conceptions of hymnic poetry and the highly contested term hymn itself the argument proceeds through three sections to trace the hymnic's upward trajectory through Addison's early mid period and mature verse The book devotes the lion's share of its attention to the last of these three which includes the five poem *Spectator* sequence a poem from the sequence *The Spacious Firmament on High* will be familiar to many readers Indeed in addition to offering new readings of hymnic works by Dryden and Pope *Fiddled out of Reason* provides the first extended critical treatment of these five important poems Publication of the book coincides with the 300th anniversary of Addison's death and with the appearance of a new Oxford edition of Addison's nonperiodical writings

Historicizing the Enlightenment, Volume 2 Michael McKeon, 2023-07-14 Enlightenment critics from Dryden through Johnson and Wordsworth conceived the modern view that art and especially literature entails a double reflection a reflection of the world and a reflection on the process by which that reflection is accomplished Instead neoclassicism and Augustanism have been falsely construed as involving a one dimensional imitation of classical texts and an unselfconscious representation of the world In fact these Enlightenment movements adopted an oblique perspective that registers the distance between past tradition and its present reenactment between representation and presence Two modern movements Romanticism and modernism have appropriated as their own these innovations which derive from Enlightenment thought Both of these movements ground their error in a misreading of imitation as understood by Aristotle and his Enlightenment proponents Rightly understood neoclassical imitation constitutively aware of the difference between what it knows and how it knows it is an experimental inquiry that generates a range of prefixes counter mock anti neo that mark formal degrees of its epistemological detachment Romantic ideology has denied the role of the imagination in Enlightenment imitation imposing on the eighteenth century a dichotomous periodization duplication versus imagination the mirror versus the lamp Structuralist ideology has dichotomized narration and description form and content structure and history Poststructuralist ideology has propounded for the novel a contradictory novel tradition realism modernism postmodernism postcolonialism whose stages both constitute a sequence and collapse it each stage claiming the innovation of the stage that precedes it Published by Bucknell University Press Distributed worldwide by Rutgers University Press

The Literary Criticism of Samuel Johnson Philip Smallwood, 2023-09-21 For Samuel Johnson poetical judgments were no mere exercise in dry evaluation rather they reflected deep emotional responsiveness In this provocative study Philip Smallwood argues for experiencing Johnson s critical texts as artworks in their own right The criticism he suggests often springs from emotional sources of great personal intensity and

depth inspiring translation of criticism into poetry and channelling prose's poetic potential Through consideration of other critics Smallwood highlights singularities in Johnson's judgments and approach showing how such judgments are irreducible to philosophical doctrines Ideas otherwise the material of criticism's propensity to systems and theories exist for Johnson as feelings that slumber in the heart Revealing Johnson's humour and intellectual reach Smallwood frames his criticism in unresolved ironies of time and forms of historical change This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details
