The Worst Weather On Earth A History Of Mount Washington Observatory:

The Worst Weather on Earth William Lowell Putnam,1991-06-01 There may be worse weather from time to time at some forbidding place on Planet Earth but it has yet to be reliably recorded So begins *The Worst Weather on Earth A History of the Mount Washington Observatory* Mount Washington at 6 288 feet above sea level is one of the highest elevations in the eastern United States and is subject to some of the fiercest weather patterns in the world Situated close to major centers of population it has been an accessible objective for travellers The curious the intrepid the scientific Mount Washington has attracted them all In this age of satellites and advanced instrumentation the intricacies of weather observation are now taken for granted However not so long ago weather was a blank on the scientific map of understanding *The Worst Weather on Earth* chronicles the social and scientific milieu of those who have recorded the weather on the mountain for over one hundred years Included are chapters such as *Radio on the Rockpile* which covers the pioneering days of radio broadcasting from the Summit and *Rime and Reason* which presents a fascinating discussion of rime and the problems of icing that were researched extensively on the Summit *The Worst Weather on Earth* is rendered more immediate by the liberal use of contemporary accounts excerpts from letters reports and the log notes of the Summit observers abound giving the flavor and the excitement of over a century of scientific observation and discovery **Mountain Meteorology** C. David

Whiteman,2000-06-01 *Mountain Meteorology Fundamentals and Applications* offers first an introduction to the basic principles and concepts of mountain meteorology then goes on to discuss their application in natural resources management It includes over two hundred beautiful full color photographs figures and diagrams as well as observable indicators of atmospheric processes such as winds temperature and clouds to facilitate the recognition of weather systems and events for a variety of readers It is ideal for those who spend time in or near mountains and whose daily activities are affected by weather As a comprehensive work filled with diverse examples and colorful illustrations it is essential for professionals scholars and students of meteorology *The Weather Observer's Handbook* Stephen Burt,2024-04-30 This handbook

provides a comprehensive practical and independent guide to all aspects of making weather observations The second edition has been fully updated throughout with new material new instruments and technologies and the latest reference and research materials Traditional and modern weather instruments are covered including how best to choose and to site a weather station how to get the best out of your equipment how to store and analyse your records and how to share your observations The book s emphasis is on modern electronic instruments and automatic weather stations It provides advice on replacing traditional mercury based thermometers and barometers with modern digital sensors following implementation of the UN Minamata Convention outlawing mercury in the environment *The Weather Observer s Handbook* will again prove to be an invaluable resource for both amateur observers choosing their first weather instruments and professional observers looking for a comprehensive and up to date guide **Judging Extreme Weather** Randy Cerveny,2024-02-29 Written by the

World Meteorological Organization WMO Rapporteur of Weather and Climate Extremes this book addresses the reality of extreme weather how it occurs how we measure it and what it means for our future Weather affects everybody and with the increasing impact of climate change and the prevalence of storms droughts and floods it is clear that we are affecting all aspects of weather Consequently people love to talk about weather complain about it argue about it and be intrigued by it Twenty four seven coverage of the weather however has helped foster a tendency for marked overstatement the creation of misconceptions exaggerations and frankly even outright lies Leading expert in weather and climate Randy Cerveny draws on his extensive experience with the WMO and personal research to give the reader a behind the scenes look at how weather and climate extremes are recorded and defined He unpacks the science behind these extremes through a number of specific WMO investigations that span a diverse range of countries and weather events including lightning rain hurricanes and tornadoes Cerveny balances these factual accounts with playful interludes that detail bizarre and intriguing weather related stories and anecdotes This compelling book is a must read for all those interested in the science behind extreme weather Knowledge Exchange Quick Takes featuring Professor Randall Cerveny to discuss Weather Extremes youtube com *The Guiding Spirit* William Lowell Putnam, Andrew J. Kauffman, 1986-01-01 The first professional mountain guides to be employed in North America were all Italians Guiseppe Petigax and Lorenzo Croux of Courmeyer Antonio Maguinaz and Andrea Pellissier of Valtournanche and Erminio Botta of Beilla all in the retinue of Luigi Amadeo of Savoia Duke of the Abruzzi whose successful expedition to Mount Saint Elias in 1896 became an Alaskan and mountaineering legend The next summer Professor H B Dixon followed his example and engaged Peter Sarbach to accompany him on several weeks of climbing in the Canadian Alps It was the obvious success of this particular act which prompted the Vaux brothers distinguished amateur scientists of Philadelphia to suggest again in 1898 that the Canadian Pacific Railway should engage some Swiss guides to be available for their patrons in the mountain regions the company was seeking to exploit This is the story of those men who prided themselves not merely on being guides but on being Swiss guides These men carved out a unique niche in the royalties they both earned and gave Their words often indicated conflict hardship and unhappiness but their actions were those of persons engaged in a rewarding vocation who had found an emotional satisfaction in life that few of us are privileged to enjoy Here then is the story of the CPR's Swiss guides as written by Andrew J Kauffman and William L Putnam Over many years of mountaineering adventures in Canada they interviewed Edward Feuz Jr Uncle Ed and researched the archives for the facts and stories of which this book is composed This is a story of mountain adventure in a newly awakening country western Canada a story which will be hard to put down once begun Torquemada Revisited William Lowell Putnam, 2006-06-13 This book traces the origin of the forces and personalities that brought about the Spanish Inquisition and its impact on the larger world It dwells extensively on the causes and principal figures of the Protestant Reformation and explains how those attitudes came to influence the evolution of modern American politics and bigotry A careful reading of this narrative explains

how political and religious leaders often being somewhat interchangeable have been able to devise enemies that can be used to convince sufficient of the populace to elect or retain in high office those who portray themselves as opposed to such enemies ignoring in so doing the sage advice of Benjamin Franklin that those who would sacrifice essential liberties for a little temporary security deserve neither liberty nor security **The Education of an Alpinist** William Lowell

Putnam, 1997-01-01 My objective in setting forth this series of mostly autobiographical vignettes was not to inspire a rash of juvenile delinquency but to have something on paper before the age of involuntary repetition set in I don't feel I owe much to Sir Walter Scott for cribbing the subtitle he surely cannot have been the first grandfather to assemble stories for the benefit of a few young people of his acquaintance Nevertheless it's a good one and I'm grateful Having been blessed with better than average opportunities throughout most of my years I have made friends and enjoyed experiences particularly in mountaineering that are the stuff of romance But being myself and not George Henty or Jack London I have compiled the bulk of what seems to be the most educational of them in an order that makes sense to me geographical not chronological Had I thought further ahead at the outset of these adventures in alpinism I might have kept a fuller diary and certainly made better use of a camera But in the beginning I was often too busy with life to think about this kind of future need and a few of the reminiscences that follow are drawn largely from memory However the great majority of them can be verified by contemporary records in various mountaineering journals of North America and by several friends who helped make some of these memories as pleasant as they are I offer them no thanks on this page for their names and kindnesses are documented in the text following and though not every reference carries reverence or gratitude in its words they certainly exist in my heart *Green Cognac* William Lowell Putnam, 1991-01-01 An Impetuous College Undergraduate A Nation at War A New

Unit Seeking Experienced Mountaineers Men of Good Physique Who Have Lived and Worked in the Mountains Three letters of recommendation later in early 1943 William Lowell Putnam joined what was to become the 10th Mountain Division the first and only mountain warfare unit of the U.S. Army *Green Cognac* The Education of a Mountain Fighter is a superb account of the mountain and ski troops as seen from Putnam's often wry perspective What transpired during the brief eventful years of war is the story of *Green Cognac* as told by one who was well acquainted with the mountains and mountaineering before he became a mountain fighter Putnam applied this knowledge while serving in the infantry regiments of the 10th Mountain Division The elite Mountain Troops were sent to break the German Gothic Line in the Apennine Mountains of Italy Brilliantly led they fought their way northward with magnificent dash seizing control of ten mountain crests Their determined drive broke the German resistance and brought on the first large scale enemy surrender of World War II Much celebrated and studied after the war for their striking success and spirit in the field the Mountain Troops presented an awe inspiring picture of camaraderie and courage From the bold ski trooper concept first suggested in 1940 to the final days of demobilization at the end of 1945 this is their story **Joe Dodge** William Lowell Putnam, 1986-01-01 Fred

Stott says in his preface to this book that if you ever hiked or skied a White Mountain trail between 1922 and 1959 you may well have met Joe Dodge. Certainly you know his name. If you have been on a trail since 1959 the chances are good you have heard of him very possibly a tale about him. Without question the best known inhabitant of the White Mountains in this century was Joseph Brooks Dodge, Huts Manager of the Appalachian Mountain Club, Pinkham Notch, New Hampshire. He became a legend during his lifetime. The legend has grown in the years since his death. Here is the first book to tell about that legend thanks to Bill Putnam's long and intimate friendship with Joe Dodge and his numerous anecdotes which make this remarkable man come to life. Joe himself tells much of the story in his colorful and often blunt speech. Joe Dodge managed the far flung AMC Hut System running from Lonesome Lake to Evans Notch, each hut providing food, shelter and sleeping quarters for hikers. In addition he founded the Mount Washington Observatory because he was interested in weather and realized the importance of establishing a permanent year round outpost on the highest peak in northeast North America. He was also a public servant of the community where he lived. Joe Dodge was a builder too of huts located miles from the nearest habitations or highways. Just as important he was a builder of public awareness that these huts and all outdoors belonged to and must be open to the public. He was also an educator who shared with all his wisdom, his knowledge and his zest for learning. Everyone who loves mountains and relishes a skillfully written portrait of an unique personality who understood both the outdoors and the people who enjoy it will want to read and own this book.

A Walk in the Woods Bill

Bryson, 2012-05-15 God only knows what possessed Bill Bryson, a reluctant adventurer, if ever there was one to undertake a gruelling hike along the world's longest continuous footpath. The Appalachian Trail, the 2 000 plus mile trail winds through 14 states stretching along the east coast of the United States from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America as well as through some of its most poverty stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd and his laugh out loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five month journey. An instant classic, riotously funny. A Walk in the Woods will add a whole new audience to the legions of Bill Bryson fans.

A Century of American Alpinism

William Lowell Putnam, Charles Ernest Fay, Allen Herbert Bent, Howard Palmer, James Monroe Thorington, Andrew John Kauffman, 2002-01-01 Charles Ernest Fay 1846-1931 the Mr. American Mountaineering of his day was chairman of the meeting that led to the foundation of the Appalachian Mountain Club in 1876. Thereafter he served several terms as that club's president and was the editor of its Journal APPALACHIA for 40 years. In 1902 he was elected as the first president of The American Alpine Club and reelected for a second three year term. In 1917 he was elected president once more thus becoming not only the Club's first president but also its longest serving. During all this period he was Professor of Modern Languages at Tufts College in Medford, Massachusetts where he shared offices with the junior editor, albeit with a hiatus of 18 years between their respective occupancies. Allen Herbert Bent 1867-1926 a native of Boston, Massachusetts started his life of

scholarly research into alpinism by dropping out of college anything but a promising beginning Soon however he began the serious study of the history of mountaineering ultimately writing extensively on this topic He became the first person elected to The American Alpine Club during its days of exclusivity under the or the equivalent clause of membership prerequisites for he was never a serious alpinist always contenting himself with the study of its literature Howard Palmer 1883 1944 a lawyer by training inherited the management of his family's mattress manufacturing business in New London Connecticut Starting in 1907 he compiled an enviable record of first ascents in the mountains of western Canada and in 1914 published the North American classic MOUNTAINEERING AND EXPLORATION IN THE SELKIRKS He served as editor of the Club's first guidebook and several editions of its JOURNAL He also furthered the organization as its secretary a director and as its president James Monroe Thorington 1894 1989 of Philadelphia was an ophthalmologist by profession following in the footsteps of his father After the end of World War I Roy as he was known to his intimates spent most of his vacation time in the mountains of western Canada and served as editor of the Club's guidebooks to that region for several editions A diligent student of alpine literature he compiled a number of scholarly researches into the history of American alpinism served many years as a director of the Club one term as its president then for 10 years as editor of the AMERICAN ALPINE JOURNAL and gave the Club some of the most valuable items in its museum In 2000 the UIAA gave its first award for research into the history of alpinism under the name of James Monroe Thorington After graduating from Harvard in 1942 Andrew John Kauffman b 1921 the son of two distinguished American literary figures spent his entire working career in various diplomatic capacities Between State Department assignments in Washington Paris Managua and Calcutta he spent weekends and holidays in the Alps and the mountains of Peru Colombia Alaska Canada and finally in the Karakoram where he demonstrated a high level of acromania by becoming one of the only two Americans to make the first ascent of an 8000 meter peak He also served the Club as a counselor and as vice president and was elected to Honorary Membership William Lowell Putnam b 1924 has been an official of the Harvard Mountaineering Club the Appalachian Mountain Club then The American Alpine Club and finally the International Association of Alpine Societies UIAA and has been honored by several other mountaineering societies His major employment was in television broadcasting but his heart remains in the mountains of western Canada At this writing he is the sole trustee of Lowell Observatory in Flagstaff Arizona While many have wished for the opportunity people have not yet read his obituary The Kaiser's Merchant Ships in World War I William Lowell Putnam, 2001-07-01 Germany's merchant marine fleet the second largest in the world prior to 1914 played an unintended but decisive role in that nation's defeat in World War I There were those ships that went to war for the Kaiser on the high seas those that stayed at home or otherwise played no significant part and those that were commandeered mostly in 1917 and by the United States and used against Germany This is a well illustrated history both practical and romantic of the association each ship may have had with famous people and events of the war and of the fates of the ships that comprised that fleet

beaten path and explore the captivating history of one of the Granite State's most remarkable places. For two centuries Mount Washington has been the object of countless writers' wonder and fascination. In this volume more than twenty previously written pieces inspired by New England's highest peak have been carefully selected and collectively these cover nearly every aspect of the mountain's storied past. Tag along on early explorations of the White Mountains and its fabled Presidential Range. Follow the history of the nation's first mountain climbing train and witness many of Mount Washington's tales of human tragedies. Editor and area historian Mike Dickerman uncovers the fascinating history of one of the New Hampshire's most renowned natural wonders. 1995 American Alpine Journal American Alpine Club, H. Both of these passes were prominently and frequently used by the Romans in establishing and maintaining their empire. It is surmised that Hannibal and his troops found elephant-friendly passages through the Mont Cenis corridor. Both passes were adorned with hospices/shelters near their crest and both now have been bypassed by modern tunnels. Despite these similarities their historic prominence derives from distinctly different events and factors.
