**The Two-fold Thought of Deleuze and Guattari** Charles J. Stivale, 1998-06-05 French philosophers Gilles Deleuze and Felix Guattari worked together extensively from the 1960s into the 1990s and the resulting intersections of their different sensibilities and modes of knowing fueled powerful alternatives to Marxian and psychoanalytic orthodoxies Yet readers approaching Deleuze and Guattari's works are often frustrated by the paucity or unfamiliarity of specific examples that might clarify their complex arguments This timely volume animates key concepts and terminology by applying them to provocative readings of literary texts films and cultural phenomena from *Apocalypse Now* to Cajun music and dance Drawing extensively from primary and critical sources to elucidate Deleuze and Guattari's theoretical contributions Stivale reinvigorates their two fold thought for use as an analytical tool in the humanities and social sciences The book also offers a clear introduction to the precollaborative phase of each thinker's work an interview Stivale conducted with Guattari and the first time English translation of a 1967 essay by Deleuze Winner Board of Governors Faculty Recognition Award Wayne State University

**Interdisciplinarity and Social Justice** Joe Parker, Ranu Samantrai, Mary Romero, 2012-02-01 In the 1960s and 1970s activists who focused on the academy as a key site for fostering social change began by querying the assumptions of the traditional disciplines and transforming their curricula putting into place women's and ethnic studies programs that changed both the subject and methods of scholarship The pattern of scholars and activists joining forces to open fields of research and

teaching continued in subsequent decades and recent additions including critical race studies queer studies cultural studies and postcolonial studies take as their epistemological foundation the inherently political nature of all knowledge production Interdisciplinarity and Social Justice seizes this opportune moment in the history of interdisciplinary fields to review their effects on our intellectual and political landscape to evaluate their ability to deliver promised social benefits and to consider their futures The essays collected in this volume detail histories of the interdisciplinary fields that emerged from social movements examine how effectively they have achieved their goals of intellectual and social change and consider the challenges they now face inside and outside the academy

**Handbook of Cultural Politics and Education**, 2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The Handbook of Cultural Politics and Education is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education's place within society The contributions in the collection support this endeavor

Kincheloe, 2007 Our educational system is in turmoil Many would argue that it has been assaulted and oversimplified by the right There is growing concern that we are becoming a liberal nation state with an increasingly anti liberal population and an electorate that is disinterested in politics In this globalized world the power of capital is so great that opposition to it is often discouraged and disheartened leaving many citizens few political precepts by which to consider their institutions This contemporary failure of vision has opened the way for the unimpeded return of the philosophy of the free market As a result social and educational policies are debated almost solely in terms of how they fit with the needs of the market Social and ethical understandings are replaced by a failed economic theory that requires a radical constraint of our political and economic choices Compassion for the poor the market lets us know is wrong headed because any interference with the labor market will always result in unfortunate economic and social consequences Moral issues are eclipsed by market needs In *Critical Pedagogy Where Are We Now* the contributors discuss how the field of critical pedagogy should respond to such dire conditions in a way that is theoretically savvy and visionary while concurrently contributing to the struggle to improve the lives of those most hurt by them *Critical Pedagogy* is essential reading for every classroom teacher and pre service teacher It is also a valuable tool for use in undergraduate and graduate level classrooms **Discipline and Practice** Stefan Herbrechter, Ivan Callus, 2004 Has theory become resistible Has it betrayed its promise and sold out on its practice Should theory after having become a discipline still lay claims on the radical or should it embrace its establishment within the university What future s could theory have if there is disagreement about its present s and its past s and what and how should it from now proceed to read **The Dramatic Arts and Cultural Studies** Kathleen S. Berry, 2002-09-11 This book presents a wide range of contemporary theories borrowed from Cultural Studies augmented with practical implications that support dramatic artists in their struggle to create possible multiple realities for a postmodern future Teachers directors writers students and many others involved in the dramatic arts will benefit from the discussions of Cultural Studies and the connections to the Dramatic Arts The first chapters mix theory and practice while the last chapter provides questioning strategies and conventions that can be used in actual sessions to deconstruct scripted or improvised dramatic texts This is a useful introductory text for artists directors teachers students and others involved in the Dramatic Arts who would like to energize their work through contemporary theories and practices of Cultural Studies Seduction, Sophistry, and the Woman with the Rhetorical Figure Michelle Ballif, 2001 Ballif questions why the profession wants to retain these beliefs in the face of vociferous arguments from new rhetorics that the discipline no longer posits a foundational self or truth and in the

face of the poststructuralist critique which has demonstrated that founding truth is always accomplished by first positing and then negating an other As an alternative to this negative and violent rhetorical process Ballif suggests a turn to sophistry as embodied in the figure of Woman one with the power to seduce us literally to lead astray from our truth and our demand for it

**BOOK JACKET      Postcolonial, Queer** John C. Hawley, Dennis Altman, 2001-08-30 Uses postcolonial theory to critique the globalization of gay culture      Unfreezing Music Education Paul Louth, 2023-04-21 Unfreezing Music Education argues that discussing the conflicting meanings of music should occupy a more central role in formal music education and music teacher preparation programs than is currently the case Drawing on the critical theory of the Frankfurt School the author seeks to take a dialectical approach to musical meaning rooted in critical formalism that avoids the pitfalls of both traditional aesthetic arguments and radical subjectivity This book makes the case for helping students understand that the meaning of musical forms is socially constructed through a process of reification and argues that encouraging greater awareness of the processes through which music's fluid meanings become hidden will help students to think more critically about music Connecting this philosophical argument with concrete practical challenges faced by students and educators this study will be of interest to researchers across music education and philosophy as well as post secondary music educators and all others interested in aesthetic philosophy critical theory cultural studies or the sociology of music and music education      Studies in Commonwealth Literature Mohit Kumar Ray, 2003 Commonwealth Literature Today Stands For Literature S In English Written In The Commonwealth Countries Outside The Anglo American Tradition What Is Common Between The Diverse Members Of The Commonwealth In Spite Of Their Different Calendars Of Independence And Ethnological Cultural Political As Also Topographical Set Ups Is That All These Countries Shared The Common Colonial Experience So From India To Nigeria Canada To Kenya Australia To Pakistan We Can Discern The Varying Patterns Of A Common Human Experience And Emergence Of Cultural Nationalism Leading To An Emphasis On Their Distinctiveness In Literary Heritage And Assertion Of Cultural Identity Commonwealth Literature Thus Presents A Rich Variety Of Aesthetic And Cultural Experience The Essays Collected In This Volume Spanning Different Countries And Periods Try To Offer A Taste Of This Interesting Variety The Range Covered Here Stretches From West African Drama To South African Fiction Australian And Caribbean Literature To That Of Indian Diaspora And South Asian Poetry Of The Saarc Countries Discussions On Indian Literature Cover The Varied Areas From Devotional Mysticism To Realistic Social Satire Myth Oriented Novel To Feminism Dialogism And Reassessment Of Postcolonial Theories The Authors Focused In This Discussion Promises A Colourful Spectrum They Include Wole Soyinka Ahmed Essop Salman Rushdie David Malouf Wilson Harris Patrick White Rohinton Mistry G V Desani Aurobindo Manohar Magonkar R K Narayan Gurcharan Das Arundhati Roy Jhumpa Lahiri Kamala Das K V Venkataramani Margaret Craven Along With A Host Of Saarc Poets The Volume Will Be Useful For The Students And Scholars Of Commonwealth Literature And Will Also Prove Interesting To The Common Reader      *Roads to Dominion* Sara Diamond, 1995-09-08 Diamond looks at
