Them And Us Cult Thinking And The Terrorist Threat:

Them and Us Arthur Deikman, 2003 It is a question we've asked repeatedly after September 11 Waco Jonestown the Khmer Rouge Hitler and Stalin and each time the horror seems unprecedented and inconceivable Yet the same kind of thinking led to each of these events a way of thinking we all share in some measure When we belittle others shy away from dissenting views rely on an inspiring leader or simply go along with the group we set ourselves on the path to cult thinking Once we draw a clear line between Them and Us whoever they are we begin to lose our way

The Ideological War on Terror Anne Aldis, Graeme Herd, 2006-11-22 This edited book addresses the appropriateness of US and other counter terrorist CT strategies in Europe and Eurasia the Middle East the Asia Pacific region and in Latin America with a view to improving their effectiveness The book has three main objectives to re-examine terrorists strategic goals and sources of legitimacy and the nature of their ideological support to analyze current US and regional CT strategies and assess their success in delegitimizing terrorists and undermining their support to provide a strategic synthesis and policy recommendations in light of the research findings This book will be of interest to students of political violence and terrorism security studies and international relations in general

Depth Psychology, Cult Survivors, and the Role of the Daimon Linda R. Quennec, 2024-06-10 This book explores the possibilities that exist for navigating out of and away from multiple levels of oppression through memoir based research It considers how those raised in oppressive high demand communities colloquially referred to as cults can emancipate themselves from controls and expectations inculcated from early childhood and examines processes surrounding the psychological reclamation of self Exploring and metaphorically tending to an orienting psychological dynamic that the ancient Greeks related to as the daimon and using the perspectives of Jungian and post Jungian depth psychology the author investigates how subjects can reclaim agency and avoid excessive control over their thoughts attention and life's intentions They suggest that depth psychologically oriented modes can be used to this attunement and explore this notion through a study of memoirs of individuals who were raised in cults Suggesting a more aligned approach to working with varying levels of psychological constraint and utilizing a phenomenological hermeneutic study it will appeal to scholars and professionals in depth psychology and other psychological orientations as well as individuals who are interested in more deeply understanding the psychological mechanisms involved in leaving a high demand group or other oppressive situations

Islamist Terrorism and Militancy in Indonesia Kumar Ramakrishna, 2014-10-19 Drawing upon insights from the natural and social sciences this book puts forth a provocative new argument that the violent Islamist threat in Indonesia today derives its stubborn resilience from being in essence a complex adaptive and self organizing system or what some specialists might even call a super organism The book challenges the popular assumption that ideology is the root cause that explains why Indonesian Islamists radicalize into violent extremism In addition it addresses why despite years of intense security force pressure seemingly disparate militant cells keep popping up like the proverbial hydra and in the apparent absence of a centralized coordinating body nevertheless appear to display an organic interconnectivity with one another Going beyond standard ideological mantras the book argues that fresh inter disciplinary thinking is needed to cope with the constantly mutating violent Islamist challenge in Indonesia and puts forth a comprehensive strategy for doing so It will be of interest to academics and students of terrorism religion and violence in the Southeast Asian region

The Routledge Handbook on Radicalisation and Countering Radicalisation Joel Busher, Leena Malkki, Sarah Marsden, 2023-11-28 This handbook provides a theoretical and methodological exploration of the research on radicalisation and counter radicalisation one of the most influential concepts in Security Studies International Relations and Peace and Conflict Studies Sitting at the heart of high profile research and policy agendas on preventing and countering violent extremism P CVE radicalisation as a concept has transformed the way researchers policymakers and societies think about how to counter terrorism and political violence Deliberations about radicalisation and countering radicalisation have become further embedded as efforts to prevent and counter violent extremism have been mainstreamed into other areas of public policy and practice such as education gender relations health peacebuilding aid and development Theoretically and methodologically pluralistic this handbook addresses radicalisation and countering radicalisation as they relate to a wide range of groups and milieus articulating diverse ideological positions drawing together insight and experience from multiple geographic and institutional settings integrating global perspectives and including scholarship focused on a range of policy fields This book will be an essential reference point for anybody

working on radicalisation countering radicalisation or terrorism and political violence more broadly The insight that it provides will be relevant for both academics and members of relevant policy and practitioner communities **Gurdjieff and Hypnosis** Mohammad Tamdgidi,2009-11-23 This book explores the life and ideas of the enigmatic twentieth century philosopher mystic and teacher of esoteric dances George Ivanovitch Gurdjieff performing a hermeneutic textual analysis of all his writings to illuminate the place of hypnosis in his teaching Foreword by J Walter Driscoll *Are Cults a Serious Threat?* Katherine Swarts,2006-11 Essays discuss the incidence of violence and mass suicide among cult members and society s negative view of small religious groups *Extremist Islam* Kumar Ramakrishna,2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafabism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafabist extremist mindset from relatively open minded Salafabist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia

Prisons We Choose to Live Inside Doris Lessing,1992-08-01 In her 1985 CBC Massey Lectures Doris Lessing addresses the question of personal freedom and individual responsibility in a world increasingly prone to political rhetoric mass emotions and inherited structures of unquestioned belief The Nobel Prize winning author of more than thirty books Doris Lessing is one of our most challenging and important writers **On Consensus** Jean Pierre Chabot,2022-02-15 On Consensus A Framework for Adaptive Action is a tool in the toolbox of anyone looking to improve decision making processes in general and to build consensus in particular The book provides not only a step by step approach to building consensus but it also provides a framework for thinking about how to think about consensus All institutions are built and sustained through some sort of consensus The degree to which the consensus that underwrites institutions is conscious determines the future viability of collective choices and actions Democracy is in need of better tools and thinking on consensus The book provides a

leverage for those involved in high stakes decision making especially where there is a convergence of governance development and stewardship It explores what is required to arrive at a conscious consensus and to build a path towards more adaptive action Decision framing a profound meeting of minds Muzzling a Movement Dara Lovitz,2025-11-11 Corporate greed and politics drive lawmakers to suppress the constitutional rights of animal rights activists Dara Lovitz offers in depth analysis of the pertinent legislative history as well as legal cases against these activists The United States government and its legislators have spent an inordinate amount of energy time and money enacting laws whose sole purpose is to disenfranchise silence and weaken the animal rights movement Muzzling a Movement offers an in depth analysis of the pertinent legislative history as well as various legal cases against these activists including the heavily publicized SHAC 7 case This updated version offers a fresh look at ag gag legislation which are laws specifically designed to prevent the public from witnessing the horrors that take place behind the opaque walls of animal agriculture Lovitz also highlights wisdom from activists of multiple generations as they reflect on their activism and the activism of their different aged compatriots What have newer activists learned from the underground movement of the 1990s What do the older activists think the younger activists are getting right And what are they getting wrong This comprehensive examination of the past present and future of animal rights activism seeks to bring us all closer to a cruelty free world **New Religious Movements and Counselling** Sarah Harvey,Silke Steidinger,James A. Beckford,2017-12-14 There are many different ways in which minority religions and counselling may interact In some cases there can be antagonism between counselling services and minority religions with each suspecting they are ideologically threatened by the other but it can be argued that the most common relationship is one of ignorance mental health professionals do not pay much attention to religion and often do not ask or consider their client s religious affiliation To date the understanding of this relationship has focused on the anti cult movement and the perceived need for members of minority religions to undergo some form of exit counselling In line with the series this volume takes a non judgemental approach and instead highlights the variety of issues religious groups and counselling approaches that are relevant at the interface between minority religion and counselling The volume is divided into four parts Part I offers perspectives on counselling from different professions Part II offers chapters from the field leaders directly involved in counselling former members of minority religions Part III offers unique personal accounts by members and former members of a number of different new religions while Part IV offers chapters on some of the most pertinent current issues in the counselling minority religions fields written by new and established academics In every section the volume seeks to explore different permutations of the counsellor client relationship when religious identities are taken into account This includes not only secular therapists counselling former members of religion but the complexities of the former member turned counsellor as well as counselling practised both within religious movements and by religious movements that offer counselling services to the outside world **Radical Pathways** Kumar K. Ramakrishna,2009-03-20 This book explores two of the most crucial

areas of the war on terror 1 why some Muslims turn to violent jihad and 2 that process in the world's most populous Muslim nation Indonesia The recent history of terrorism in Indonesia has brought this country into the world spotlight the Bali night club bombing by Islamists in 2002 was one of the worst terrorist attacks in history The recent violence following the executions of three of the Bali bombers together with a number of thwarted bomb plots demonstrate the continuing danger posed by radicalized violent Islamists in the country Written by one of Southeast Asia's leading counter terrorism experts Radical Pathways offers innovative new perspectives on the sources of violent Muslim radicalization and what should be done to counter it

Losing the Way Kristen Skedgell, 2008 A riveting and finely crafted true story Losing the Way recounts how the daughter of East Coast intellectuals was recruited into a well known rightwing Bible cult The Way International where she was manipulated betrayed and abused before being rescued by the worldly mother she rejected Skedgell shows how easily an idealistic young person can be swept away by a spiritual quest and the quiet malevolence lurking beneath the religious exterior of a false leader

The Patchwork Cloak of Kamal Bey John Zada, 2025-09-15 A captivating travel memoir set in the Middle East about cross cultural dissonance and a quixotic quest to find home While travelling to his grandfather's ancestral town in rural eastern Turkey journalist John Zada is mistakenly hauled off an overnight bus at a military roadblock and pulled into a dragnet searching for outlawed rebels During that abrupt encounter Zada experiences a series of vivid flashbacks from his life and travels in the Middle East which led him to that dangerous moment The Patchwork Cloak of Kamal Bey An East West Memoir is a collection of interlocking travel stories tied to a decades long quest through the Arab World to find a more enduring sense of home Born to westernized Arab parents and driven by his discontent with North American life Zada throws himself headlong into the Middle East to find what he believes to be the missing part of himself That journey first as student and then as a roving journalist takes him from the cosmopolitan boulevards of Cairo Beirut and Dubai to the far flung mountains of Kurdistan and the Sahara Desert Mirroring the author's wanderings is his lifelong mentor Kamal Bey a spinner of yarns with a secret government job who like Zada also uncomfortably straddles civilizations A kaleidoscopic memoir that is also a travelogue and work of reportage evoking the writing of Ryszard Kapuściński The Patchwork Cloak of Kamal Bey is at its heart a reverse diaspora story Its pastiche of surreal and remarkable tales serves as an oblique warning about the danger of identity obsessions

Saving Energy, Growing Jobs David B. Goldstein (Ph.D.), 2007 The idea that we must choose between a healthy environment and a healthy economy is a myth says David Goldstein Not only do well conceived environmental regulations create more jobs in the long run they contribute to more efficient designs and less expensive products Standing between us and a cleaner more prosperous society is the resistance of economic incumbents and a misplaced ideological opposition to any kind of regulation even though it might prove beneficial
