Cabeen,1957 *The Great Texas Stamp Collection* Charles W. Deaton,2012-09-15 Among the many difficulties the newly formed Confederate States of America endured in the summer of 1861 was the failure of its post office department to provide sufficient numbers of that item most crucial to its service the postage stamp Faced with the resulting din of customer complaints a handful of industrious Texas postmasters solved the problem by simply making their own homemade stamps In this thoroughly researched history of these rare and highly coveted stamps The Great Texas Stamp Collection traces their journey from creation through their rediscovery years later by local and then international stamp collectors a journey that culminated in the sale of a few pieces at a recent auction in New York that fetched more than 250 000 Weaving the larger contexts of Texas and U S postal history together with individual tales of greed intrigue forgery and discovery Deaton s book is rich with characters from European royalty to early stamp dealers to common criminals while also providing detailed examinations of the stamps themselves including a complete census of the stamps now known as the Texas Confederate Postmasters Provisionals Appealing at once to devoted philatelists Texas and U S history buffs and amateur

The One-Cent Magenta James Barron, 2017-03-07 An inside look at the obsessive secretive and often bizarre world of high profile stamp collecting told through the journey of the world's most sought after stamp When it was issued in 1856 it cost a penny In 2014 this tiny square of faded red paper sold at Sotheby's for nearly 9.5 million the largest amount ever paid for a postage stamp at auction Through the stories of the eccentric characters who have bought owned and sold the one cent magenta in the years in between James Barron delivers a fascinating tale of global history and immense wealth and of the human desire to collect One cent magentas were provisional stamps printed quickly in what was then British Guiana when a shipment of official stamps from London did not arrive They were intended for periodicals and most were thrown out with the newspapers But one stamp survived The singular one cent magenta has had only nine owners since a twelve year old boy discovered it in 1873 as he sorted through papers in his uncle's house He soon sold it for what would be 17 today That's been called the worst stamp deal in history Among later owners was a fabulously wealthy Frenchman who hid the stamp from almost everyone even King George V of England couldn't get a peek a businessman who traveled with the stamp in a briefcase he handcuffed to his wrist and John E. du Pont an heir to the chemical fortune who died while serving a thirty year sentence for the murder of Olympic wrestler Dave Schultz Recommended for fans of Nicholas A. Basbanes Susan Orlean and Simon Winchester The One Cent Magenta explores the intersection of obsessive pursuits and great affluence and asks why we want most what is most rare
