

Chapter 3: Method and Theory in Cultural Anthropology

Ethnography: Anthropology's Characteristic Strategy

- 1. Ethnographers tend to study small, relatively isolated societies with complex languages and customs
 - a. Consider cultural patterns and how social interactions shape large, medium, individual actions
- 2. Ethnography provides a foundation for generalizations about human behavior and social life

Ethnographic Fieldwork

Observation and Participant Observation

- 1. Having a informant that is new to the field allows the ethnographer to observe the social action or his arrival, when social norms and processes may have been somewhat relaxed or almost unestablished and more clear
- 2. Ethnographers record their experiences of everyday life, which is how events that occur from field notes
 - a. Observations include descriptions, scenes, people, action, how they occur, their results, what they eat and how they go about other
- 3. Ethnographers come to understand aspects with their hosts, as they will be able to participate in events and processes that are otherwise
 - a. Allow them to learn why people feel and think differently

Experimenting, Interviewing, and Informing Feedback

Steps to Learning a New Language

- 1. Reading – taking notes after some of the things around us
- 2. Ask to join some regular activities and understand the rhythm
- 3. Use to understand single conversations between two people
- 4. Use to understand apart from pairs the issues and group interactions

Ethnographer roles

- 1. **Observer-Participant** – ethnographer studies people's lives as they go about, interact
 - a. Ethnographer who people sometimes feel as if they are spying them the observer
 - b. When involved record the meaning about everyone in the village
- 2. **Participant-Observer** – how used by ethnographer to obtain comparable information about themselves
 - a. Good to be able to learn and experience
 - b. Offer the experience life in the field

Comparison in Anthropology Matei Candea, 2019 Presents a systematic rethinking of the power and limits of comparison in anthropology

Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume *Theory in Social and Cultural Anthropology An Encyclopedia* Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

Collaborative Anthropology Today Dominic Boyer, George E. Marcus, 2021-01-15 As multisited research has become mainstream in anthropology collaboration has gained new relevance and traction as a critical infrastructure of both fieldwork and theory enabling more ambitious research designs forms of communication and analysis *Collaborative Anthropology Today* is the outcome of a 2017 workshop held at the Center for Ethnography University of California Irvine This book is the latest in a trilogy that includes *Fieldwork Is Not What It Used to Be* and *Theory Can Be More Than It Used to Be* Dominic Boyer and George E Marcus assemble several notable ventures in collaborative anthropology and put them in dialogue with one another as a way of exploring the recent surge of interest in creating new kinds of ethnographic and theoretical partnerships especially in the domains of art media and information Contributors highlight projects in which collaboration has generated new possibilities of expression and conceptualizations of anthropological research as well as prototypes that may be of use to others contemplating their own experimental collaborative ventures

Theory in Anthropology Robert A. Manners, David Kaplan, 2013-11-05 This is VII in a series of ten volumes on the *Theory in Anthropology* Originally published in 1968 this is a sourcebook that was created by the authors need for making accessible in a single volume a sample of those important pieces which are presently scattered in
