competing for the American public's attention. In this media ecosystem the cinema appeared alongside the works of authors including Charlotte Perkins Gilman, Jack London, and Frank Norris. Drawing on contemporaneous theories of time and modernity as well as recent scholarship on film narrative and naturalism, this book moves beyond traditional adaptation studies approaches to argue that both naturalism and the early cinema intervened in the era's varying experiments with temporality and time management. Specifically, it shows that American naturalist novels are constructed around a sustained formal and thematic interrogation of the relationship between human freedom and temporal inexorability, and that the early cinema developed its norms in the context of naturalist experiments with time. The book identifies the silent cinema and naturalist novel's shared privileging of narrative progress over character development as a symbolic solution to social and aesthetic concerns ranging from systems of representation to historiography, labor reform, miscegenation, and birth control. This volume thus establishes the dynamic exchange between silent film and naturalism, arguing that in the products of this exchange, personality figures as excess bogging down otherwise efficient narratives of progress. Considering naturalist authors and a diverse range of early film genres, this is the first book-length study of the reciprocal media exchanges that took place when the cinema was new. It will be a valuable resource to those with interests in Adaptation Studies, American Literature, Film History, Literary Naturalism, Modernism, and Narrative Theory.

Named one of the BEST BOOKS OF 2022 by NPR, The New Yorker, Time, and Vogue. Remarkable. Andrew Solomon, The New York Times Book Review. At once a rigorous work of scholarship and a radical act of empathy, Esquire. A ray of light into those isolated cocoons of darkness that at one time or another may afflict us all. The Wall Street Journal Essential. The Boston Globe. A landmark exploration of one of the most consequential and mysterious issues of our time: the rise of chronic illness and autoimmune diseases. A silent epidemic of chronic illnesses afflicts tens of millions of Americans; these are diseases that are poorly understood, frequently marginalized, and can go undiagnosed and unrecognized altogether. Renowned writer Meghan O'Rourke delivers a revelatory investigation into this elusive category of invisible illness that encompasses autoimmune diseases, post-treatment Lyme disease syndrome, and now long COVID. Synthesizing the personal and the universal to help all of us through this new frontier, drawing on her own medical experiences as well as a decade of interviews with doctors, patients, researchers, and public health experts, O'Rourke traces the history of Western definitions of illness and reveals how inherited ideas of cause, diagnosis, and treatment have led us to

ignore a host of hard to understand medical conditions ones that resist easy description or simple cures And as America faces this health crisis of extraordinary proportions the populations most likely to be neglected by our institutions include women the working class and people of color Blending lyricism and erudition candor and empathy O'Rourke brings together her deep and disparate talents and roles as critic journalist poet teacher and patient synthesizing the personal and universal into one monumental project arguing for a seismic shift in our approach to disease The Invisible Kingdom offers hope for the sick solace and insight for their loved ones and a radical new understanding of our bodies and our health **"Architects,**
